

Subject: animal test alternatives

Date: Tuesday, June 5, 2007 4:40 PM

I'm writing to urge you to accept and implement alternatives to animal testing that are already in effect in other countries. There are many alternatives available that are (1) more humane, (2) cheaper and (3) more accurate when developing treatments for humans.

Please contact NEAVS or PCRMA for more information, if needed. It's time we stepped up and used our tax dollars in more humane and productive ways.

Sincerely,
Cathleen Groves
