

TA-Xtrain System Enhancements

	<b>Request</b>	<b>Module (Xtrain, TA/Payback, QVR)</b>	<b>Requestor</b>	<b>Priority</b>	<b>Submitted Date</b>
1	How many M.D.s and Ph.D.s are being trained on our NRSA T32 grants? This question is asked frequently of our office.	QVR?	Sirkis, Elaine		April-03
2	<p>Is there any way through our NIH databases that we can request how many M.D.s and Ph.D.s are trained on all of our multigrant mechanisms? This is the sort of info we should have at our fingertips.</p> <p>1) A column to list the highest degree received at the time of the appointment. It should appear as M.D., Ph.D., B.A., B.S., M.S., etc. We enter the info from the 2271 and should be accessible.</p> <p>2) We would like to run the report from inception to present or request certain years at a time; i.e., years 6–10. This is info that is usable on a daily basis.</p> <p>3) Would it be possible to list how many predoc and postdoc slots have been awarded--not clumped together? This grant was awarded 4 predoc and 5 postdoc slots. The report shows under "Trainees" how many we have entered into the system and not the awarded number.</p>	QVR?	Sirkis, Elaine		April-03
3	TA-WIP screen. Can this be sped up? Performance seems slow.	TA	Steve Fitzgerald		March-03

TA-Xtrain System Enhancements

	<b>Request</b>	<b>Module (Xtrain, TA/Payback, QVR)</b>	<b>Requestor</b>	<b>Priority</b>	<b>Submitted Date</b>
4	Can we add degree info to TA8070 (IRDB Fellowship Maintenance Screen)? To override application business rules? (This is related to request to sweep F31 records.)	TA	Carin Sprick		May-03
5	Modify TA8070 to show the parent grant in the hit list, even if an amendment exists. Problem is that if there's an amendment, it's showing up instead of the parent. Require an explicit entry of the amendment for it to show up.	TA	Carin Sprick		March-03
6	Modify payback calculation for fellowships so that activity code, instead of degree information, is evaluated to determine pre-doc or post-doc status. (July 2003)	TA	Carin Sprick		May-03
7	Allow printing of APAC Form on user desktop.	TA	Marie Willett		December-02
8	Allow OFM access to payback module for purposes of updating financial payback status.	TA	Marie Willett		March-03
9	Add Termination Notice ability to X-Train.	Xtrain	WETS		January-03
10	Add Trainee registration to X-Train.	Xtrain	WETS		January-03
11	Add ability to enter research assistants via X-Train (when OMB approves 2271 for its use).	Xtrain	WETS		January-03
12	Modify COM1100 to display a payback status code for individuals that DO NOT have a payback obligation. Currently, the system does not consistently show a payback status code when there is not an obligation.	TA	Payback Center		May-03

TA-Xtrain System Enhancements

	<b>Request</b>	<b>Module (Xtrain, TA/Payback, QVR)</b>	<b>Requestor</b>	<b>Priority</b>	<b>Submitted Date</b>
	Modify APAC form processing to account for Line 5 address changes. (July)	TA	Analyst		
	Modify application to accommodate changes/verification of address when termination notice needs to be processed and a PERM profile exists. Currently, the edit checker is supposed to be bypassed, but only if the user doesn't have payback roles. If user has payback roles, the application needs to clarify how the user can resolve the problem.	TA	Helpdesk/analyst		
	<p>Modify Xtrain-TA email so that the FROM address is COMMONS@OD.NIH.GOV, and a BCC gets sent to comnot@od.nih.gov Subject: RE: Notification of Electronic Appointments Received.</p> <p>All emails should go out from "Commons" and a BCC sent to "nih era notification". That address is comnot@od.nih.gov.</p>	TA- Mailer	eRA Commons helpdesk/Tim Twomey		

	<b>Request</b>	<b>Module (Xtrain, TA/Payback, QVR)</b>	<b>Requestor</b>	<b>Priority</b>	<b>Submitted Date</b>
	<p>Modify TA exception handling so that a proper message is displayed when the application finds a stipend level ID that does not correspond to the fiscal year of the grant. Currently, if the stipend level Id does not match the FY of the grant, then an error message comes up that says 'Please Acknowledge'. This should be changed to ' The stipend level ID does not match the fiscal year of the grant. Please fix the data before processing.'</p>				
	<p>Add another payback status code to TA module that indicates 'Hold - while participating in the NIH Loan Repayment Program.' This payback status code should be set automatically when the recalculate payback obligation button is executed. If the trainee/fellow is currently under and LRP sysdate is between LRP Start Date and LRP end date, then the payback status should be set to 'Hold - while participating in the NIH Loan Repayment Program.'</p>
