## **List of Qualifying NMTC Census Tracts within High Migration Rural Counties**

The New Markets Tax Credit (NMTC) Program supports activities in eligible Low-Income Communities (LICs), which are defined by statute as population census tracts with a poverty rate of 20 percent or greater or a median family income at or below 80 percent of the applicable area median family income (26 USC §45D(e)).

Section 223 of the American Jobs Creation Act of 2004 (P.L. 108-357, 118 Stat. 1418) amended the definition of LICs to include, among other things, census tracts in High Migration Rural Counties with a median family income at or below 85 percent of the applicable area median family income. A High Migration Rural County is any county which, during the 20-year period ending with the year in which the most recent census was conducted, has a net out-migration of inhabitants from the county of at least 10 percent of the population of the county at the beginning of such period.

The CDFI Fund has identified 371 census tracts that, based on 2000 census data, qualify under this special provision. These are census tracts that have become eligible for NMTC investments pursuant to the American Jobs Creation Act. A list of these qualifying census tracts is attached.
