*CONSER standard and minimal record practice:* It is only required to apply this LCRI to non-analyzable serials with generic titles, monographic series, and headings for related work added entries.

The first part of this LCRI addresses conflict resolution for serials (including numbered and unnumbered monographic series). This part of the LCRI represents *LC/PCC practice*. As of June 1, 2006, LC catalogers will consult SARS only when determining if conflict exists.

Also, see the sections “Monographs” and “Integrating Resources” below for guidelines about the use of qualifiers for single-volume monographs, multipart items, and integrating resources.

*Note:* Indicators are not given in the examples when the heading could be used in either an authority or a bibliographic record because the indicators in authority and bibliographic records are not the same for the 130 field.
