PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA), enacted as Title XIV of Public Law 95–113 (The Food and Agriculture Act of 1977) on Sept. 29, 1977, is also known as the Section 1444 Program. This law provides the basis for Federal funding for agricultural extension activities at 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University.

The 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University, are eligible for funds appropriated under this Act according to the following formula: Any funds annually appropriated under NARETPA section 1444 up to the amount appropriated for the fiscal year ending September 30, 1978, pursuant to section 3(d) of the Act of May 8, 1914, as amended, for eligible institutions, will be allocated among the eligible institutions in the same proportion as funds appropriated under section 3(d) of the Act of May 8, 1914, as amended, for the fiscal year ending September 30, 1978, are allocated among the eligible institutions. Of the funds in excess of that amount, 20 per cent will be allotted among the eligible institutions in equal proportions; 40 per cent will be allotted among the eligible institutions in the proportion that the rural population of the State in which each eligible institution is located bears to the total rural population of all the States in which eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated; and the balance will be allotted among the eligible institutions in the proportion that the farm population of the State in which each eligible institution is located bears to the total farm population of all the States in which the eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated. For purposes of computing the distribution, the allotments to Tuskegee University and Alabama A&M University will be determined as if each institution were in a separate State.

In FY 2007, CSREES conducted a Grants.gov pilot for the solicitation of one of the CSREES Formula Programs, the McIntire-Stennis Cooperative Forestry Program. Under this pilot the institutions were required to submit a SF-424M Application (Cover Page Form), CSREES Supplemental Form, and Key Contacts Form through Grants.gov. Please note that this application package replaced the forms/information solicited each year by the CSREES Office of Extramural Programs and did not duplicate the information being collected under the Current Research Information System (CRIS). CSREES is implementing this process for all CSREES Formula Programs in FY 2008 and thereafter due to the mandated reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA). Under this law, the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet data Universal Numbering (D-U-N-S®) numbers, legal name of institution, legal address, congressional district, etc.). OMB makes this information available at <http://www.usaspending.gov>.

In FY 2009, although CSREES will require both an initial submission (based on estimated amounts per the 2009 Continuing Resolution) and final submission (based on the actual appropriated amount for FY 2009 and the actual formula distribution for FY 2009) CSREES will not require the following forms in FY 2009 for either submission:

- Standard Form (SF) 424-A, Budget Information for Non-Construction Programs
- Budget Narrative Attachment Form

Please note that the submission of this application package does not change the following:

- Delegated authorities of the 1890 Research Director or Extension Administrator
- How funds are managed at your institution
- Indirect costs and tuition remission are unallowable costs; and
- Matching waiver authority of CSREES for NARETPA section 1444 and 1445 funds

Guidelines for the administration of this program are published as Chapter III, Financial Operations, of the Administrative Handbook for Cooperative Extension Work, which may be accessed at <http://www.csrees.usda.gov/business/awards/formula/manuals/coopextension.pdf>. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. CSREES will be revising this manual and will promulgating administrative provisions for this program through rulemaking which includes a public comment period in 2009.

The Consolidated Appropriations Act, 2008 (Public Law 110-161) provides \$34,416,268 for this program under NARETPA section 1444. The Consolidated Security, Disaster, and Continuing Appropriations Act, 2009 (Public Law 110-329) provides funding for this program at the FY 2008 appropriated level through March 6, 2009.

B. Purpose and Priorities

The purpose of this funding is to support agricultural and forestry extension activities at 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University.

PART II—AWARD INFORMATION

A. Available Funding

Subject to the above 2009 Continuing Resolution, funds will be disturbed to the institutions on a quarterly basis and according to the amounts allocated in FY 2008. Adjustments will be made to the allocations for FY 2009 once the FY 2009 appropriations are finalized. See Appendix A for the specific allocations.

Section 1444 Program funds are expected to be fully expended in the fiscal year of appropriation; however, no more than 20 per cent of the funds received by an institution in any fiscal year may be carried forward to the succeeding fiscal year. No prior approval from CSREES is required. Since these limitations are legislatively mandated, CSREES is not authorized to approve any carryover requests beyond the 20 percent and one-year limitations.

B. Types of Submission

In FY 2009, pre-award form submissions must be submitted to the Section 1444 Program as a “new” application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system, and together satisfy all legislative and regulatory pre-award requirements.

Section 225 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended NARETPA to require an approved Plan of Work for agricultural extension and research activities at 1890 Land-Grant Institutions in order to receive Federal funding. Therefore, each 1890 land-grant institution, including Tuskegee University and West Virginia State University, must submit both a 5-Year Plan of Work Update for FY 2010-2014 and an Annual Report of Accomplishments and Results. Both reports are due April 1, 2009.

C. Project Types

Applicants should request funding for the amounts listed in Appendix A to this announcement. CSREES will fund the Section 1444 Program in FY 2009 for agricultural extension activities identified in the approved 5-Year Plan of Work.

PART III—ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may be submitted by 1890 Land-Grant Universities, including Tuskegee University and West Virginia State University, that conduct agricultural extension activities in accordance with NARETPA section 1444(a)(1): Alabama A&M University; Tuskegee University; University of Arkansas - Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State University; Kentucky State University; Southern University; University of Maryland – Eastern Shore; Alcorn State University; Lincoln University; North Carolina A & T State University; Langston University; South Carolina State University; Tennessee State University; Prairie View A&M University; Virginia State University; and West Virginia State University.

Institutions may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project or activity.

B. Cost Sharing or Matching

NARETPA section 1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.”

PART IV—SUBMISSION INFORMATION

A. Address to Request Formula Grants Opportunity Package

Only electronic applications may be submitted to CSREES via Grants.gov in response to this FGO.

Prior to preparing an application, it is suggested that the 1890 Extension Administrator, or his or her designee, first contact an Authorized Representative (AR) to determine if the organization is prepared to submit electronic applications through Grant.gov. If the organization is not prepared, the AR should see http://www.grants.gov/applicants/get_registered.jsp for steps for preparing to submit applications through Grants.gov.

The 1890 Extension Administrator, or his or her designee, also must contact the institution’s AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted, the 1890 Extension Administrator, or his or her designee, can obtain a login and password.

The steps to access application materials are as follows:

1. Download and install Adobe Reader, a small, free program that provides access to the grant application. See http://www.grants.gov/help/download_software.jsp.
2. The application package must be obtained via Grants.gov, go to <http://www.grants.gov>, click on “Apply for Grants” in the left-hand column, click on “Step 1: Download a Grant Application Package and Instructions,” enter the funding opportunity number “USDA-CSREES-LG1444-001886” in the appropriate box and click “Download Package.” From the search results, click “Download” to access the application package.

If assistance is needed to access the application page (e.g., downloading or navigating PDF forms, using Adobe with a Macintosh computer), refer to the resources available on the Grants.gov Web site first (<http://grants.gov>). Grants.gov assistance is also available as follows:

Important Note: By signing Form SF-424-M, the applicant is providing the certifications required by 7 CFR Part 3017, regarding Debarment and Suspension and Drug-Free Workplace, and 7 CFR Part 3018, regarding Lobbying, and compliance with the provisions of Chapter III, Financial Operations, of the CSREES Administrative Handbook for Cooperative Extension Work, including 7 CFR 3015, Uniform Federal Assistance Regulations; 7 CFR 3019, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-profit Organizations; 7 CFR 3016, Uniform Administration Requirements for Grants and Cooperative Agreements to States and Local Governments; and OMB Circulars A-21, Cost Principles for Educational Institutions (now codified at 2 CFR Part 220), and A-110, Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-profit Organizations (now codified at 2 CFR Part 215). If the project will involve a subcontractor or consultant, the subcontractor and/or consultant should submit a Form AD-1048, Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions, to the grantee organization for retention in their records. This form should not be submitted to USDA.

D. Submission Dates and Times

An “Application for Federal Assistance,” Form SF-424 Mandatory; “Supplemental Information Form,” CSREES Supplemental Information Form; “Key Contacts Form,” SF-424 Key Contacts; and if applicable, “Attachments Form” with a matching waiver request (as a PDF file), should be submitted online at the www.grants.gov website by COB on December 22, 2008 (5:00 p.m. Eastern Time).

The receipt of all applications will be acknowledged by e-mail. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses on the Key Contacts Form on the www.grants.gov website.

If an applicant has not received an acknowledgment within 60 days of the submission, the applicant must contact the Agency contact (see Part VII) immediately and ask for the application number assigned to the application. Failure to do so may result in the application not being processed and funding being held. Once the application has been assigned an application number, this number should be cited on all future correspondence.

E. Funding Restrictions

(1) Approved CSREES Section 1444 Projects

Section 1444 Program funding must be used to support agricultural extension activities identified in the approved 5-Year Plan of Work.

(2) Matching

NARETPA section 1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.”

Please note that while Federal funds must be expended on agricultural extension, the matching funds may be used for agricultural research, agricultural extension, or qualifying educational activities. CSREES may consider and approve matching waivers above the 50 percent level. See Part IV.B.6. for additional information.

(3) Indirect Costs and Tuition Remission

In accordance with NARETPA section 1473, indirect costs and tuition remission are unallowable as Section 1444 Program formula grant expenditures.

PART VIII—OTHER INFORMATION

A. CSREES' Grants.gov Implementation Plans

CSREES is continuing to develop its capacity to exchange proposal and grant data electronically with its grantees through [Grants.gov](http://www.grants.gov) and to process and review proposals and award grants electronically.

In Fiscal Year (FY) 2007, CSREES conducted a pilot on the submission of the SF-424 Mandatory application package through the Grants.gov website for the McIntire-Stennis Cooperative Forestry Research Program. The pilot was successful as all eligible grantees submitted their applications through Grants.gov.

The Federal Funding Accountability and Transparency Act of 2006 requires all Federal agencies to report monthly to a publicly-accessible website on all Federal assistance awards (including grants). This requirement became effective for all awards made in FY 2007 and thereafter.

As a result, for the FY 2008 (October 1, 2007-September 30, 2008) and later cycles, CSREES is requiring electronic submission through Grants.gov for all Federal assistance programs (i.e., grants). For more information about CSREES' Grants.gov plans, including important announcements, program implementation details, and detailed requirements, see the CSREES' web site, http://www.csrees.usda.gov/business/other_links/egov/egov.html. The information on these web sites will be updated as appropriate. It is suggested that the sites be visited periodically for important updates.

B. D-U-N-S® Number

A D&B Data Universal Numbering System (D-U-N-S®) number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of over 70 million businesses worldwide. A Federal Register notice of final policy issuance (68 FR 38402) requires a D-U-N-S® number in every application (i.e., hard copy and electronic) for a grant or cooperative agreement (except applications from individuals) submitted on or after October 1, 2003. Therefore, potential applicants should verify that they have a D-U-N-S® number or take the steps needed to obtain one. For information about how to obtain a D-U-N-S® number go to <http://www.grants.gov/RequestaDUNS>. Please note that the registration may take up to 14 business days to complete.

C. Required Registration for Grants.gov

The Central Contract Registry (CCR) is a database that serves as the primary Government repository for contractor information required for the conduct of business with the Government. This database will also be used as a central location for maintaining organizational information for organizations seeking and receiving grants from the Government. Such organizations must register in the CCR prior to the submission of applications via grants.gov (a D-U-N-S® number is needed for CCR registration). For information about how to register in the CCR visit the “Get Started” section at <http://www.grants.gov>. Allow a minimum of 5 days to complete the CCR registration.
