 - DOE
 - DOT
 - Education
 - EPA
 - HHS: NIH, FDA, DCA

RESEARCH BUSINESS MODELS

- Agencies –
 - Interior: USGS
 - NASA
 - NSF
 - OMB
 - OSTP
 - USDA
 - VA

RESEARCH BUSINESS MODELS

- **Description** –
 - Facilitate a coordinated effort across Federal agencies to identify and address important policy implications arising from the changing nature of scientific research
 - Examine the concomitant impacts these changes have had or should have on business models and business practices for the conduct of scientific research sponsored by the Federal government

Facilitating Collaborative Multidisciplinary Research

- Acknowledgement of Co-PIs in proposals and agency information systems
- Stability and predictability of support for research facilities and instrumentation independent of individual projects
- Support for graduate and postdoctoral students: salary, stipends, benefits, etc.
- Collaboration between universities, federal laboratories, and industry

Improving Consistency of Agency Practice

- Standard progress and financial reporting procedures
- Broader use of the Federal Demonstration Partnership (FDP) model sub-agreement templates
- Consistent award notices format and terms and conditions

Harmonizing Stewardship and Accountability

- A-133 monitoring requirements for A-133 compliant institutions
- Consistent Federal-wide policies for Research Conflict of Interest
- Consistent Federal-wide policies for Research Misconduct
