

Vol. 1 -- # 22

“Concerns Facing the Public Health Service”
The 60th Interagency Institute for Federal Health Care Executives
Clayton Missouri
May 7, 1982

This speech was prepared for delivery by me, but because of a conflict considered to be more important to my new role as Director of International Health. I attended the World Health Assembly in Geneva and the address was read by Faye G. Abdellah, Chief Nurse of the Public Health Service later to be the Deputy Surgeon General.
