Account Locked Error Message Improved
Modify Invention Report Header Problems Resolved

Home Page

System Notification

The system notification section in the lower-left-hand corner of the home page was updated to reflect the deployment of a new iEdison version, 2.0.1.4. The link 'Release Notes' was updated to display the release notes for release 2.0.1.4 (this document).

What's New Page

Release Notes

The following content modifications were made:

- The date provided for the release of 2.0.1.3 was updated to reflect the official deployment date.
- The release notes for version 2.0.1.3 were updated to include graphical representations for a few of the items in that release.
- A new date entry, 'Release Notes' link, and corresponding descriptive text was added for the release of 2.0.1.4 on August 9, 2003. The link 'Release Notes' displays the release notes for release 2.0.1.4 (this document).

Enhancements

No enhancements were added to the iEdison II system in this release.

Issues Resolved in this Release

The following issues were resolved in the current release of iEdison II.

Account Locked Error Message Improved

The message displayed when an account is locked was updated to provide additional guidance to users regarding what they should do when their account is locked. Specifically, text was added to instruct users to contact the iEdison administrator at their institution. Previously, the system stated that instructions were pending.

Revised Account Locked Message

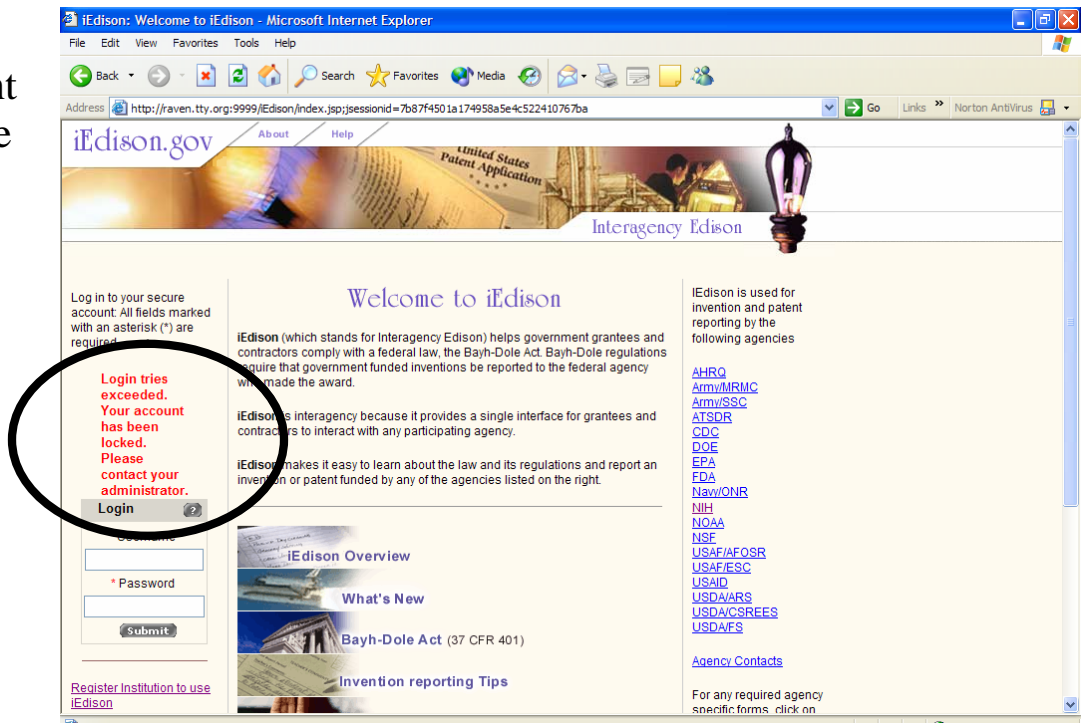

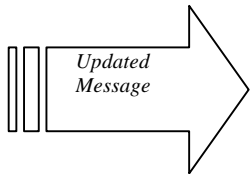

Figure 1: iEdison Home Page, Revised Account Locked Message

Modify Invention Report Header Problems Resolved

The confirmation screen received when an invention report is modified now displays the correct header. Previously, the system displayed the header “Create New Invention Report – Confirmation” instead of “Modify Invention Report – Confirmation” when modifying an invention report.

In addition, the duplicate navigation row that appeared at the top of the screen after receiving the warning message when an invalid title election date was entered has been removed.
