Dr. Samuel H. Wilson  
Acting Director  
U.S. Department of Health and Human Services  
National Institutes of Health  
Post Office Box 12233  
Research Triangle Park, North Carolina 27709

Dear Dr. Wilson:

Thank you for your letters of October 25, 2007, and February 28, 2008, to former Secretary Mike Johanns concerning toxicological test method recommendations forwarded by the National Institute of Environmental Health Sciences' Interagency Coordinating Committee on the Validation of Alternative Methods (ICCVAM).

We are pleased to respond. We provided ICCVAM's test recommendations on the use of four *in vitro* methods for ocular toxicity testing and the use of two *in vitro* methods for estimating starting doses for acute oral systemic toxicity tests to scientists with our Agency's Center for Veterinary Biologics (CVB) for their consideration. CVB conducts a limited amount of animal testing in accordance with its responsibilities under the Virus-Serum-Toxin Act (VSTA) to ensure that veterinary vaccines and biologics are pure, safe, potent, and effective. It is the only regulatory unit within the U.S. Department of Agriculture (USDA) that requires animal testing.

After reviewing the information, CVB officials determined that these recommendations do not apply to the safety testing done under the mandates of the VSTA for veterinary biologics. However, we certainly appreciate the opportunity to review the recommendations. Our Agency will post links to these methods on the Web site of the Animal Welfare Information Center at <http://awic.nal.usda.gov/alternatives/> as a resource for investigators considering alternatives to painful or distressful procedures in animals.

Thank you again for providing this information. USDA continues to encourage the development and use of methods that reduce, refine, or replace animal testing while ensuring the scientifically valid results necessary for regulatory testing requirements. We look forward to receiving more such recommendations from ICCVAM.

Sincerely,

  
Cindy J. Smith  
Administrator
