To facilitate review, please indicate the purpose of your research (check all boxes that apply):

- Map incidence of or mortality from breast cancer
- Identify breast cancer clusters
- Compare breast cancer incidence or mortality among population subgroups
- Map incidence of or mortality from other disease(s)
(please specify where these data will be obtained:) _____
- Compare disease patterns to spatial locations of health care facilities
- Identify or characterize exposure patterns
- Validate exposures predicted by the LI GIS
- Model dispersion patterns of substances in air or water
- Estimate effects of selected environmental factors on breast cancer
- Develop and/or test statistical methods
- Develop and/or test methods of exposure assessment
- Track exposure patterns of vulnerable populations
- Pilot test approach to be used in study of another population
- Pilot test another health outcome
- Other: _____

SECTION 2

Terms and Agreements

I agree to assume all risks and responsibilities in connection with the use of data from the LI GIS.

I further agree to indemnify and hold harmless the LI GIS and the United States Government from any claims, costs, damages, or expenses resulting from the use of data from the LI GIS.

I hereby agree that the LI GIS data that I access will be used for research purposes only, and only for the purposes specified in the approved proposal. Data shall not be sold or used for commercial purposes, nor will data be distributed further to third parties for purposes of sale. The data are provided as a service to the research community without warranty of merchantability or fitness for a particular purpose or any other warranty, expressed or implied.

I will establish and maintain the appropriate administrative, technical use, and physical safeguards to protect the confidentiality of the data and to prevent unauthorized access to it, as described in my proposal. In the event that I discover or am able to deduce the identity of specific patients or providers, I agree that I will not attempt to contact these individuals or institutions.

I will provide a copy of any reports published using LI GIS data to the NCI contact for this project.

I also agree to acknowledge the contributions of the LI GIS in all publications resulting from the use of these data. Recommended wording for the acknowledgement section is:

“This work was supported by the National Cancer Institute, National Institutes of Health, through the Long Island Breast Cancer Study Project and its Geographic Information System (LI GIS).”
