

Breasts, Balding, Acne
Shrunken Testicles
Stunted Height
Hostility & Aggression
Prostate & Liver Damage
Heart Disease, Risk of HIV

STEROIDS

ANABOLIC - ANDROGENIC

**Pump Iron, Not Risks.
Don't Use Anabolic Steroids.**

If you use anabolic (muscle-building) steroids, you risk heart damage, stunted growth, liver damage, severe acne, balding if you're a guy, and facial hair if you're a girl. You're also at risk for HIV and other blood-borne infections if you inject steroids or other drugs.

For more facts, in English and Spanish, go to steroidabuse.gov.
