

APPENDIX F—FORMAT OF SF 132 AND SF 133

A. Budgetary Resources—Format of SF 132 and SF 133

Use the entries in the following table to prepare the "Budgetary Resources" section of the SF 132, Apportionment and Reapportionment Schedule (for unexpired accounts only), and the SF 133, Report on Budget Execution and Budgetary Resources (for unexpired accounts and expired accounts, including accounts about to be closed and annual fund symbols that are older than five years that have legally authorized extended disbursing authority).

BUDGETARY RESOURCES

Entry	Description
Line 1. Unobligated balance, start of year:	
A. Brought forward, October 1 (+ or -)	<p><i>For unexpired accounts:</i></p> <p>Amount of unobligated balance brought forward from prior fiscal years as of October 1 of the current fiscal year that is <i>available for obligation</i> as defined in section 20.4(f). Applies only to no-year and unexpired multiple-year accounts, therefore do <i>not</i> include amounts not available for obligation.</p> <p>Include reductions of these prior year balances enacted in the current year on lines 5 or 6B.</p> <p>If you apportion balances brought forward from prior years before the actual balance is known, include an estimated amount on this line, and include the actual balance in the next reapportionment request. When completing an apportionment, you must use a line split of E to indicate the balance is an Estimate or a line split of A to indicate the use of an Actual balance.</p> <p>The amount on this line should be the same as the <i>end of year amounts</i> of the previous fiscal year:</p> <ul style="list-style-type: none"> • On lines 9 and 10 of the September 30 SF 133; • In the Treasury Combined Statement Appendix; and • In the past year column of the Program and Financing Schedule of the Budget Appendix. <p>If the account is apportioned by time periods and the difference between the estimate and the actual is within the range of adjustment permitted by section 120.38, adjust the apportionments accordingly. If the difference is greater, OMB must approve a request for reapportionment before the funds that are greater than the automatic apportionment can be obligated.</p> <p><i>For indefinite budget authority:</i></p> <p>Do not carry forward any amounts on this line for (1) indefinite appropriations except for available special and trust fund receipts; (2) indefinite borrowing authority; or indefinite contract authority.</p>

Entry	Description
<p>B. Adjustment to unobligated balance brought forward, October 1 (+ or -)</p>	<p><i>For expired accounts:</i></p> <p>Amount of expired unobligated balances available for upward adjustments of obligations.</p> <p>Normally, this is a positive amount. A negative amount indicates a deficiency in the prior fiscal year.</p> <p>In the first expired year, the amount should be the same as the amount of unobligated balances on line 9 and 10C of the previous fiscal year's September 30 SF 133. In the second expired year and thereafter, the amount should be the same as the amount on line 10C of the previous fiscal year's September 30 SF 133.</p> <p>These balances are available only for valid upward adjustments of obligations that were properly incurred against the account during the unexpired phase.</p> <p><i>Appropriated receipts.</i>—Do not include the balances of unavailable collections that are precluded from obligation due to a provision of law, such as a benefit formula or limitation. See lines 3A1 and 5.</p> <p><i>For unexpired and expired accounts:</i></p> <p>Changes to unobligated balances that occurred in a prior fiscal year and that were not recorded in the unobligated balance as of October 1 of the current fiscal year. These may be identified by the financial statement auditors, agency personnel, or others.</p> <p>Include adjustments posted to the agency financial system that are either material or non-material. When reporting to FACTS II, agencies will use an attribute to show that their USSGL account balances are not current-year activity—even though these balances would otherwise look like current-year activity. FACTS II will use this attribute to crosswalk these USSGL account balances to this adjustment line.</p> <p>OMB and the Department of the Treasury's Financial Management Service (FMS) will review the Fund Balance with Treasury (FBWT) component of the adjustments that agencies report to FACTS II each quarter. FMS will only backdate prior year adjustments on a transaction basis in a Treasury Appropriation Fund Symbol (TAFS) that round to \$1 million or more. This range includes amounts above \$500,000.</p> <p>Agencies should generally exclude reclassifications from clearing accounts to other TAFSs, but may consult OMB if they want to include some of these reclassifications as adjustments.</p> <p>Exclude the following amounts from this line:</p> <ul style="list-style-type: none"> • Downward adjustments of unpaid obligations incurred in prior fiscal years that were not outlayed as reported on line 2A; • Upward adjustments of obligations previously incurred as reported on line 8; and • Refunds collected from prior year obligations that have been outlayed to the appropriation of fund account charged with the original obligations as reported on line 3D1a. <p>On the SF 133, material and non-material adjustments to the unobligated balance as of October 1 of the current fiscal year should be</p>

Entry	Description
	<p>included on line 1B. On the Statement of Budgetary Resources, material amounts are part of the unobligated balance as of October 1 of the current fiscal year because the prior year's financial statements are restated.</p> <p>NOTE: Starting in 1st quarter 2008, agencies must separately report adjustments in their FACTS II submissions. During the first two quarters of 2008, Treasury and OMB will continue with past practice and show the adjustments as though they are current year activity on the SF 133 reports. Starting in 3rd quarter 2008, Treasury and OMB plan to show these adjustments on the adjustment lines of the SF 133 reports.</p>
Line 2. Recoveries of prior year unpaid obligations:	
A. Actual	<p><i>For unexpired and expired accounts:</i></p> <p>Amount of any cancellations or downward adjustments of obligations incurred in <i>prior fiscal years</i> that were <i>not outlayed</i>. Include the adjustments since October 1 of the current year. Show the actual recoveries, as shown on the SF 133, on reapportionment requests.</p> <p>Include recovered amounts obligated against indefinite borrowing authority that was borrowed. Then subtract the same amount on line 6C.</p> <p>Include recovered amounts obligated against <i>indefinite</i> borrowing authority that was <i>not</i> borrowed or <i>unfunded</i> contract authority. Then subtract the same amount on line 6D.</p> <p>Exclude recovered amounts obligated against indefinite contract authority that was funded. Do not subtract the same amount on line 6D.</p> <p>Exclude any cancellations or downward adjustments of obligations incurred and outlayed in prior fiscal years since they must be accompanied by cash refunds. Cash refunds collected (i.e., recoveries of prior year obligations incurred and outlayed in prior fiscal years) are to be included on line 3D1a. For upward adjustments, see line 8.</p> <p>Exclude recoveries of current year unpaid obligations, which will be netted against obligations on line 8.</p> <p>If a recovery is significant, you may want to explain in a footnote.</p> <p>Exclude any adjustments to current year beginning balance recorded on lines 1B and 12A2.</p> <p>For the final September 30 report before an account will be closed, all remaining unobligated and obligated balances must be canceled. To present these obligated balances as canceled, include the amount to be canceled, as a positive. Then, subtract the same amount on line 6A, <i>Cancellations of expired and no-year accounts</i>.</p>
B. Anticipated	<p><i>For unexpired accounts:</i></p> <p>Amount of the current estimate of additional recoveries of prior fiscal year obligations anticipated in unexpired accounts for the remainder of the fiscal year.</p> <p>For no-year and multi-year accounts, there may be amounts on this line after the first fiscal year.</p> <p>No amount should be on this line on the September 30 report.</p> <p>For unexpired annual accounts, leave lines 2A and 2B blank.</p>

Entry	Description
Line 3. Budget authority:	Use budget authority lines (3A through 3C) for unexpired accounts.
A. Appropriation	Amount of appropriations specified in appropriations acts or in substantive laws that become available for obligation on or after October 1 of the fiscal year.
1. Actual	The following paragraphs describe the application of the above principles to specific circumstances:
	<p><i>Regular appropriations.</i>—Amounts made available in any of the 13 regular appropriations acts. In cases where the amount appropriated is reduced by an amount of offsetting collections or revenues during the fiscal year so as to result in a final fiscal year appropriation estimated at not more than XXX, the amount derived from the General Fund of the U.S. Treasury shown on this line should be reduced by the amount of offsetting collections or revenues received during the fiscal year on the September 30 SF 133. See exhibit 130N.</p>
	<p><i>Supplemental appropriations.</i>—Amounts made available in supplemental appropriations acts.</p>
	<p><i>Reappropriations.</i> — Amount of new budget authority resulting from legislation enacted after the law that provided the budget authority and that extends the period of availability of funds that have expired or would otherwise expire. Such extensions of availability are counted as new budget authority in the first year of the extended availability (see sections 20.4(h) and 121.10). Amounts in the gaining account in the year of which they become newly available for obligation. The losing account has expired; therefore, no reapportionment action is needed for the losing account. For the SF 133, the losing account will include a negative amount on line 6B of the previous year.</p>
	<p><i>Appropriation provided under a continuing resolution.</i>—The annualized level of the appropriation. If the continuing resolution is for less than the full year, subtract the portion not available on line 5. See exhibits 121H and 121I.</p>
	<p>When the regular appropriations act is passed, replace the amount on this line with the amount specified in the regular appropriations act. See exhibit 121J.</p>
	<p><i>Advance appropriation.</i>—Include in the first fiscal year in which the amounts become available for obligation. For example, if you received advance appropriations for fiscal year 2002 in the regular annual appropriations act for fiscal year 2001, then include the advance appropriation on this line for the fiscal year 2002.</p>
	<p><i>Forward funding.</i>—Include the amount appropriated on this line even though the funds may not become available until July 1st.</p>
	<p><i>Advance funding.</i>—Include the portion that will be obligated in the current year on this line. Exclude the amount obligated last year.</p>
	<p><i>Appropriated receipts.</i>—Collections deposited in special and trust fund receipt accounts that are earmarked for special and trust fund expenditure accounts. Of these amounts:</p>
	<ul style="list-style-type: none"> • Some receipts are <i>appropriated</i> and are available for obligation. Include the amounts <i>collected in the current fiscal year</i> on this line.

Entry	Description
	<ul style="list-style-type: none"> • Some receipts are <i>appropriated, but a portion is precluded from obligation</i> by a provision of law, such as a benefit formula or limitation. Include the amounts <i>collected in the current fiscal year</i> on this line. Subtract the amounts that are that are not expected to be available as a negative amount on line 5 and show this amount on the September 30 report. See exhibits 121P and 130L. • Some receipts were collected in a previous fiscal year and precluded from obligation in a previous fiscal year. Include the amounts expected to become available pursuant to law during the fiscal year on this line. • Some receipts are <i>not appropriated</i>. Exclude these amounts from this line. <p>NOTE: In exceptional cases, there is authority in law to invest collections. In such cases, the current year collections shown on line 5 and prior year collections that were precluded from obligation (not shown on the SF 132) will not be available for obligation (and will not be included on the SF 132 and SF 133 until needed to incur obligations) but will be available for investment. Unlike OMB, Treasury classifies these funds as "available."</p> <p>Some laws that make appropriated receipts available for obligation specify the amount appropriated. These are <i>definite appropriations</i>. Other laws that make appropriated receipts available for obligation do not specify the amount appropriated. These appropriated receipts are <i>indefinite appropriations</i>. For indefinite appropriations of appropriated receipts, follow the instructions for appropriated receipts.</p> <p><i>Indefinite appropriations other than from appropriated receipts.</i>—Amount certified by appropriation warrants for the year, after being reduced by negative warrants issued by the Treasury or end-of-year statements.</p> <p><i>Appropriations contingent upon authorizing legislation or upon designation as an emergency.</i>—When an appropriations act specifies that all or a portion of the amount appropriated is not available for obligation until specifically authorized by another law, or are not available for obligation until the President submits a budget request to the Congress designating the amount as an emergency:</p> <ul style="list-style-type: none"> • Include the <i>full amount</i> of the appropriation on line 3A1, and • Subtract the amount <i>not</i> authorized by law or <i>not designated</i> as emergency requirements by the President on line 5 except on the September 30 SF 133. • At the beginning of the next fiscal year, any unobligated balance that is still contingent and would still be available for new obligations if the contingency is met will be included on line 1A and subtracted on line 5 as unavailable until either the authorizing legislation is enacted or the amount is designated by the President. This paragraph does not apply to contingent emergency appropriations enacted in FY 1999 or earlier.

Entry	Description
	<ul style="list-style-type: none"> With the expiration of section 251 of the Budget Enforcement Act, there is no longer a statutory procedure for “emergency” declarations. For releases of previously appropriated funding made contingent on the President taking additional action, agencies should contact their OMB representative. <p><i>Contingent emergency appropriations from FY 1999 and prior years.</i>—If the President designates a contingent emergency appropriation from FY 1999 or a prior year as emergency requirements, include the amount on this line in the year of the Presidential designation.</p> <p><i>Appropriations to liquidate debt.</i>—Appropriations that are available to repay amounts borrowed from the Treasury but are not available to incur obligations. Include the appropriation to liquidate debt on this line and the repayment to Treasury on line 6C, as a negative. Include any excess on line 6D, as a negative.</p> <p><i>Appropriations to liquidate deficiencies.</i>—Appropriations that are available to liquidate obligations in excess of budgetary resources but are not available to incur obligations. Include the appropriation to liquidate deficiencies on this line. This should cover the deficiency (reflected as a negative unobligated balance carried forward on line 1A). <u>This applies to unexpired and expired accounts.</u> Normally, there are no excess amounts because these appropriations are requested after the deficiency is known, whereas, the agencies normally budget for appropriations to liquidate debt and appropriations to liquidate contract authority.</p> <p><i>Appropriations to liquidate contract authority.</i>—Typically, these are separate appropriations of liquidating cash in appropriations acts and an amount equal to the appropriation to liquidate is shown as a negative on line 6E. Thus, the total budgetary resources on line 7 equal zero. See exhibit 1210.</p> <p>Occasionally, these appropriations include the authority to liquidate obligations where anticipated offsetting collections have not been realized. The amounts are available to liquidate contract authority but are not available for obligation. Include such appropriations to liquidate contract authority on this line. Include any excess amounts on line 6D as a negative.</p> <p><i>Appropriations substituted for borrowing authority.</i>—Occasionally, portions of appropriations are available to liquidate obligations initially incurred against borrowing authority when the borrowing is not exercised. The amounts are available to liquidate obligations but are not available for obligation. Include such portion substituted for borrowing authority on this line. Include an amount equal to the portion of appropriation substituted for borrowing authority on line 6D as a negative. Thus, the budgetary resources on line 7 equal zero.</p> <p>Appropriations of Specific Amounts of which "Not to Exceed" a Portion Remains Available Beyond the Remainder of the Appropriation. See details following the description of line 7.</p> <p><i>Interest on the public debt.</i> See details following the description of line 7.</p>
2. Anticipated	<p>Include:</p> <ul style="list-style-type: none"> Amount of indefinite appropriations anticipated to become available under existing law for the remainder of the fiscal year.

Entry	Description
	<p>On the SF 133, this amount may differ from the amount on the latest SF 132 to the extent it is a more current estimate.</p> <ul style="list-style-type: none"> • Anticipated collection of available receipts. <p>Do not include:</p> <ul style="list-style-type: none"> • Indefinite appropriations included on line 3A1. • Anticipated, un-enacted supplemental appropriations. <p>Use this line for reporting other transactions only with prior approval of the OMB representative with budget responsibility for the account.</p> <p>Identify the law(s) providing the appropriations included on lines 3A1 and 3A2 in a footnote.</p>
<p>B. Borrowing authority</p>	<p>Amount of new borrowing authority, primarily from the Treasury, to finance obligations and outlays. Include the amount becoming available for obligation on or after October 1 of the fiscal year.</p> <p><i>Definite borrowing authority.</i>—Include the amount specified in law.</p> <p><i>Indefinite borrowing authority.</i>—Include an estimate of the amount to be obligated during the fiscal year. On the September 30 report, include the portion that is not needed on line 6D, as a negative.</p> <p><i>Repayment of principal and interest.</i>—Include the repayment of principal, as a negative, on line 6C after including estimated interest obligations on line 8.</p> <p><i>Appropriation to liquidate debt.</i>—Do not include these appropriations on this line. Include this authority on line 3A1. It is provided when proceeds to the account are insufficient to repay borrowing. If a portion of the appropriation to liquidate debt is not needed, include the amount (as a negative) on line 6D.</p> <p><i>Direct loan financing accounts.</i>—Include the amount of new borrowing authority needed to finance the part of direct loan obligations not financed by subsidy payments from the program account and fees from borrowers.</p> <p><i>Guaranteed loan financing accounts.</i>—Include the amount of new borrowing authority needed to cover any default claims and other cash outflows that cannot be financed by unobligated balances.</p>
<p>C. Contract authority</p>	<p>Amount of new contract authority to incur obligations that typically will require a separate appropriation of liquidating cash before payments can be made.</p> <p>Occasionally, contract authority is provided in anticipation of receiving offsetting collections. Include the amount becoming available on or after October 1 of the fiscal year.</p> <p><i>Definite contract authority.</i>—Include the amount specified in law.</p> <p><i>Indefinite contract authority.</i>—Include an estimate of the amount to be obligated during the year. On the September 30 report, include the portion that is not needed on line 6D, as a negative.</p> <p><i>Appropriation to liquidate contract authority.</i>—Do not include on this line. Include on line 3A1. If a portion of the appropriation to liquidate contract authority is not needed, then include the amount (as a negative) on line 6D.</p>

Entry	Description
D. Spending authority from offsetting collections (gross):	<p>For initial apportionments, include anticipated collections on lines 3D3 or 3D5c, as appropriate. If the account is reapportioned during the year, include actual amounts on lines 3D1, 3D2, 3D5a, and 3D5b and anticipated amounts on lines 3D3 or 3D5c.</p> <p><i>Special and trust fund accounts.</i>—Include offsetting collections for reimbursable work and payments from Federal funds when specifically authorized by law.</p> <p>Exclude <i>appropriated receipts</i> which should be included on line 3A1.</p>
1. Earned:	
a. Collected	<p><i>For unexpired and expired accounts:</i></p> <p>Amount of <i>reimbursements or other income earned and collected</i> to date during the current fiscal year, including those for revolving funds.</p> <p>Include <i>collections of receivables</i> in either the net unpaid obligations or the unobligated balances brought forward, if any.</p> <p>Include <i>refunds collected</i> from prior year obligations that have been outlayed to the appropriation of fund account charged with the original obligation. This represents one type of recoveries of prior year obligations. For recoveries of prior year unpaid obligations, see line 2.</p> <p>Include spending authority from offsetting collections <i>earned and collected</i> to liquidate the contract authority. Include the collections to liquidate the contract authority on line 6D, as a negative.</p> <p>Include portion of spending authority from offsetting collections <i>earned and collected</i> that is substituted for borrowing authority to liquidate obligations initially incurred against borrowing authority when the borrowing is not exercised. Include the collections to liquidate the borrowing authority on line 6D, as a negative.</p> <p>Exclude cash refunds of amounts obligated and outlayed during the current year. For SF 133, these should be netted against the appropriate line 8 and line 19A.</p> <p>For credit financing accounts, include the subsidy collected from the program account when loans are disbursed.</p> <p>Exclude any adjustments to current year beginning balances recorded on lines 1B and 12B2.</p>

Also include, as a negative, receivables written off.</p> <p><i>For unexpired and expired accounts:</i></p> <p>Federal agencies should only write-off accounts receivable from a Federal source under limited circumstances. Those circumstances include: denial from Congress on requests for appropriations in order to satisfy the accounts receivable (supplemental or deficiency appropriations) or if a write-off is recommended by the Chief Financial Officer Council’s Intragovernmental Dispute Resolution Committee (refer to Treasury Financial Manual Bulletin 2007-03 titled Intragovernmental Business Rules) or OMB. If the Federal agency is permitted to write-off account receivables from a Federal source, this action reduces the total budgetary resources available in the TAFS. If sufficient budgetary resources are not available to cover the obligations incurred in the TAFS, refer to section 145 of OMB Circular No. A-11 for further action to take.</p>
<p>2. Change in unfilled customer orders (+ or -):</p>	
<p>a. Advance received</p>	<p><i>For unexpired accounts:</i></p> <p>Amount of increase (+) or decrease (-) from October 1 in <i>unfilled orders on hand accompanied by an advance</i>. During the fiscal year, as orders are filled, move the amounts earned to line 3D1a, above.</p> <p>For annual accounts and the last year of multi-year accounts, amounts on this line should reflect <i>obligated amounts</i> only on the September 30 report. For no-year accounts, amounts on this line may remain unobligated on the September 30 report. See section 130.9 for further details on Economy Act transactions involving different periods of availability.</p> <p><i>For expired accounts:</i></p> <p>Amount of decrease (-) from October 1 in <i>unfilled customer orders on hand accompanied by an advance</i>. <p>b. Without advance from Federal sources</p>	<p><i>For unexpired accounts:</i></p> <p>Amount of increase (+) or decrease (-) from October 1, in unfilled orders on hand from other Federal Government accounts, that are valid obligations of the ordering account and are <i>not</i> accompanied by an advance. 4. Previously unavailable:	<p><i>For unexpired accounts:</i></p> <p><i>Previously precluded or unappropriated.</i>—Amount of offsetting collections collected in the previous year but precluded from obligation or was unappropriated in a previous fiscal year. Include the amounts expected to become available pursuant to law during the fiscal year on this line.</p> <p><i>Previously temporarily reduced.</i>—Amount of (1) account-specific offsetting collections rescinded or cancelled and (2) across-the-board reductions in budget authority (percentage or other) mandated in appropriations law taken from more than one account, and the agency head or other Executive Branch official was authorized to distribute the reduction to affected accounts. Include the amounts on this line in the fiscal year in which the amount is needed.</p>
5. Expenditure transfers from trust funds:	<p><i>For unexpired accounts:</i></p> <p>Amount of expenditure transfers from a trust fund account to a Federal fund account, pursuant to appropriations or other laws, to fund the activities of an agency that are (or would be) normally funded in a Federal fund account.</p> <p>In exceptional cases, this includes expenditure transfers from a Federal fund account to a trust fund account. For example, one exception to this rule is Social Security Administration's Limitation on Administrative Expenses where the expenditure transfers are from general or trust fund accounts to a trust fund account. Another exception to this rule is for credit reform where the expenditure transfers are from (1) the program account to a financing account or (2) financing account to a liquidating account where the source of the funding for either situation is derived from trust fund receipts.</p> <p><i>Exceptions must be pre-approved by OMB.</i></p>

A. Actual transfers, budget authority (+) or (-)	<p><i>For unexpired and expired accounts:</i></p> <p>Net amount of budget authority enacted for the fiscal year that is <i>actually</i> transferred to (+) or from (-) the account under existing legislation.</p> <p>Normally, the entries on this line are transfers of <i>new budget authority</i>, however, there is an exception. The transfers of <i>unobligated balances</i> that result from legislation that changes the <i>purpose</i> for which the balances are available are included on this line. Transfers of all other <i>balances</i> are included on line 4C.</p> <p>The entries on this line are nonexpenditure transfers between two Federal Government accounts. (The treatment of nonexpenditure transfers is explained in section 20.4(j) (4).)</p> <p>NOTE: All transfers between Federal funds (accounts that are not trust funds; i.e., general, special, management, and revolving funds) and trust funds are treated as expenditure transfers. See section 20.4(j) (4) for additional information.</p> <p>In the footnotes, list the individual accounts from which and to which the <i>transfers have been made</i>. Specify the amount actually transferred to (+) and from (-) each account.</p>
B. Line 7. Total budgetary resources	<p>Sum of amounts shown on lines 1 through 6. For SF 132, this amount represents the total amount of budgetary resources available for apportionment in the fiscal year for which the schedule is being submitted.</p> <p><i>For unexpired accounts:</i></p> <p>This amount will differ from the amount on line 7 on the latest SF 132 to the extent that individual amounts have changed that do not require the submission of a reapportionment request (see section 120.37).</p> <p><i>For expired accounts:</i></p> <p>This amount is not available for new obligations. See sections 130.10–130.13 for additional instructions.</p>

In a limited number of cases, the following guidance applies to specific Treasury Appropriation Fund Symbols. Affected amounts are included on line 3A1:

- *Appropriations of Specific Amounts of which “Not to Exceed” a Portion Remains Available Beyond the Remainder of the Appropriation.* In a limited number of cases, the basic amount of the appropriation is available for one year (or for a fixed amount of time) and the law permits "not to exceed" or "up to" a specific amount to be available for a longer period of time or until expended.

Initial apportionment requests for these accounts should display the maximum possible amount in the Treasury account with the extended availability and the balance in the Treasury account with the lesser time availability (on this line).

Note.—Treasury will warrant the full amount in the one-year account. You should move the funds to the account with the extended fund availability using the SF 1151. This movement of funds is not a transfer because the original appropriation is for the extended availability, even though the SF 1151 is titled "Nonexpenditure Transfer of Funds."

If you subsequently determine that the maximum amount is not needed in the account with the extended availability, you should submit a reapportionment request proposing to transfer the funds to the account of lesser time availability. Show this transfer on line 4A "Actual transfers, budget authority," 4B "Anticipated transfers, budget authority," 4C "Actual transfers, unobligated balances" or 4D "Anticipated transfers, unobligated balances," as appropriate.

After OMB has approved the transfer, use the SF 1151 to transfer the funds to the account of lesser time availability. Such transfers are irreversible. That is, once the availability of funds is reduced, subsequent apportionments and SF 1151 may not extend the availability of these funds.

The SF 133 should reflect the treatment of these amounts as shown on the latest apportionment approved by OMB.

- *Interest on the public debt.* For the Interest on the Public Debt account, "interest" includes both the interest paid and the change in interest payable for public issues of Treasury debt securities and for certain special issues (i.e., Government account series) of Treasury debt securities—zero coupon bonds and DoD’s Education Benefits Fund, Military Retirement Fund, Defense Cooperation Fund, and Medicare-Eligible Retiree Health Care Fund. The change in interest payable will be warranted when paid.

B. *Application of Budgetary Resources—Format of SF 132*

Use the entries in the following table to prepare the "Application of Budgetary Resources" section of the SF 132, Apportionment and Reapportionment Schedule (for unexpired accounts only).

APPLICATION OF BUDGETARY RESOURCES

Entry	Description
Line 8. Apportioned:	<p>When both Category A and Category B are used, insert a descriptive label on the Category A line to distinguish the amounts apportioned by quarter from the remaining amounts.</p> <p>All apportioned amounts by activity, project or object (category B) should be positive. Amounts apportioned by time period (category A) may be negative in order to reduce the cumulative amounts available. (See exhibit 121M).</p>
Category A	<p>Amount requested to be apportioned for each calendar quarter in the fiscal year.</p> <p>Apportionments previously approved are not subject to change after the close of the period for which the apportionment is made.</p> <p>Where the cumulative amount apportioned through the current period is to be decreased below the cumulative amount previously apportioned through the end of the preceding period, revise the amount apportioned for the current period to a negative amount. (See exhibit 121M).</p> <p>When appropriations are provided retroactively, place the amount in the period in which the appropriation was provided and include a footnote to indicate the period for which the appropriation was provided. For example, if there was a funding hiatus and a continuing resolution provided appropriations in the second quarter to pay essential workers</p>

Entry	Description
	<p>(such as emergency room staff at a VA hospital) for work done in the first quarter, place the amount appropriated on the line for the second quarter and footnote the amount, as follows: P.L. XXX-XXX provided funding for the first quarter.</p> <p>The apportionment includes a column for Memo obligations. When submitting a reapportionment request for a TAFS that has incurred new obligations, include the obligations in this column. The obligations should agree with the obligations reported on the most recent SF 133 if more recent amounts are not available. You should provide the memo obligations for Category A or Category B apportioned amounts. You must include the date of the obligations on the same row as the BEA Category (See exhibit 121G).</p> <p>Category B</p> <p>Amounts requested to be apportioned on a basis other than calendar quarters, such as time periods other than quarters, activities, projects, objects, or a combination thereof (See section 120.8).</p> <p>Include in the stub column a line number (8B1 through 8Bn) and a description of the activity, project, or object for which funds are requested. Coordinate the line number assigned to each number with the preparer of the SF 133 so that the same line numbers are used. Once a number is assigned, it should be reserved for that activity, project, or object only. Also, include the amount of obligations incurred for each Category B item as of the latest SF 133, if more recent amounts are not available. The periods covered by such amounts should be the same as the period for Category A, and identified in the footnote.</p> <p>Where the SF 132 has insufficient space to list the categories by which apportionments are to be made or where apportionments are to be made both by activities (or projects or objects) and by time periods within the fiscal year, add lines to the SF 132. Other than adding lines to Category B, <i>changes should <u>not</u> be made to the SF 132 without prior approval by OMB</i>.</p> <p>Category C</p> <p>When you plan to obligate amounts appropriated in a no-year or multi-year TAFS over more than one fiscal year, you may propose to apportion funds planned for obligation after the current fiscal year into a subsequent fiscal year. Include the amount planned for obligation after the current fiscal year on line 8C, apportioned for future fiscal years. OMB will <i>not</i> apportion annual TAFSs and the last year of multi-year TAFSs for periods longer than one fiscal year, as this would be an impoundment (i.e., a deferral during the year, and a de-facto rescission after the funds expire).</p>
Line 9. Withheld pending rescission	For instructions on the use of this line, see section 112.3 .
Line 10. Deferred	For instructions on the use of this line, see section 112.3 .
Line 11. Unapportioned balance of revolving fund	This line will be used primarily for public enterprise funds, intragovernmental revolving funds, and trust funds that are subject to apportionment. For these types of funds, include the amount of budgetary resources that is not apportioned (made available for obligation) in order to preserve a portion of the fund's capital so it can continue to revolve and be available for its authorized purposes (see section 20.13(a)).

Entry	Description
	<p>Typically, in a guaranteed loan financing account, include the uninvested funds that serve as a reserve against loan guarantee defaults on this line.</p> <p>Do <u>not</u> include amounts deferred or proposed for rescission on this line.</p> <p>The amount on this line should equal the amount shown on line 7, less the amounts apportioned on line 8, less any amounts withheld pending rescission on line 9 or deferred on line 10.</p>
Line 12. Total status of budgetary resources	Sum of the amounts on lines 8, 9, 10, and 11. This amount equals the amount reported on line 7.

C. Status of Budgetary Resources—Format of SF 133

Use the entries in the following table to prepare the "Status of Budgetary Resources" section of the SF 133, Report on Budget Execution and Budgetary Resources (for unexpired accounts and expired accounts, including accounts about to be closed and annual fund symbols that are older than five years that have legally authorized extended disbursing authority).

STATUS OF BUDGETARY RESOURCES

Entry	Description
Line 8. Obligations incurred:	<p>You are required to report direct and reimbursable obligations. See section 83.5 for instructions on classifying obligations as direct versus reimbursable. In general, "direct obligations" means obligations not financed from reimbursements. In general, "reimbursable obligations" means obligations financed by offsetting collections that are payment to the performing account for goods and services provided to the ordering entity.</p> <p><i>For unexpired accounts:</i></p> <p>Amount of obligations incurred from the beginning of the current fiscal year to the end of the reporting period, net of refunds received that pertain to obligations incurred in the current year.</p> <p>Include upward adjustments of prior obligations. Do not include cancellations or downward adjustments of obligations due to recoveries of prior year unpaid obligations reported on line 2. (See section 20.5 for a discussion of the concept of obligations.)</p> <p><i>For expired accounts:</i></p> <p>Amount of upward adjustments of obligations previously incurred. Upward adjustments are limited by the amount available for adjustments. No new obligations may be incurred against expired or canceled accounts. (See sections 130.10–130.14 on expired and canceled appropriations.) For downward adjustments, see line 2.</p> <p><i>For unexpired and expired accounts:</i></p> <p>Exclude any adjustments to current year beginning balances recorded on lines 1B and 12A2.</p>

Entry	Description

1. Category A	Amount of direct obligations incurred against amounts apportioned under category A on the latest SF 132. Category A may sometimes include program categories.
2. Category B [program 1] Category B [program 2 / program category 1] Category B [program 3 / program category 2]	Amount of direct obligations incurred against amounts apportioned under category B on the latest SF 132. Use a separate line for each administrative subdivision identified on the latest SF 132. Category B detail information describes the type of activity, project, etc. apportioned on line 8 of the latest SF 132. Four alphanumeric characters are used to identify subcategories.
3. Exempt from apportionment	Amount of direct obligations incurred for accounts that are exempt from apportionment.
B. Reimbursable:	
1. Category A	Amount of reimbursable obligations incurred against amounts apportioned under category A on the latest SF 132. Category A may sometimes include program categories.
2. Category B [program 1] Category B [program 2 / program category 1] Category B [program 3 / program category 2]	Amount of reimbursable obligations incurred against amounts apportioned under category B on the latest SF 132. Category B detail information describes the type of activity, project, etc. apportioned on line 8 of the latest SF 132. Four alphanumeric characters are used to identify subcategories.
3. Exempt from apportionment	Amount of reimbursable obligations incurred for accounts that are exempt from apportionment.
<hr/>	
Line 9. Unobligated balance	
A. Apportioned:	
1. Balance, currently available	<p><i>For unexpired accounts:</i></p> <p>Include the balances of amounts apportioned under category A and category B, as well as amounts apportioned by letter from OMB or by OMB bulletin. Do not include amounts apportioned but still anticipated.</p> <p>For amounts apportioned under category A, include the difference between the amount apportioned through the current period and the obligations incurred under those apportionments through the end of the reporting period.</p> <p>Where category B apportionments are based upon time periods within the year, include the difference between the cumulative amount apportioned through the current period and the obligations incurred under those apportionments through the end of the reporting period. Where funds are apportioned for the year as a whole, this entry will equal the total amount thus apportioned less the obligations incurred under those apportionments through the end of the reporting period.</p> <p>When required by OMB, show the portion of the unobligated balance that represents commitments outstanding in a footnote.</p>

Entry	Description
2. Apportioned for subsequent periods	<p><i>For unexpired accounts:</i></p> <p>Amount apportioned by time periods (in both categories A and B) and for future fiscal years (category C) that are available for obligation in that reporting period, as approved on the latest SF 132. This includes both actual and anticipated amounts available in the subsequent periods.</p>
3. Anticipated (+ or –)	<p><i>For unexpired accounts:</i></p> <p>Amount anticipated and apportioned year-to-date on the latest SF 132 less amounts no longer anticipated. The amount on this line should equal the sum of the apportioned amounts on lines 2B, 3A2, 3D3, 3D5c, 4B, 4D, and 6F that are still anticipated for the current period. The amounts not apportioned on these lines should be on line 10C.</p> <p>Although this amount is not immediately available for obligation, it will become available for obligation upon realization (e.g. upon actual receipt of the anticipated collection).</p>
B. Exempt from apportionment	
1. Balance, currently available	<p><i>For unexpired accounts:</i></p> <p>Amount of the total unobligated balance available for obligation (including commitments) in accounts exempt from apportionment.</p>
2. Anticipated (+ or –)	<p><i>For unexpired accounts:</i></p> <p>Amount anticipated in accounts exempt from apportionment.</p>
Line 10. Unobligated balance not available:	
A. Deferred	<p><i>For unexpired accounts:</i></p> <p>Amount deferred as shown on line 10 on the latest SF 132. This is the amount of budgetary resources being set aside for possible use at a later date (pursuant to a special message transmitted, or to be transmitted, by the President), before the funds expire.</p>
B. Withheld pending rescission	<p><i>For unexpired accounts:</i></p> <p>Amount withheld pending rescission as shown on line 9 on the latest SF 132 (pursuant to a special message transmitted, or to be transmitted, by the President).</p>
C. Other	<p><i>For unexpired accounts:</i></p> <p>For other balances not available for obligation, include the unobligated balances of amounts that are not included on lines 8, 9, or 10 on the latest SF 132. Include amounts on lines 2 and 3D that exceed apportioned amounts.</p> <p>This entry will include any excess of budgetary resources realized over amounts estimated to become available for obligation on the latest SF 132, when such amounts exceed the parameters set forth in section 120.37. (Do not use this line for accounts and funds that are not subject to apportionment. Unobligated balances of such accounts will be reported on line 9B.)</p> <p>This balance will be reported as a negative amount if budgetary resources (including estimates through the end of the year) are less than reported on the latest SF 132.</p>

Entry	Description
	<p>If, on the September 30 report, a negative amount is reported on this line, the amount must be offset by remaining balances. For accounts that are apportioned, the offset must be against apportioned funds reported on line 9A1 or an apparent violation of the Antideficiency Act (31 U.S.C. 1341, 1342, or 1517) will have occurred. For accounts exempt from apportionment, the offset must be against line 9B or an apparent violation of the Antideficiency will have occurred. Unrealized budgetary resources will, in effect, be considered an offset against amounts apportioned (line 9A) or exempt from apportionment (line 9B) rather than an unobligated balance not available for obligation (line 10).</p> <p>This line will be used for the un-apportioned balance of public enterprise and intragovernmental revolving funds, as well as trust funds that are subject to apportionment. For these types of funds, include the amount shown on line 11 on the latest SF 132 (un-apportioned balance) plus the amount of upward adjustments in income until a reapportionment request is approved.</p> <p><i>Appropriated receipts.</i> For the September 30 report, exclude from this line the portion of receipts collected in the current year in special or trust funds that is <i>precluded from obligation</i> due to a provision of law. The full amount appropriated is on line 3A1. The portion precluded from obligation is subtracted on line 5.</p> <p><i>For expired accounts:</i></p> <p>Amount of expired unobligated balances that have not been used for valid adjustments. (These amounts are no longer available for new obligations.) The amount on line 10C should be the difference between line 7 and line 8.</p> <p>For the final September 30 report before an account will be closed, the amount on this line should be zero.</p>
Line 11. Total status of budgetary resources	<p><i>For unexpired and expired accounts:</i></p> <p>Sum of the amounts on lines 8 through 10. This amount equals the amount on line 7.</p>

D. *Change in Obligated Balances—Format of SF 133*

Use the entries in the following table to prepare the "Change in Obligated Balances" section of the SF 133, Report on Budget Execution and Budgetary Resources (for unexpired accounts and expired accounts, including accounts about to be closed and annual fund symbols that are older than five years that have legally authorized extended disbursing authority). Lines 12 through 18 are required for all quarters.

CHANGE IN OBLIGATED BALANCES

Entry	Description
Line 12. Obligated balance, net, start of year:	
A. Unpaid obligations, start of year:	

Entry	Description
1. Unpaid obligations, brought forward, October 1 (+)	<p><i>For unexpired and expired accounts:</i></p> <p>Unpaid obligations as of October 1 of the current fiscal year. This amount will equal the sum of the beginning balance of (a) accounts payable and (b) undelivered orders. This line should equal line 18A of the final SF 133 for the preceding year.</p>
2. Adjustment to unpaid obligations, brought forward, October 1(+ or -)	<p><i>For unexpired and expired accounts:</i></p> <p>Changes to unpaid obligations that occurred in a prior fiscal year and that were not recorded in the unpaid obligations as of October 1 of the current fiscal year. These may be identified by the financial statement auditors, agency personnel, or others.</p> <p>Include adjustments posted to the agency financial system that are either material or non-material. When reporting to FACTS II, agencies will use an attribute to show that their USSGL account balances are not current-year activity—even though these balances would otherwise look like current-year activity. FACTS II will use this attribute to crosswalk these USSGL account balances to this adjustment line.</p> <p>OMB and the Department of the Treasury’s FMS will review the FBWT component of the adjustments that agencies report to FACTS II each quarter. FMS will only backdate prior year adjustments on a transaction basis in a TAFS that round to \$1 million or more.
