Introduction to the Economic Census	v
Mining.....	ix
Tables	
1. Products or Services Statistics: 2002 and 1997.....	1
2. Product Class Shipments or Receipts for Services for Selected States and Offshore Areas: 2002 and 1997	11
Appendixes	
A. Explanation of Terms	A-1
B. NAICS Codes, Titles, and Descriptions	--
C. Methodology.....	C-1
D. Geographic Notes	--
E. Metropolitan and Micropolitan Statistical Areas	--
F. Comparability of Product Classes and Product Codes: 2002 to 1997.....	F-1

-- Not applicable for this report.

Table 1. Products or Services Statistics: 2002 and 1997

[Includes quantity and value of products or receipts for services produced by (1) establishments classified in the NAICS industry that matches the first six digits of the product or service code (primary), and (2) establishments classified in other industries (secondary). Transfers of products from one establishment of a company to another establishment of the same company (interplant transfers) are also included. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

Product or service code	Product or service	Quantity of production for all purposes	Product shipments or receipts for services	
			Quantity	Value (\$1,000)
211111	Crude petroleum and natural gas extraction2002.. X .1997.. X	X X	81 247 954 77 300 748
2111111	Crude petroleum, including lease condensate (volumes corrected to 60 degrees F) shipped2002.. X .1997.. X	X X	30 664 643 34 998 081

4 Product Summary

Table 1. Products or Services Statistics: 2002 and 1997—Con.

[Includes quantity and value of products or receipts for services produced by (1) establishments classified in the NAICS industry that matches the first six digits of the product or service code (primary), and (2) establishments classified in other industries (secondary). Transfers of products from one establishment of a company to another establishment of the same company (interplant transfers) are also included. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

Product or service code	Product or service	Quantity of production for all purposes	Product shipments or receipts for services	
			Quantity	Value (\$1,000)
212299	All other metal ore mining—Con.			
2122991	Bauxite.....2002..	X	X	D

Table 1. Products or Services Statistics: 2002 and 1997—Con.

[Includes quantity and value of products or receipts for services produced by (1) establishments classified in the NAICS industry that matches the first six digits of the product or service code (primary), and (2) establishments classified in other industries (secondary). Transfers of products from one establishment of a company to another establishment of the same company (interplant transfers) are also included. Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, and explanation of terms, see note 2 at end of table. For meaning of abbreviations and symbols, see introductory text]

Note 1: For some establishments, data have been estimated from central unit values that are based on quantity-value relationships of reported data. The following symbols are used when percentage of each quantity figure estimated in this manner equals or exceeds 10 percent of published figure: p—10 to 19 percent estimated; q—20 to 29 percent estimated. If 30 percent or more is estimated, figure is replaced by S.

Note 2: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C.

Table 2. Product Class Shipments or Receipts for Services for Selected States and Offshore Areas: 2002 and 1997

[Product classes covered are those that are economically significant and whose production is geographically dispersed. Also, product class data are omitted from the table if (1) the state accounts for less than \$2 million, (2) the data would disclose operations of individual companies in 2002, or (3) the data are miscellaneous or "not specified by kind" (nsk). Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, explanation of terms, and geographical definitions, see note at end of table. For information on geographic areas followed by *, see Appendix D. For meaning of abbreviations and symbols, see introductory text]

See footnotes at end of table.

Table 2. Product Class Shipments or Receipts for Services for Selected States and Offshore Areas: 2002 and 1997—Con.

[Product classes covered are those that are economically significant and whose production is geographically dispersed. Also, product class data are omitted from the table if (1) the state accounts for less than \$2 million, (2) the data would disclose operations of individual companies in 2002, or (3) the data are miscellaneous or "not specified by kind" (nsk). Data based on the 2002 Economic Census. For information on confidentiality protection, nonsampling error, explanation of terms, and geographical definitions, see note at end of table. For information on geographic areas followed by *, see Appendix D. For meaning of abbreviations and symbols, see introductory text]

Product or service class code	Product or service class and geographic area	Value of product shipments or receipts for services (\$1,000)
2131150	Nonmetallic minerals services (except fuels)—Con.

Note: The data in this table are based on the 2002 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from American FactFinder tables should cite the Census Bureau as the source of the original data only. For explanation of terms, see Appendix A. For full technical documentation, see Appendix C. For geographical definitions, see Appendix D.
