TABLES

Island Data

1. Farms, Land in Farms, and Land Use: 2007 and 2002	2
2. Farms and Land in Farms by Size of Farm: 2007 and 2002	2
3. Tenure and Characteristics of Operators: 2007 and 2002	2
4. Farm Characteristics: 2007 and 2002	3
5. Irrigation: 2007 and 2002	3
6. Market Value of Agricultural Products Sold: 2007 and 2002	3
7. Selected Farm Production Expenses: 2007 and 2002	4
8. Root Crops Harvested for Sale: 2007 and 2002	4
9. Vegetables and Melons Harvested for Sale: 2007 and 2002	4
10. Fruits, Nuts, and Nursery Crops (including ornamental plants) Harvested for Sale: 2007 and 2002	5
11. Livestock, Poultry, and Their Products: 2007 and 2002	6
12. Fish and Other Aquaculture Products: 2007 and 2002	6

Summary Data

13. Summary by Tenure of Operator: 2007	7
14. Summary by Age of Operator: 2007	10
15. Summary by Size of Farm: 2007	16
16. Summary by Market Value of Agricultural Products Sold: 2007	22

APPENDIXES

A. General Explanation	A-1

Index	Index 1

Introduction

HISTORY

For more than 150 years, the U.S. Department of Commerce, Bureau of the Census, conducted the census of agriculture. However, the 1997 Appropriations Act transferred the responsibility from the Bureau of the Census to the U.S. Department of Agriculture (USDA), National Agricultural Statistics Service (NASS). The 2007 Census of Agriculture for Guam is the second census to be conducted by the National Agricultural Statistics Service.

The census of agriculture is taken to obtain agricultural statistics for each county, State (including territories and protectorates), and the Nation. The first U.S. agricultural census data were collected in 1840 as a part of the sixth decennial census. From 1840 to 1920, an agricultural census was taken as a part of each decennial census. Since 1920, a separate national agricultural census has been taken every 5 years.

The 2007 census is the 14th census of agriculture of Guam. The first, taken in 1920, was a special census authorized by the Secretary of Commerce. The next agriculture census was taken in 1930 in conjunction with the decennial census, a practice that continued every 10 years through 1960. The 1964 Census of Agriculture was the first quinquennial (5-year) census to be taken in Guam. In 1976, Congress authorized the census of agriculture to be taken for 1978 and 1982 to adjust the data-reference year to coincide with other economic censuses. After 1982, the agriculture census reverted to a 5-year cycle for the years ending in 2 and 7.

CENSUS USES

The census of agriculture is the leading source of statistics about Guam's agricultural production and the only source of consistent, comparable data at the election district level. Census statistics are used to measure agricultural production and to identify trends in an ever-changing agricultural sector. Many local programs use census data as a benchmark for designing and evaluating surveys. Private industry uses census statistics to provide a more effective production and distribution system for the agricultural community.

AUTHORITY AND AREA COVERED

The census of agriculture is required by law under the "Census of Agriculture Act of 1997," Public Law 105-113 (Title 7, United States Code, Section 2204g). The law directs the Secretary of Agriculture to conduct a census of agriculture in 1998 and in every fifth year thereafter, covering the prior year. The census of agriculture includes each State, Puerto Rico, Guam, the U.S. Virgin Islands, and the Commonwealth of Northern Mariana Islands.

The census data for Guam were collected in accordance with a Memorandum of Understanding approved by the Administrator of NASS and by the Commissioner of Agriculture of Guam. It was conducted with the cooperation and assistance of the Guam Department of Agriculture.

FARM DEFINITION

The statistics collected in the census relate to places with agricultural operations qualifying as farms according to the census definition. In Guam this included all places from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the 12-month period between January 1 and December 31, 2007. The farm definition is the same as used in the 1998 Census of Agriculture for Guam.

COMPARABILITY OF DATA

In general, the data from the 2007 census are comparable with those of previous censuses. All dollar values presented in this report are in current dollars, i.e., 2007 data are in 2007 dollars and 1997 data in 1997 dollars. The dollar values have not been adjusted for changes in price levels between census years.

TABULAR PRESENTATION

Tables 1 through 12 show detailed island data accompanied by historic data from the previous census. Tables 13 through 16 provide 2007 island data cross-tabulated by tenure of operator, age of operator, size of farm, and market value of agricultural products sold. Because of the declining number of farms, tables providing data by election district which have been provided in the past, are not available for 2007.

RESPONDENT CONFIDENTIALITY

In keeping with the provisions of Title 7, United States Code, no data are published that would disclose the operations of an individual farm. However, the number of farms in a given size category or other classification is not considered a release of confidential information and is provided, even though other information may be withheld.

REFERENCE PERIODS

Inventories of livestock, poultry, and machinery and equipment are the number on hand on the day of enumeration. Crop production, crop and livestock sales, and expense data are for the 12-month period between January 1 and December 31, 2007.

SPECIAL TABULATIONS

Custom-designed tabulations can be developed to individual user specifications on a programming cost reimbursable basis. Inquiries about special tabulations should be directed to Data Lab Administrator, Marketing and Information Services Office, National Agricultural Statistics Service, U.S. Department of Agriculture, 1200 Independence Ave., S.W., Washington, DC 20250; by telephone on 1-800-727-9540; or by e-mail at nass@nass.usda.gov.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used throughout the tables:

- Represents zero.
- (D) Withheld to avoid disclosing data for individual farms
- (NA) Not available
- sq. ft. Square feet
- (X) Not applicable
- (Z) Less than ½ the unit of tabulation

GUAM - Election Districts

¹Detail may not add to total because of rounding.

²The acres reported for alfalfa and/or bean sprouts do not reflect multiple crops harvested during the census year.

³Includes dry and green corn.

APPENDIX A.

General Explanation

DATA COLLECTION

Method of Enumeration

As in the previous censuses of Guam, a direct enumeration procedure was used in the 2007 Census of Agriculture, and as in the 2002 Census of Agriculture, enumeration was based on a list of farm operators compiled by the Guam Department of Agriculture. The statistics in this report were collected from farm operators during the spring of 2008.

Each enumerator is an employee of the Department of Agriculture who has responsibility for specified enumeration districts. The enumerators contacted all persons or operations engaged in agriculture in their assigned area and completed a census report form for all farm operations that met the farm definition. If the person on the list was not operating a farm, the enumerator recorded whether the land had been sold or rented to someone else and was still being used for agriculture. If the land was sold or rented out, the enumerator got the name of the new operator and contacted that person, to ensure that he/she was included in the census.

Training Program

The project manager, crew leaders, and enumerators employed for the census in Guam received special training in accordance with instructions prepared by NASS. The training included practice in interviewing and filling out the report form and a detailed discussion of the enumerator's instructions.

Report Form

Prior to each agriculture census, the content of all census report forms is reviewed to eliminate inquiries no longer needed, to identify new items necessary to meet user needs, and to better describe the agricultural situation in Guam. Data requests are solicited from farm organizations, land-grant colleges and universities, State and Federal agencies, State Departments of Agriculture, agribusinesses, and other users. Each respondent is asked to identify and justify its specific data needs.

The report form for the 2007 Census of Agriculture for Guam was prepared by NASS, in cooperation with the Guam Department of Agriculture. Based on comments from the Guam Department of Agriculture (which coordinated review of the report form by data users in Guam), the content of the 2007 census report form remained almost unchanged from the previous census.

DATA PROCESSING

The processing of the 2007 Census of Agriculture for Guam was done by NASS. Each report form was reviewed and coded prior to data keying. Report forms not meeting the census farm definition were voided. The remaining report forms were examined for accuracy, consistency, and completeness. Reporting errors in computations, units of measures, data inconsistencies, and misplaced entries were corrected. Missing information was derived using reported data for similar type and size farms in nearby areas.

After all the report forms had been reviewed and coded, the data were keyed and subjected to a thorough computer edit. The edit performed comprehensive checks for consistency and reasonableness, corrected erroneous or inconsistent data, supplied missing data based on similar farms, and assigned farm classification codes necessary for tabulating the data. All substantial changes to the data generated by the computer edits were reviewed and verified by analysts. Inconsistencies were reviewed, corrected, and keyed to a correction file. The corrected data were then tabulated by the computer and reviewed by analysts.

Prior to publication, tabulated totals were reviewed by analysts to identify inconsistencies and potential coverage problems. Comparisons were made with previous census data, as well as other available data. The computer system provided the capability to review up-to-date tallies of all selected data items for various sets of criteria which included, but were not limited to, geographic levels, farm types, and sales levels. Data were examined for each set of criteria and a write-up (criticism) was produced for data that were inconsistent. Each criticism was then researched by examining individual data records contributing to the tabulated total. When necessary, data inconsistencies were resolved by carrying corrections to data records.

DEFINITIONS AND EXPLANATION

The following definitions and explanations relate to items that are in the tables. For an exact wording of the questions and instructions on the report form, see the report form in appendix B.

Crops. The report form contained individual inquiries for crops commonly grown and space to write in those less frequently produced. The information requested for 2007 included acres of crops harvested and pounds harvested for sale.

The units of measure for reporting quantities of some crops have varied from one census to another. The aim has been to permit reporting in the units of measure currently in use. The quantities harvested for each crop are expressed in the units of measure given on the 2007 report form.

Root crops. The land area from which individual root crops were harvested for sale was obtained in acres and tenths of acres. When two or more crops were harvested from the same land, the area was to be reported for each separate crop or planting. Total quantities of each crop harvested for sale were also reported.

Vegetables and melons. Land area for individual crops and the quantity harvested for sale for each crop were collected.

Fruits, nuts, and nursery crops. The total number of acres planted in bearing and nonbearing fruit and nut trees and plants was collected. For individual fruit or nut crops, data on the number of bearing and nonbearing trees and plants, and the quantity harvested for sale, were reported. For nursery crops, the land area harvested, both square feet under cover and acres in the open, was collected, along with the value of sales.

Equipment. The following types of equipment on the place at time of enumeration regardless of ownership, were reported if they were operable:

Automobiles. This includes all vehicles used primarily as passenger cars.

Motortrucks. This includes pickup trucks and truck-trailer combinations.

Tillers of all kinds. This includes all types of tillers used to prepare soil for planting.

Tractors. This includes all wheel and tracklaying (crawler) tractors and garden tractors.

Expenses. The 2007 report form contained questions on seven types of farm expenses incurred between January 1 and December 31, 2007, whether made by the farm operator, his/her landlord, or both. A farm operator who rented part of his/her land to others reported only the expenses on the land he/she operated.

Feed purchased for livestock, poultry, and fish. Expenses for feed for livestock, poultry, and fish include total cash payments made for pasture used, salt concentrates, mineral supplements, grain, hay, mill feeds, and any other items purchased for feeding livestock, poultry, and fish on the place. Expenses made for the grinding and mixing of feed and the estimated cost of items furnished to the operator by a landlord or others are also included. Payments made by a tenant to a landlord for feed grown on the tenant's farm are excluded.

Machine hire and customwork. Expenses for machine hire and customwork relate to tractor hire, plowing, and spraying. Any amount spent for the labor involved is considered to be part of the expense. The costs of hauling, trucking, or exchange work without pay are omitted.

Purchases of fertilizers and manure. These expenses include the total amount spent for manure and commercial fertilizers of all kinds for use on the farm.

Purchases of insecticides, fungicides, and herbicides. This item relates to total cash expenses for all chemicals, sprays, dusts, etc., used to control weeds, pests, insects, or disease on crops.

Purchases of livestock, poultry, and fish. This item includes all cash expenses for livestock, poultry, and fish purchased for the place. The cost of livestock and poultry bought and resold within 30 days is not included.

Seed cost. These expenses include all seed purchased for planting, as well as seedlings.

Wages and salaries paid to employees or hired farm workers. Expenses for hired farm labor include total cash payments made to family members and others for farm labor. Payments to persons supplied by a contractor or a cooperative organization and paid directly by them or by the person in charge are also included.

Farm operator. The term "operator" designates a person who operates a farm, either by doing the work himself/herself or by directly supervising the work. The operator may be the owner, a member of the owner's household, a hired manager, or a tenant, renter, or sharecropper. If the operator rents land to others or has land worked on shares by others, he/she is considered the operator only if the land is retained for his/her own operation. In the case of partnership, only one partner is counted as an operator. By definition, the number of operators is the same as the number of farms.

Farms or operators reporting. Figures for "farms reporting" or "operators reporting" represent the number of farms or operators reporting the specified item. The difference between the total number of farms and the number of farms reporting a particular item represents the number of farms not having that item.

Land in farms. The land in farms was determined from the answers to questions 1 through 4 in section 1 of the report form (see appendix B). The amounts of land reported as owned and reported as rented from others were added together, and the amount of land reported as rented to others was subtracted from that sum. The result represents "land in farms."

Land owned. This includes all land that the operator or his/her spouse held under title, purchased contract, homestead law, or as heir or trustee of an undivided estate at the time of enumeration.

Land rented from others. This includes not only land the operator rented or leased from others, but also land worked on shares for others or land occupied rent free.

Land rented to others. This includes all land that the operator rented to others and all land assigned to others on shares or rent free. For the most part, land rented to others represents agricultural land, but it also includes land rented for residential or other purposes. The tenant is considered to be the operator of land leased, rented, or worked on shares, even though his/her landlord may supervise the operations. The landlord is considered to be the operator of only that portion of the land not assigned to tenants.

Land use. Land in farms at the time of enumeration is categorized according to the way it was used between January 1 and December 31, 2007. The land is counted only once, even though it may have had more than one use during the year.

Cropland harvested. This refers to all land from which any crop was harvested. It also includes land in field crops that were grazed when mature or almost mature, and land in nonbearing fruit or nut trees and plants. Land from which two or more crops were harvested and which was also used for other purposes, either before or after the crops were harvested, was to be reported as cropland harvested without regard to the other uses.

Other cropland. This includes all cropland on the place that was used for pasture, and cropland on the place that was not used for crops or pasture. It includes land on which there was total crop failure due to hurricane, flood, drought, insects, fire, or other causes; cropland lying idle; and cropland planted with soil improvement grasses or other cover crops planted for improvement. It does not include land so hilly, rocky, or wet that the cost of improving it for cultivation would be more than the operator could pay. It does not include land in roads, streams, or swamps.

Pasture or grazing land. This refers to all land used for pasture or grazing, except cropland. It includes all woodland where livestock pastured or grazed. It does not include cropland, even though cattle or other livestock may have been grazed on it.

Woodland. This includes all land that is covered in woods or forests. It does not include woodland pasture.

Other land. This refers to all land not included in the other land use classifications, such as house and other building lots, lanes, roads, ditches, and land area of ponds and wasteland.

Livestock and poultry. Inventory data for livestock and poultry relate to the number on hand at the time of enumeration. All livestock and poultry were to be enumerated on the place where they were at the time of enumeration regardless of who owned them. Livestock on unfenced land were to be reported as being on the place identified as the headquarters of the person who had control over them.

Operator characteristics. Data were obtained to classify the operators according to the following seven characteristics:

Age of operator. Operators were classified by age into six groups. The average age was obtained by dividing the sum of the ages of all operators reporting by the number reporting.

Main occupation. If the operator devoted 50 percent or more of his/her work time to agricultural activities, his/her main occupation was considered to be agriculture, otherwise his/her occupation was considered to be nonagricultural.

Race of operator. The race, or national origin, of the operator was collected for the first time in 1993. Respondents were asked to choose between Chamorro, Chinese, Filipino, Japanese, White, or Other to describe their race or national origin.

Residence of operator. Operators were classified by residence according to whether or not they lived on the farms operated. Where all the land was rented from others or worked on shares for others, the dwelling was considered to be on the farm operated provided the dwelling he/she occupied was included in the rental agreement. In such cases, the dwelling was not necessarily on the land being operated. Similarly, an operator who did not live on the land being cultivated or grazed, but who had some agricultural operations (other than a home garden) at his/her dwelling, was considered to be living on the farm.

Sex of operator. Operators are classified as male or female.

Work off farm. The extent to which operators rely on nonfarm sources for part of their income is indicated by the number of days worked off the farm during the year. Work off the farm was defined to include work on someone else's farm for pay as well as all types of nonfarm jobs, businesses, and professions whether the work was done on the farm premises or elsewhere. Exchange work was not included.

Years on present farm. Operators were classified by years on present farm into four groups. These data were based on the question asking the year the operator began operation of the present farm or any part of it.

Value of products sold. Data for value of products sold were obtained for each group of crops or main type of livestock sold from the farm. Data were obtained for sales of field and forage crops, vegetables, fruits and nuts, nursery crops, poultry and poultry products, cattle and calves, hogs and pigs, fish and other aquaculture products, other livestock and livestock products and chicken eggs.

Farms by age of operator. Enumerators entered the operator's age, as of his/her last birthday, on the report form. The computer edit classified the operator's age into one of the following age groups:

Under 35 years	45 to 54 years	65 years and over
35 to 44 years	55 to 64 years	

Farms by size. All farms were classified by size on the basis of the total land area established in each farm. According to the census definition, a farm is essentially an operating unit, not an ownership tract. All land operated or managed by one person or partnership represents one farm. In the case of tenants, the land assigned to each tenant is considered a separate farm, even though the landlord may consider the entire landholding to be one unit rather than several separate units.

Farms by tenure of operator. In the 2007 census, all farms were classified by tenure of operator on the basis of data reported for land owned, rented from others, worked on shares for others, and managed for others. The same classification has been used since 1964. During processing operations, each report form was coded to indicate whether the operator was a full owner, part owner, or tenant.

Full owners. Operate only land they own

Part owners. Operate land they own and also land they rent from others

Tenants. Rent from others or work the land they operate on shares for others

Farms by value of agricultural products sold. All farms were classified on the basis of the total value of agricultural products sold. The total was obtained by adding the reported values of all products sold from the farm. The value of livestock, milk, poultry and eggs, fish, vegetables, fruits and nuts, all field crops, ornamental plants, and all other crops was obtained from the operator at the time of enumeration. The computer edit classified the value of agricultural products sold into one of the following groups:

Less than \$1,200	\$2,500 to \$4,999	\$7,500 to \$9,999
\$1,200 to \$2,499	\$5,000 to \$7,499	\$10,000 or more

RELIABILITY OF DATA

All data compiled in this report originated from a complete enumeration and, therefore, are not subject to sampling variability. However, the data are subject to nonsampling errors. Nonsampling errors can be attributed to many sources: inability to identify all cases in the actual universe; inability or unwillingness on the part of respondents to provide correct information; definition and classification difficulties; differences in the interpretation of questions; errors in recording or coding the data obtained; and other errors of collection, response, coverage, and estimation for missing or misreported data.

The accuracy of these tabulated data is determined by the joint effects of the various nonsampling errors. No direct measures of these effects have been obtained; however, precautionary steps were taken in all phases of data collection, processing, and tabulation of the data in an effort to minimize the effects of nonsampling errors.

APPENDIX B. - REPORT FORM

OMB No. 0535-0226 Approval Expires - 07/31/2009

NOTICE - Response to this inquiry is required by law (title 7, U.S. Code). By the same law, YOUR REPORT IS CONFIDENTIAL and will only be used for statistical purposes. Your report CANNOT be used for purposes of taxation, investigation or regulation. The law also provides that copies retained in your files are immune from legal process.					Part A - QUESTIONNAIRE IDENTIFICATION (NASS USE ONLY)									
FORM O2-A1 (G) U.S. DEPARTMENT OF AGRICULTURE NATIONAL AGRICULTURAL STATISTICS SERVICE 2007 CENSUS OF AGRICULTURE GUAM					FARM SERIAL NUMBER									
					Part B - OPERATOR'S NAME AND ADDRESS OR PHYSICAL LOCATION									
					Full name (First name, middle initial, last name)									
					Address or physical location									
NASS USE ONLY 035 036 037 038 039														
READ TO RESPONDENT- We estimate that it will take from 20 to 40 minutes to complete this report, with 30 minutes being the average time.														
SECTION 1 LAND IN AGRICULTURE														
1. How many acres do you own? <input type="checkbox"/>							<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <th style="width: 70%;">Whole acres</th> <th style="width: 30%;">Tenths</th> </tr> <tr> <td style="text-align: center;">040</td> <td style="text-align: center;">/10</td> </tr> </table>	Whole acres	Tenths	040	/10

PENALTY FOR FAILURE TO REPORT

CONTINUE ON PAGE 2

SECTION 3 Did you harvest any VEGETABLES or MELONS FOR SALE in 2007?		How many acres were harvested in 2007?		How many pounds were harvested in 2007?
003 1 <input type="checkbox"/> YES - Complete this section 2 <input type="checkbox"/> NO - Go to section 4				
	None	Whole acres	Tenths	
1. Alfalfa and/or bean sprouts	<input type="checkbox"/>			101
2. Beans, yard-long	<input type="checkbox"/>	102	/10	103
3. Beans, all other varieties	<input type="checkbox"/>	104	/10	105
4. Bittermelons	<input type="checkbox"/>	106	/10	107
5. Cabbage, Chinese	<input type="checkbox"/>	108	/10	108
6. Cabbage, head	<input type="checkbox"/>	110	/10	111
7. Cantaloups	<input type="checkbox"/>	112	/10	113
8. Corn	<input type="checkbox"/>	118	/10	118
9. Cucumbers	<input type="checkbox"/>	120	/10	121
10. Eggplant	<input type="checkbox"/>	122	/10	123
11. Muskmelons	<input type="checkbox"/>	128	/10	128
12. Okra	<input type="checkbox"/>	130	/10	131
13. Onions, green	<input type="checkbox"/>	132	/10	133
14. Peppers, hot	<input type="checkbox"/>	134	/10	135
15. Peppers, sweet	<input type="checkbox"/>	136	/10	137
16. Pumpkins and squash	<input type="checkbox"/>	138	/10	138
17. Radishes	<input type="checkbox"/>	140	/10	141
18. Tomatoes (Include both standard and cherry tomatoes)	<input type="checkbox"/>	146	/10	147
19. Watermelons	<input type="checkbox"/>	148	/10	148
20. Other vegetables and melons - Specify _____	<input type="checkbox"/>	150	/10	151

SECTION 4 Were any FRUITS, NUTS, or NURSERY CROPS grown or harvested FOR SALE in 2007?		How much land is in bearing and nonbearing fruit and nut trees/plants?		How many acres were harvested in 2007?
004 1 <input type="checkbox"/> YES - Complete this section 2 <input type="checkbox"/> NO - Go to section 5				
	None	Whole acres	Tenths	
		158	/10	
		How many trees or plants are not of bearing age?	How many trees or plants are of bearing age?	How many pounds were harvested in 2007?
1. Avocados	<input type="checkbox"/>	160	161	162
2. Bananas	<input type="checkbox"/>	163	164	165
3. Betelnuts	<input type="checkbox"/>	166	167	168
4. Breadfruits	<input type="checkbox"/>	169	170	171
5. Coconuts	<input type="checkbox"/>	172	173	174
6. Grapefruit	<input type="checkbox"/>	175	176	177
7. Guavas	<input type="checkbox"/>	178	179	180
8. Lemons and limes	<input type="checkbox"/>	181	182	183
9. Mangoes	<input type="checkbox"/>	184	185	186
10. Oranges	<input type="checkbox"/>	187	188	189
11. Papayas	<input type="checkbox"/>	190	191	192
12. Pineapples	<input type="checkbox"/>	193	194	195
13. Soursops	<input type="checkbox"/>	199	200	201
14. Starfruits	<input type="checkbox"/>	202	203	204
15. Sweetsops	<input type="checkbox"/>	205	206	207
16. Tangerines	<input type="checkbox"/>	208	209	210
17. Other fruits, nuts, and tree crops - Specify _____	<input type="checkbox"/>	211	212	213
	None	Square feet under cover	Acres in the open	Value of sales in 2007
		218	219	220
18. Nursery crops (including ornamental plants)	<input type="checkbox"/>		/10	\$.00

SECTION 5 LAND USE - Land is to be reported in ONLY ONE CATEGORY. If two or more uses were made of the same land, report in the FIRST category that applies.

	None	Acres	Tenths
1. Cropland harvested - Report the number of acres on which crops were grown and harvested . . .	<input type="checkbox"/>	231	/10
2. Other cropland - Include cropland pasture, crop failure, idle and fallow cropland, and cropland used for soil improvement	<input type="checkbox"/>	232	/10
3. Pasture or grazing land - Include woodland pasture. (DO NOT include cropland pasture.)	<input type="checkbox"/>	233	/10
4. Woodland (DO NOT include woodland pasture.)	<input type="checkbox"/>	234	/10
5. All other land - Include house lots, barn lots, lanes, roads, ditches, ponds, wasteland, etc. . . .	<input type="checkbox"/>	235	/10
6. TOTAL LAND - Add entries in questions 1 through 5. This total should equal the entry in section 1, question 4	<input type="checkbox"/>	236	/10

SECTION 6 Was Any LAND in this place IRRIGATED at any time during 2007? Irrigated land is all land watered by any artificial or controlled means: sprinklers, furrows or ditches, spreader dikes, etc. Include supplemental, partial, and pre-plant irrigation.

006 1 YES - Complete this section 2 NO -Go to section 7

	None	Acres	Tenths
1. How many acres were irrigated from a PRIVATE SYSTEM (wells, rivers, brooks, etc.)? . . .	<input type="checkbox"/>	240	/10
2. How many acres were irrigated from a PUBLIC SYSTEM?	<input type="checkbox"/>	241	/10

3. If water from a public system was used, which rate was charged for the water?
 245 1 Agricultural rate 2 Residential rate

4. Major source of water used for irrigation:
 247 1 Well or cistern 3 Lake or private pond 5 Public utility
 2 River or stream 4 Canal or irrigation district 6 Other -Specify

SECTION 7 Do you or anyone else have any LIVESTOCK (excluding poultry and fish) on this place or were any sold from this place in 2007?

007 1 YES - Complete this section 2 NO - Go to section 8

	None	How many are on this place today?	How many were sold in 2007?
1. Carabaos of all ages	<input type="checkbox"/>	250	251
2. Cattle and calves of all ages (Total of "a" and "b" below)	<input type="checkbox"/>	252	253
Of this total, how many --			
a. Milk cows		262	263
b. All other cattle and calves		264	265
3. Hogs and pigs of all ages	<input type="checkbox"/>	266	267
4. Goats and kids of all ages	<input type="checkbox"/>	274	275
5. Horses, mules, and colts of all ages	<input type="checkbox"/>	276	277
6. Other livestock - Specify _____	<input type="checkbox"/>	278	279

	Quarts sold	Gross value of sales
7. Quantity and value of milk sold in 2007	280	281 \$.00

SECTION 8 Do you or anyone else have any POULTRY on this place or were any sold from this place in 2007?

008 1 YES - Complete this section 2 NO - Go to section 9

	None	How many are on this place today?	How many were sold in 2007?
1. Chicken hens 4 months old and over (Total of "a" and "b" below)	<input type="checkbox"/>	282	283
Of this total, how many -			
a. Commercial layers		284	285
b. Other chicken hens		286	287
2. Chickens less than 4 months old	<input type="checkbox"/>	300	301
3. Roosters and pullets	<input type="checkbox"/>	302	303
4. Fighting roosters	<input type="checkbox"/>	304	305
5. Ducks	<input type="checkbox"/>	306	307
6. Pigeons	<input type="checkbox"/>	308	309
7. Other (geese, turkeys, etc.) - Specify _____	<input type="checkbox"/>	310	311

	Dozens sold	Gross value of sales
8. Quantity and value of chicken eggs sold in 2007	312	313 \$.00

SECTION 9 Did you or anyone else raise any FISH or AQUACULTURE PRODUCTS (shrimp, etc.) for sale

009 1 YES - Complete this section 2 NO - Go to section 10

	Number
1. How many in-ground ponds did you use?	320
2. How many above-ground tanks did you use?	321

	Pounds sold	Gross value of sales
3. How much FISH or other AQUACULTURE PRODUCT was raised and sold from this place in 2007?	322	323 \$.00

SECTION 10		What was the MARKET VALUE of the following AGRICULTURAL PRODUCTS SOLD from this place in 2007, before taxes and expenses?	None	Dollars only
1.	Root crops		<input type="checkbox"/>	330 \$.00
2.	Vegetables and melons		<input type="checkbox"/>	331 \$.00
3.	Fruits and nuts		<input type="checkbox"/>	332 \$.00
4.	Nursery crops, including ornamentals		<input type="checkbox"/>	333 \$.00
5.	Cattle and calves - Include carabaos		<input type="checkbox"/>	334 \$.00
6.	Hogs and pigs		<input type="checkbox"/>	335 \$.00
7.	Poultry - chickens, roosters, pullets, ducks, pigeons, etc.		<input type="checkbox"/>	336 \$.00
8.	Eggs, except chicken eggs, and other poultry products		<input type="checkbox"/>	337 \$.00
9.	Other livestock and livestock products - goats, horses, mules, goats' milk, etc.		<input type="checkbox"/>	338 \$.00
	Specify _____		<input type="checkbox"/>	\$.00

SECTION 11		How much were your EXPENDITURES for each of the following in 2007?	None	Dollars only
1.	Machine hire and customwork		<input type="checkbox"/>	341 \$.00
2.	Wages and salaries paid to employees or hired farm workers (DO NOT include housework or contract construction work.) Include cash payments only		<input type="checkbox"/>	342 \$.00
3.	Feed purchased for livestock, poultry, and fish- Include cost of grain, feed, concentrates, and roughages; also amount paid for grinding and mixing feed.		<input type="checkbox"/>	343 \$.00
4.	Insecticides, fungicides, and herbicides		<input type="checkbox"/>	344 \$.00
5.	Fertilizers and manure purchased		<input type="checkbox"/>	345 \$.00
6.	Livestock, poultry, and fish purchased		<input type="checkbox"/>	346 \$.00
7.	Seed cost - Include seedlings purchased.		<input type="checkbox"/>	347 \$.00

SECTION 12		Which of the following EQUIPMENT are used on this place? Include all specified equipment on this place today, regardless of ownership, provided it is in operating condition.	None	Number
1.	Tractors of all kinds		<input type="checkbox"/>	350
2.	Motortrucks		<input type="checkbox"/>	351
3.	Automobiles		<input type="checkbox"/>	352
4.	Tillers of all kinds		<input type="checkbox"/>	353

SECTION 13 The following questions are about the CHARACTERISTICS of the FARM OPERATOR.

RESIDENCE - Does the operator live on this place (the acres entered in section 1, question 4)? 360 1 Yes 2 No

1. In what YEAR did the operator begin to operate any part of this place? 361 _____ Year

2. AGE of operator on last birthday 362 _____ Age

3. PRINCIPAL OCCUPATION - At which occupation did the operator spend the majority (50 percent or more) of his/her worktime in 2007? 363 { 1 Farming or ranching 2 Other

4. OFF-FARM WORK - How many days did the operator work at least 4 hours per day off this place in 2007? Include work at a nonfarm job, business, or on someone else's farm. (Exclude exchange farm work.) 364 { 1 None 4 100 - 149 days 2 1 - 49 days 5 150 - 199 days 3 50 - 99 days 6 200 days or more

5. RACE/NATIONAL ORIGIN of operator 365 { 1 Chamorro 5 White 2 Chinese 6 Other-Specify 3 Filipino 4 Japanese ←

6. SEX of operator 367 1 Male 2 Female

SECTION 14 ENUMERATOR'S RECORD (To be completed by the census enumerator)

1. Who furnished the information in this report? 370 { 1 Operator 4 Hired laborer 2 Landlord 5 Other - Specify ← 3 Spouse or other family member
