NOTE TO DR. FOEGE AND DR. HAYES

Attached is a letter from Mrs. Diane Schweber, whose husband Dr. Saul J. Schweber is said to have received the first of three inoculations of Heptavax B vaccine and now suffers from Guillian-Barre syndrome; also attached is my acknowledgment of her letter.

I would appreciate your looking into this matter as appropriate for your agency, and let me know if this is becoming a problem or is an isolated event because I want to provide Mrs. Schweber a more definitive response in the near future.

Thank you.

C. Everett Koop, M.D.
Surgeon General
