Government Officials

I'm writing this note because I'm an animal lover and I'm against animal cruelty. I was sad to know that our government spend hundreds of millions of our tax dollars every year, testing chemicals on animals. Animals are being killed needlessly, when non-animal test could be adopted instead. Also, public health is jeopardized, as non-animal test methods have been demonstrated to be more accurate, more sensitive, and more protective of public health. I think that, animals should not be used on animal testing and experimentation. For this reason, I want to ask you, please stop animal testing. Animals feel pain, just like us.

Thank you so much for your time.
