This map is the product of the U.S. Fish and Wildlife Service's National Wetlands Inventory Program, Northeast Region and was produced for the Service's New Jersey Field Office. Wetlands of potential significance for the subject function were identified following criteria listed in "Correlating Enhanced National Wetlands Inventory Data with Wetland Functions for Watershed Assessments: a Rationale for Northeastern U.S. Wetlands" (Tiner 2003). The map is intended to be used for general planning purposes and was intended to be displayed at a scale of 1:75,000. There are no warranties made as to the fitness of this map for other purposes or for reproduction at any other than the original scale.
