The University of Massachusetts at Amherst in coordination with international host ecovillages developed one-semester study abroad programs and a “Year Abroad” program. Students can earn academic credit from the University of Massachusetts at Amherst. Programs feature both academic and experiential learning. They provide coverage of organic gardening, permaculture, renewable energy, appropriate technology, aquaculture, cultivated ecosystems, sustainability, sustainable living systems, and more. Currently, programs are offered in Australia, Brazil, India, Israel, Mexico, Peru, Scotland Senegal, and the United States.

World-Wide Opportunities on Organic Farms (WWOOF)

WWOOF links volunteers world-wide offering hands-on experience, in exchange for meals and accommodation, in organic and alternative farming. Also known as Willing Workers on Organic Farms, and World-Wide Orientation on Organic Farms.

Learn about the WWOOF network and its volunteer work exchange program, <http://www.woof.org>. Find out about volunteer opportunities, responsibilities, accommodations, and other details. Contacts are listed for WWOOFing by region:

- North America
- Central America
- South America
- Europe-Middle East
- Africa
- Asia-Pacific

Includes a directory of 38 countries from Australia to the U.S. that have National WWOOF organizations. WWOOF Independents, also listed here, are those countries without a national organization.
