Robert Q. Marston, M.D.  
Associate Director, NIH, and  
Director, Division of Regional Medical Programs  
Chief, Grants Review Branch  
Division of Regional Medical Programs

August 29, 1967

Summary of August 1967 Council Actions on RMP Applications

Five applications were recommended for approval. Although some of these recommendations include the transmittal of the concerns of Council and others require routine budget adjustments, none of these matters are "conditions of award." Preparation of awards can proceed and this Branch will provide inserts for the award letters as appropriate:

Planning supplements for -

North Carolina

Tennessee Mid-South

California (Stanford) - advise concerning active involvement  
outside the Medical Center

South Carolina - adjustment of the budget period and advise  
concerning consultative services

Operational supplement for -

Wisconsin - adjustment of the budget according to subsequent  
correspondence with the Coordinator

Although the remainder of the applications were recommended for conditional approval, each will require considerable negotiation by staff and resubmission of budget and other materials, prior to preparation of awards.
