Subject: Peer Review

Dear OMB:

I am a science teacher and a graduate student in wildlife and fisheries sciences. The Office of Management and Budget should withdraw the proposed Bulletin and engage the scientific community in an open, transparent process. Also, There is no evidence that the current system is not working. Many speakers pointed out that not a single example has been raised demonstrating inappropriate or flawed federal regulations being promulgated as a result of failure to peer review.

Sincerely,
Chris Huff
Graduate Student
Department of Wildlife and Fisheries Sciences
Texas A&M University
