

1122 “Counter-drug” Program

Americans find peace of mind in the fact that there's a constant force fighting the war on drugs. The men and women of law enforcement harbor this responsibility 365 days a year. Because their duties are so vital to our nation's well being, it's imperative that they have the right tools for the job. GSA supports state and local law enforcement through the 1122 Counter-drug Program.

Section 1122 of the fiscal year 1994 National Defense Authorization Act established the authority for state and local governments to purchase law enforcement equipment through federal procurement channels, provided that the equipment is used in the performance of counter-drug activities.

Each state participating in the 1122 Program designates a State Point Of Contact (SPOC) to administer the state's activities under the program, by validating the counter-drug mission of each procurement request, and ensuring the availability of funds.

The authority for the “1122 Program” resides with the Department of Defense. The U.S. Army, as the Executive Agent of the program, has approved certain equipment included in GSA Schedules and the purchase of motor vehicles under the program. Refer to the “list of available equipment” page located at www.gsa.gov/1122program.

The SPOCs are responsible for receiving all orders from state and local government entities, and for determining that the items will be used for counter-drug activities. For items under GSA Schedules, the SPOCs will send all orders directly to the Schedule contractor; payment will also be made directly to the Schedule contractor. Orders for the purchase of vehicles must be placed by the SPOCs using AutoChoice, GSA's online vehicle ordering tool (www.gsa.gov/autochoice).

The 1122 Program is nonmandatory for both SPOCs and Schedule contractors; i.e., contractors have the option as to whether to accept or reject an order from a SPOC.
