

## CHILD POLICY

It is a long-standing NCI-Frederick policy, that non-employed children under 18 years-of-age are not permitted entry into laboratories, shops, or other potentially hazardous work areas.

Guests and visitors, including children, must sign the visitor sign-in log located at the Protective Services Office in Building 426. Each visitor will be issued a visitor badge for identification purposes while within our buildings and facilities. Visitors must sign out and return their badges before leaving.

Children must be properly supervised and accompanied by an adult while on NCI-F grounds and facilities. Properly supervised children may be provided admittance into the public and other nonhazardous areas of the Institute. Such areas (e.g., offices, conference areas and reading rooms) must be rooms physically separated from a laboratory or shop. Office areas that are an integral part of a laboratory or shop room **are** considered as laboratory or shop space.

Instances in which persons under 18 years-of-age are found in hazardous areas (laboratories, shops, etc.) or improperly supervised will be reported to the appropriate management.
