RSS Feeds

RSS stands for Really Simple Syndication. Grants.gov now provides two RSS feeds for new/modified opportunities. This is an alternative way to receive updates on opportunity listings, rather than receiving through email.

In order to receive an RSS feed you must have an RSS reader. Some browsers, such as the current versions of Firefox and Safari have built in RSS readers. If you are using a browser that doesn't currently support RSS, there are a variety of [RSS readers](#) available on the Internet; most are free to download while others are available for purchase.

How do I use RSS Feeds?

The way an RSS feed is added to an RSS reader is slightly different from one reader to the next. Follow the directions below to add a new feed (a feed is also referred to as a channel) to your RSS reader:

1. Choose an RSS reader (Get an [RSS Reader](#))
2. Click on the link or small RSS button near the feed you want. For example, "[New/Modified Opportunities by Agency](#)" (You will see a page displaying XML code)
3. From your web browser's address bar, copy the URL (web address). For example, the URL you would copy for "New/Modified Opportunities by Agency" is: http://www07.grants.gov/rss/GG_OppModByCategory.xml.
4. Paste that URL into the "Add New Channel" section of the reader. The RSS feed will start to display and regularly update the headlines for you.
5. Read more information on using RSS Feeds on Grants.gov: [Using RSS Feeds](#)

Apply for Grants with Adobe Reader Quick Overview

[Click here](#) to view Apply for Grants Instructions for PureEdge.

Notice: Grants.gov is currently transitioning from phasing out of PureEdge software to using Adobe Reader software exclusively. For a period of time applicants will still be able to use PureEdge as it is applicable.

By downloading a grant application package, you can view it offline, giving you the flexibility to complete the application when and where you want. You can also route it through your organization for easy review and then submit it with a simple click. Before you apply, remember you must be [registered](#), and it is helpful to have the Funding Opportunity Number (FON) and/or CFDA number of the desired grant. If you don't have a FON and or CFDA number return to [Find Grant Opportunities](#) to search for this information. Once those steps are complete, you will be ready to download the application package and begin the 4-step process to apply for a grant.

Step 1: Download a Grant Application Package and Instructions

You can find the grant application package from your search results on Grants.gov. From your search results click on the opportunity you wish to apply for. When you are looking at the Opportunity you can click the **Application** button at the top of the screen. In the next screen, you will be able to access the application package and instructions. Or you can enter the FON and/or CFDA number into the **Download Application Package** screen. In order to view the application package, you will need to install [Adobe Reader](#).

Step 2: Complete the Downloaded Grant Application Package

Once you have downloaded the application package, you can complete it offline, share the document within your office and complete it at your own pace. Instructions are available to assist you on the application package cover sheet to explain how to open and use the forms in the application package. Also, you will have direct access to the agency application instructions, which will include all the necessary information on what is required for your submission.

Note: Save your application to your computer as changes are NOT automatically saved.

If you're having problems completing the process, view our [Frequently Asked Questions](#). You can also view our training demonstration of [How to Complete an Application Package](#).

Step 3: Submit a completed Grant Application Package

To submit your application click the **Save & Submit** button. The Save & Submit button on the application package cover page will only become active after you have completed all required forms, attached all required documents, and saved your application package. Your package also cannot have any errors. To check for errors click the **Check Package for Errors** button. Using the username ID

and password you entered when you registered with a Credential Provider, you can submit your application package. In order to submit your application, you must already be registered and you will need to have already completed the application package using [Adobe Reader](#). Click on the **Save & Submit** button once this process is complete and you are ready to send the completed application to Grants.gov.

Next, on the Application Verification and Signature page click on **Sign and Submit Application** or you can click on **Exit** and be returned to the application. If you are not already connected to the Internet, you will be directed to do so and will need to login to Grants.gov using your username ID and password. After you have clicked the Sign and Submit button on the summary page, your application package will automatically be uploaded to Grants.gov. A confirmation screen will appear once the upload is complete. **Note:** A Grants.gov tracking number will be provided at the bottom of this screen, as well as the submission's date and time stamp. Record this number so that you may refer to it should you need to contact the [Contact Center](#) for assistance.

Helpful Hints — Remember that all username ID and passwords are case sensitive. If the **Save & Submit** button is not active, please check to be sure you have:

- Completed all mandatory fields in all mandatory forms and moved them to the Mandatory Documents for Submission box.
- Clicked the Save button AFTER all documents have been moved to the Mandatory Documents for Submission box.
- Completed all mandatory fields in all optional forms that have been moved to the Optional Documents for Submission box.
- Closed all Internet browser windows.
- If the Submit button is active and you are still unable to submit the form, make sure that your computer meets the system requirements and you have [Adobe Reader](#) installed.
- If you are using a dial-up modem, it may take several minutes for the application to upload and be submitted. It is recommended to use a high-speed Internet connection or DSL connection. It will process the application faster.

Step 4: Track the Status of a Completed Grant Application Package

Once an application has been submitted, you can check the status on the Track My Application page. Click on **For Applicants** in the left navigation and then click on **Track Your Application** below that link, you will need to login, if not already logged in, and then click **Check Application Status**. You may identify your application by CFDA Number, Funding Opportunity Number, Competition ID, and/or Grants.gov Tracking Number.

If you are not already connected to the Internet, you will be directed to do so and will need to login to Grants.gov using your username ID and password.

After you have clicked the **Sign and Submit** button on the summary page, your application package will automatically be uploaded to Grants.gov. A confirmation screen will appear once the upload is complete. Note that a Grants.gov tracking number will be provided at the bottom of this screen, as well as the submission’s official date and time. Record this number so that you may refer to it should you need to contact [Customer Support](#).

Step 4: Track the Status of a Completed Grant Application Package
