AnnaLee,

FYI, please log in as public comment for UV radiation. Thanks,

Bill

Dr. Jameson:

I note that broad spectrum UV radiation is on your list for review in this forthcoming publication, as mentioned on:

<http://ntp-server.niehs.nih.gov/htdocs/liason/10thRoCNewNomsFR.html>

Representatives of the American Academy of Dermatology have commented on the widespread use of indoor tanning facilities in the US (and elsewhere around the world). If possible during your deliberations, further elucidation of the role of UV radiation (and particularly UVA radiation) in the

development of malignant melanoma would, I think, be beneficial. One reference to this topic is a 1998 paper in the Journal of the American Academy of Dermatology:

<http://www.eblue.org/scripts/om.dll/serve?action=searchDB&searchDBfor=art&artType=abs&id=a86927&nav=abs&special=hilite&query=%5Babstract%5D%28tanning+beds%2C%29%5Bbody%5D%28tanning+beds%2C%29%5Barticletitle%5D%28tanning+beds%2C%29%5Bcontribs%5D%28tanning+beds%2C%29>
