

WHAT YOU CAN DO!

High gas prices and energy costs are affecting all Americans and Speaker Nancy Pelosi continues to refuse to hold a simple up or down vote on increasing American-made energy. When Congress adjourned for the August recess without addressing the ongoing energy crisis, I joined other Republicans in protest on the Floor of the House of Representatives.

We spoke with people touring the Capitol about the need for an “All of the Above” energy policy and we continue to ask that Speaker Pelosi call Congress back for a vote. Only the Speaker has the power to set the agenda of Congress, and it would be helpful for her to hear your voice. If you want your voice to be heard on this issue, you can call the Capitol Switchboard and ask to be connected to Speaker Pelosi’s office. I also encourage you to call my offices and share your stories about how high gas prices are affecting your lives.
