Filling Out an Application for NIH Grants

How applicant institutions submit a grant application to the National Institutes of Health (NIH) is changing from mailing in a paper application to submitting the application electronically through Grants.gov using the new SF424 (R&R) application. For information about the timetable for each mechanism's conversion to electronic submission and other information, go to <http://era.nih.gov/ElectronicReceipt/>.

For electronic submission, applicant institutions can submit applications on PureEdge™ forms downloaded from Grants.gov, build a system-to-system interface with Grants.gov or work with a commercial service provider. Regardless of submission method, Grants.gov electronically performs a simple validation against the application. If it passes inspection, the application is put in a queue, which the National Institutes of Health (NIH) then pulls into its system.

The NIH performs a more specific and detailed electronic check of the application against the instructions in the application guide and funding opportunity announcements. If the application passes the validation check, the NIH sends an email to the Authorized Organization Representative (AOR)/ Signing Official (SO) and Project Director (PD)/Principal Investigator (PI). The email includes the NIH application tracking number and notification that both the SO and PI have two days to ~~verify view~~ the application ~~image~~ on the eRA Commons ~~so that before~~ the application ~~can begin the review process~~ **automatically moves to Receipt and Referral**.

If the application doesn't pass the validation check—usually because NIH instructions are not being followed—NIH sends the AOR/SO and PD/PI an email saying there are *error messages* or *warnings* that they must address:

- **Error message:** All errors must be fixed to complete the submission process. Once all errors are addressed, the applicant organization must submit the entire corrected application through Grants.gov as a changed/corrected application.
- **Warning:** Warnings do not stop the application from being accepted by the eRA System; however, each warning should be looked at carefully to avoid delays or issues later on in the peer review process.

The AOR/SO and PD/PI can log onto the eRA Commons to view the error codes and warnings. **Note:** since email can be unreliable, it is the applicant's responsibility to periodically check the eRA Commons for the status of the application after notification is received that NIH has pulled it from the Grants.gov queue.

So how can one be sure that the application passes all validation checks and results in no error messages or warnings? Carefully read and follow the application guide and announcement-specific instructions. Be sure that you fill out all sections to the best of your ability and that you include all attachments. NIH requires that all text attachments be in PDF format. Be clear about what is required for the type of application you are submitting. Make sure you observe the page limits for the different attachments. Confirm that you haven't exceeded direct cost limitations. Don't take shortcuts.

Here are some tips for filling out each section of the application. The NIH requires that applications be submitted using the SF424 (R&R) package, as well as supplemental, agency-specific forms identified as Public Health Service (PHS) application forms. Note that included in each funding opportunity announcement is the complete application forms package and guide.

After the application package is submitted, the eRA system will assemble the grant image, generate a table of contents and include headers (PI's name) and footers (page numbers) on all pages.

The following notes, tips, validations and errors/warnings address SF424 Research & Related (R&R) and PHS 398 specific components of an NIH application package.

Revision Summary

Version Number	Revision Date	Summary of Changes
1.9	March 2, 2006	<ul style="list-style-type: none"> • Validations for X01, R03, R21, R21/R33, R33, R34 • Validations for revisions • Added concept of ‘limited validations’ • Added concept of ‘opt out’ from limited validations • Validations for R03, R21, R33, R21/R33 pairs, R34, X01 • Setting and validating SBIR/STTR type for an announcement
	March 16, 2006	<ul style="list-style-type: none"> • Removed validation on indirect cost rate times base on modular budget • Changed validation on program income to 10,000,000,000 (from 100,000,000)
	March 17, 2006	<ul style="list-style-type: none"> • Give error if renewal submitted on R21/R33 pair

Key

	Green cell shading indicates “not accepted at this time”
	Red text indicates new information since the last version.
	Strike through red text indicates deleted information.

Truncated Items: Where items are truncated, grant image should display value as submitted through Grants.gov, unless otherwise indicated.

Validations at Schema Level—The implementation of some validation requirements may be done at the schema level rather than at the application validation level. The validation requirement does not change; however, in some cases, the error message may be different. The error messages in this table apply only in those cases where the validation is done at the application validation level.

Attachment Validations—A validation needs to be done on all attachments (including appendices) to make sure they are in .pdf format. If an attachment is not in .pdf format, the following error should be returned: “The <attachment> attachment is not in PDF format, **or the filename is invalid**. All attachments must be provided to NIH in PDF format; **filenames must be included with no spaces or special characters, and a .pdf extension must be used.**”

Trimming Spaces—For all validations where a comparison is being made on text entry (or dropdown) fields against the eRA database, trim spaces at the end before making the comparison.

Limited Validations and Opting Out—For some mechanisms, there is a set of limited validations that will apply to all PAs and PASs, and to any PARs and RFAs that don’t ‘opt out’. Limited validations have been indicated where applicable below by ‘LV’.

The ‘opt out’ indicator will need to be added for each announcement stored in the database, defaulting to ‘opt in’. For now, data will be updated manually to set the indicator for specific records to ‘opt out’; eventually, this will become part of the Receipt and Referral RFA/PA Maintenance screen.

If an announcement is ‘opt out’, *none* of the limited validations for the corresponding mechanism will be performed for applications submitted in response to that announcement. However, PARs and RFAs that opt out of the limited validations will get a generic warning message if they exceed the threshold for the corresponding validation. In each case, the specific generic message is included in the table below.

PARs and RFAs that opt out of the limited validations are still subject to the validations that have not been identified as limited validations.

Identifying a Combined Mechanism—A Combined Mechanism identifier needs to be added to the information for each announcement stored in the database. This will be used to identify any allowable pairs of mechanisms for an announcement. The identifier can be used in conjunction with the activity code to indicate which combined mechanism is being represented. For now, the only allowable pair that will be identified with the identifier is R21/R33; an activity code of R21 plus this indicator will indicate a combined R21/R33.

Identifying Small Business Type—An indicator for whether an announcement is an SBIR or an STTR needs to be added to the information for each small business announcement stored in the database.

SF424 (R&R)	Federal Identifier	If a resubmission, revision , or renewal, this component is mandatory	For resubmissions (revised applications) and renewals (competing continuations), the Federal Identifier must be included. Please include the IC and serial number of the prior grant number in the Federal Identifier field on the S 424 RR Face page (e.g., CA123456). For revisions, the Federal Identifier must be included. Please include the IC and serial number of the parent grant number in the Federal Identifier field on the SF242 (R&R) Face page (e.g., CA123456).	You must include the prior grant number here if you are submitting a revised application (resubmission), a competing continuation (renewal), or a new Phase II SBIR/STTR. The IC and serial number of the prior grant number will be checked for accuracy. Schema must parse out the components of the grant number.
		If a new Phase II SBIR/STTR, this component is mandatory	For Phase II SBIR/STTR submissions, the Federal Identifier must be included. Please include the IC and serial number of the prior grant number in the Federal Identifier field on the SF424 RR Face page (e.g., CA123456).

Research & Related Budget: Section A & B, Budget Period 1

Component	Field	Validation	Error Message	Notes & Tips
<i>Budget, A&B, Year x (R&R)</i>		Accept submission of modular budget or detailed budget, but not both	Both a modular and a detailed budget have been included with this submission. One or the other may be submitted.	Budget information is necessary for all applications. Some applications will list both the modular and detailed budget components as “optional”. This is to allow the appropriate component to be chosen. Choose one or the other, but not both.
		Allow a submission with neither a modular budget nor a detailed budget component.		
		For a revision, if the parent grant budget is modular, only a modular budget component may be submitted.	The parent grant for this revision uses the modular format; therefore, this application may include a modular budget only.	In mapping, assign a budget period ID based on the year of the budget.
		For an STTR submission, there must be at least one budget included with budget type of subaward/ consortium for each year of the STTR (project) budget.	A Research Institution Budget page must be included for each year of an STTR submission	If you are submitting an STTR application, you must include a Research Institution Budget page for each year of the project (submitted using the Subaward budget type on the budget page).
<i>Budget, A&B, Year x (R&R)</i>	Organizational DUNS	Required for budget type ‘Subaward/Consortium’	The Organizational DUNS has not been included for Sections A&B for <name of organization>	
		One and only one budget should contain the DUNS of the applicant organization.	The Project budget must contain the DUNS number for the applicant organization.	
		This must be a budget that has been identified as ‘Project’	A Subaward budget has been identified for the applicant organization. Budgets for the applicant organization should have the ‘Project’ budget type.	
<i>Budget, A&B, Year x (R&R)</i>	Budget type (project, subaward/ consortium)	If a detailed budget is included, there must be one and only one occurrence with a value of ‘Project’.	Only one budget with a budget type of ‘Project’ for Sections A&B may be submitted.	You can submit only one budget with the budget type “Project” for Sections A&B.
<i>Budget, A&B, Year x (R&R)</i>	Name of organization (for subaward/ consortium)	If multiple detailed budgets have been included in the submission, all budget and warning messages should include the name of the organization for which the budget validation has failed.		Since there is a limit of 250 characters for the error message, put the organization name at the end of the message, and truncate if necessary.

Component	Field	Validation	Error Message	Notes & Tips
<i>Budget, A&B, Year x (R&R)</i>	Start Date	For budget year 1, for Budget Type 'Project', for new applications and resubmissions, must be the same as the Proposed Project Start Date listed on the SF 424 RR Face Page.	For new applications and resubmissions, the start date for the first budget year for Sections A&B must be the same as the proposed project start date listed on the SF424 RR Face Page	Remember to check start and end dates. For new applications and revisions/amendments to new applications, the start date for the first budget year for Sections A&B must be the same as the proposed project start date listed on the SF424 (R&R) face page.
<i>Budget, A&B, Year x (R&R)</i>	End Date	For an R36 application (activity code on funding opportunity = 'R36'), project period cannot be more than two years long. Define project period by time span between project period start date and project period end date as entered on the SF 424 RR Face Page.	The project period for an R36 application is limited to two years.

<i>Budget, F-K, Year x (R&R)</i>	(other3 funds requested)			
<i>Budget, F-K, Year x (R&R)</i>	Other Direct Costs, Total Other Direct Costs	Must be equal to the sum of other direct costs for the budget year.	The Total Other Direct Costs for Budget Year <Budget Year> does not equal the sum of other direct costs for all categories for the corresponding budget year.	
<i>Budget, F-K, Year x (R&R)</i>	Total Direct Costs (A-F)	Required.	The Total Direct Costs Funds Requested for Year <i>x</i> is required.	
		Must be equal to the sum of total salary, wages and fringe benefits, total funds requested for equipment, total travel cost, total participant/trainee support costs, and total other direct costs	The Total Direct Costs for A-F for Budget Year <Budget Year> does not equal the sum of direct costs for Sections A-F.	
		For non-SBIR/STTR, non-R13 and non-U13, non-R36, and non-Opdiv submissions, provide warning if subtotal direct costs for every budget year is <= \$250K. Calculate subtotal direct costs as follows: Total Direct Costs (A-F) minus the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	R01, R03, R15, and R21 direct cost requests of \$250K or less each year must be in modules of \$25K, using the PHS 398 Modular Budget Form and not the R&R Budget Form. Incorrect applications may be delayed in the peer review process or rejected.	

Component	Field	Validation	Error Message	Notes & Tips
		For non-SBIR/STTR submissions, provide warning if subtotal direct costs for <i>any</i> budget year is \geq 500K. Calculate subtotal direct costs as follows: Total Direct Costs (A-F) <i>minus</i> the sum of Total Indirect Costs for all budgets for the corresponding year with budget type 'subaward/consortium'.	Direct cost requests \geq \$500k a year need agreement from ICs, except for RFAs or PAs with budgetary limits. Applications without such approval may be delayed in the peer review process or rejected.	
<i>Budget, F-K, Year x (R&R)</i>	Indirect Costs, Indirect Cost Type	Allow submissions to come in with no indirect costs.		
<i>Budget, F-K, Year x (R&R)</i>	Indirect Costs, Indirect Cost Rate	Provide warning if less than 1.	The Indirect Cost Rate is less than 1 for budget Year <Budget Year>. Please note that this figure represents a percentage (e.g., '25.5', not '.255').

Cover Page (NIH)	PD/PI Information (prefix, first, middle, last, suffix)	Read only, pulled from R&R		
Cover Page (NIH)	PD/PI New Investigator Question			
Cover Page (NIH)	PD/PI Degrees	Match against 4 character degree codes in PI's Commons account (ignore case, spaces, or punctuation). If it does not match anything on list, compare against any 'other degree text' degrees on Commons account. If degree not found on the degree list or on 'other degree text' entries for the PI, display a warning to the PI that the degrees did not match the Commons account, and that the submitted degrees will be displayed on the grant image. "The degrees that will be displayed on the grant image are x, y, and z". In db, save the top three Commons degrees instead of the submitted degrees in the role.	The PD/PI degree: <degree> is not one of the degrees listed for the NIH eRA Commons account: <Credential>. The grant image will display the degrees as submitted.	Be sure to include your educational degrees (by code) as listed in the eRA Commons. The system will compare your application with the information in the eRA Commons profile. If the degrees don't match, the degrees you submit in the application will be displayed in the grant image but the top 3 degrees listed in the Commons account will be saved in the database. Post-testing solution: Provide warning that Commons degrees are xxxx and degrees submitted through grants.gov are yyyy and we will be displaying the top three Commons degrees. Provide ability for submitter to update the Commons account and to regenerate the image to display the updated information from the Commons account.
		Provide a warning if no degrees have been included.	No degrees have been submitted for the PD/PI. If you want the degrees to be displayed on the face page of the grant image, you should include them on the PHS 398 Cover Page Supplement.

PHS 398: Modular Budget

Component	Field	Validation	Error Message	Notes & Tips
<i>Modular Budget, Years 1-5 (NIH)</i>		Accept submission of modular budget or detailed budget, but not both	Both a modular and a detailed budget have been included with this submission. One or the other may be submitted.	
		Do not accept a modular budget for R13 applications (activity code on funding opportunity = 'R13' or 'U13')	Modular budgets may not be submitted for Conference Grant applications.	
		For a revision, if the parent grant budget is non-modular, only a detailed budget component may be submitted.	The parent grant for this revision uses the non-modular format; therefore, this application may include a detailed R&R budget component only.	
		For an R15 application (activity code on funding opportunity = 'R15'), return warning if more than one budget period has been included.	An AREA grant should be submitted for one budget period only. This may delay the peer review process.	
		Do not accept a modular budget for SBIR/STTR applications	Modular budgets may not be submitted for SBIR/STTR submissions.	
<i>Modular Budget, Years 1-5 (NIH)</i>	Start Date	For budget period 1, for new applications and revisions to new applications, must be the same as the Project Start Date listed on the SF 424 RR Face Page	For new applications and resubmissions, the modular budget year 1 start date must be the same as the proposed project start date listed on the SF 424 RR Face Page.	
<i>Modular Budget, Years 1-5 (NIH)</i>	End Date	Budget period end date must be greater than budget period start date.	The modular budget year <budget year> end date must be later than the modular budget year <budget year> start date.	
		For an R15 application (activity code on funding opportunity = 'R15'), return warning if project period is more than three years long. Define project period by time span between project period start date and project period end date as entered on the SF 424 RR Face Page.	The project period for AREA grant applications is limited to three years. The application will be accepted, but may be delayed in the peer review process.	

Component	Field	Validation	Error Message	Notes & Tips
		For an R36 application (activity code on funding opportunity = 'R36'), project period cannot be more than two years long. Define project period by time span between project period start date and project period end date as entered on the SF 424 RR Face Page.	The project period for an R36 application is limited to two years.	
Modular Budget, Years 1-5 (NIH)	Direct Costs, Direct Cost Less Consortium, F&A	Must be <= 250K, must be a multiple of 25K for each budget year	The total direct costs for modular budget year <budget year> are greater than \$250K, or are not in increments of \$25K.	
		For R15 submissions, provide warning if this value for any budget year is >= 150K.	Direct cost requests are limited to \$150k a year for AREA grants. Applications that exceed this limit may be delayed in the peer review process or rejected.	
		For R03 submissions, provide warning if this value for any budget year is >50K (LV).	Direct cost requests are limited to \$50k a year for this application. Applications that exceed this limit may be delayed in the peer review process or rejected.	
			Warning message for 'opt out' announcements: Be sure that you have complied with the allowable direct cost limitations for this FOA. Otherwise, your application may be delayed and rejected in the review process.	
		For R21 submissions, provide warning if this value for any budget year is >200K (LV).	Direct cost requests are limited to \$200k a year for this application. Applications that exceed this limit may be delayed in the peer review process or rejected.	
			Warning message for 'opt out' announcements: Be sure that you have complied with the allowable direct cost limitations for this FOA. Otherwise, your application may be delayed and rejected in the review process.	
For R34 submissions, provide warning if this value for any budget year is >225K (LV).	Direct cost requests are limited to \$225k a year for this application. Applications that exceed this limit may be delayed in the peer review process or rejected.
