

Biodiversity Conservation Handbook

Table of Contents

Acknowledgments	xv
Contributors	xvii
<u>Part I—Introduction</u>	
Chapter 1	
Introduction: The New Old Federalism and State Leadership in Addressing the International Issue of Biodiversity Conservation	1
I. State Leadership in Biodiversity Conservation—The New Old Federalism	1
II. The Goddard Forum on Biodiversity Conservation.	9
III. Topics Covered in This Book	10
IV. Conclusion	17
Chapter 2	
What Is Biodiversity, Why Do We Care, and What Is the Importance of Regional, State, Local, and Private Policies and Programs?	19
<u>Part II</u>	
The Implications of International Protocols and Programs for State, Local, and Regional Programs	25
Chapter 3	
The Convention on Biological Diversity.	29
Chapter 4	
Lessons on Protecting Biodiversity From Around the World: Biodiversity Conservation Programs Implemented by Other Nations Under the Biodiversity Convention	39
I. The Convention on Biological Diversity (CBD)	39
II. Learning From National Action Plans and Strategies Developed Pursuant to the CBD	41
III. Lessons Learned From Third World Network of Scientific Organizations' (TWNISO's) Program on Biodiversity in Arid and Semi-Arid Zones	44
IV. Conclusion	46

Biodiversity Conservation Handbook

Part III

Models for State Programs for Biodiversity	47
--	----

Chapter 5

The State of the States: An Overview of State Biodiversity Programs	51
I. Introduction	51
II. The Power to Protect Biodiversity	52
III. State Efforts to Save Biodiversity	55
IV. Next Steps	57

Chapter 6

Mainstreaming Biodiversity Conservation in Massachusetts	61
I. Introduction	61
II. Land Acquisition	62
III. Forest Vision	65
IV. Ecological Restoration	66
V. Landscape-Level Tools	68
VI. The Role of Local Communities	69
VII. Building Citizen Stewards for Biodiversity	70
VIII. Putting It All Together	72

Chapter 7

The Oregon Biodiversity Project	75
I. Introduction	75
II. Why a Biodiversity Project?	76
III. Project Description	77
IV. Project Results and Recommendations	81
V. Progress Toward Implementation	83
VI. Lessons for Other States From the Oregon Experience and Future Steps	86

Part IV

Science in Support of Conservation Methods and Issues in Defining Biodiversity and Prioritizing Conservation Targets	91
--	----

Chapter 8

The Nature Conservancy's Ecoregional Approach to Setting Priorities and Developing Conservation Strategies	101
--	-----

Chapter 9

Landscape-Level Habitat Modeling and Mapping for Conservation Planning: Use of GAP Analysis	113
I. Introduction	113

Table of Contents

II. An Example of GAP Analysis Used to Identify Priority Biodiversity Areas: Perspectives on Pennsylvania GAP Analysis	114
III. Access to Pennsylvania GAP Analysis Project Information . . .	124
Chapter 10 <i>SmartConservation</i> [™] : A Biodiversity-Based Methodology for Prioritizing Natural Resources for Conservation	127
I. Introduction	127
II. The <i>SmartConservation</i> [™] Assessment Methodology	130
III. Phase One: Site Screening Based on Remote Sensing and Other Publicly Available Data	130
IV. Phase Two: Site-Specific Data Verification	134
V. Phase Three: Community Capability Assessment	136
VI. Conclusion	136
Chapter 11 <i>SmartConservation</i> 's [™] Plant Community Module: A Tool for Rapid Quality Assessment of Natural Communities by Non-Experts	139
Chapter 12 Envisioning A Bioreserve Strategy for Pennsylvania.	147
I. Introduction	147
II. Basic Beginnings	149
III. Old Growth, Natural Communities, and Connectivity	149
IV. Generalized Bioreserve System Components	152
V. Integrative Process	154
VI. Conclusion	156
Chapter 13 Microbial Diversity in Soil: A Microscopic World Under Every Footstep	159
I. Introduction	159
II. A Brief Look at Microscopic Life	160
III. The Significance of Microbial Diversity	162
IV. Conclusion	173
Chapter 14 Biodiversity Stewardship	175
I. Introduction	175
II. Common Forest Stewardship	176
III. Grassland Stewardship.	179
IV. Rare Plant Community Stewardship.	180
V. Rare Species Stewardship	182
VI. Conclusion	183

Biodiversity Conservation Handbook

Chapter 15

Ecologically Sustainable Water Management: Managing River Flows for Biodiversity	185
I. Overview.	185
II. Water Management and Freshwater Biodiversity	186
III. Ecologically Sustainable Water Management: Meeting Human Needs While Protecting Biodiversity	188

Chapter 16

Restoration of Natural History Education: A Critical Tool for Biodiversity Conservation	193
I. Introduction	193
II. Natural History Education Versus Environmental Education	194
III. Toward a Policy to Promote Natural History Education	197
IV. Conclusion	198

Part V

A Toolbox for Conservation: Legal Mechanisms for Biodiversity Conservation	199
---	-----

Chapter 17

Coordination and Planning Tools That Can Be Applied to Biodiversity Conservation	203
I. The Importance of Planning for Biodiversity Conservation: The Elements of an Effective Plan.	203
II. Types of Planning Efforts Applicable to Biodiversity Conservation	207
III. Implementation Mechanisms	222
IV. Conclusion	226

Chapter 18

Legal Tools That Provide Direct Protection for Elements of Biodiversity	227
I. Introduction: The Historical Development of Direct Protection of Biodiversity	227
II. Fish and Wildlife Laws	229
III. Threatened and Endangered Species Laws and Programs	233
IV. Laws and Programs Relevant to Invasive Species Control	241
V. Regulatory Protection of Special Habitat Areas	251
VI. Environmental Assessment Laws	253
VII. Conclusion	255

Chapter 19

Opportunities for Regulation of Land Use and Development as a Legal Tool to Protect Biodiversity	257
---	-----

Table of Contents

I. Introduction	257	
II. The Elements of Municipal Land Use Regulation	258	
III. Principles Applicable to Biodiversity Conservation in Regulating Land Use.	264	
IV. Conservation Opportunities in Land Use Law	266	
V. Land Development Regulation for Aquatic Areas and Water Quality	286	
VI. Conclusion	292	
Chapter 20		
Biodiversity Protection Through Acquisition of Land or Development Rights and Management to Conserve Biodiversity: A Case Study Using Pennsylvania		293
I. Introduction	293	
II. Biodiversity Protection Through the Acquisition of Land or Development Rights	295	
III. Public and Private Management of Conserved Lands for Biodiversity Protection.	312	
IV. Incentives for Land Acquisition	325	
V. Incentives for Management of Privately Owned Land	337	
VI. Conclusion	344	
Chapter 21		
Designing and Financing Transactions to Conserve Biodiversity and Lands Important to Biodiversity		347
I. Introduction	347	
II. Issuance of Bonds to Acquire Easements or Land	348	
III. Revolving Funds.	351	
IV. Dedicated Taxes or Fees.	354	
V. Partnerships to Obtain Maximum Leverage	357	
VI. Project Finance	359	
VII. Trading	362	
VIII. Conclusion	366	
Part VI		
Tools and Innovation in the Protection of Biodiversity.		367
Chapter 22		
The Economics of Biodiversity		377
I. Introduction	377	
II. Economic Activity and Sustainable Economic Activity	378	
III. Managed Activity	379	
IV. Partnerships and Collaborations Between Managed Entities	381	

Biodiversity Conservation Handbook

V. Organizational Metabolism: Funding for Sustainable Organizations and Collaborations	382
VI. Self-Organizing Activity.	385
VII. Market-Based Mechanisms for Sustainability	388
VIII. Biodiversity Point Systems: Broadband Conservation Through Market Mechanisms	390
IX. Conclusion	391

Chapter 23

Achieving Sustainable Communities	393
I. Introduction	393
II. The Klamath River Controversy	396
III. Perspective on Sustainable Development: Two Views	397
IV. Conceptual Models for Sustainability	400
V. From Sustainable Development to Sustainable Communities	402
VI. The Sustainable Community: What Is It?	403
VII. An Interactional Approach to Sustainable Community Development	410
VIII. Conclusion	415

Chapter 24

Connections: Urban Revitalization and Biodiversity Conservation	417
---	-----

Chapter 25

Using Multi-Credit Trading Markets to Improve and Maintain Biodiversity, Watershed Quality, and Other Environmental Protection Goals.	425
I. Introduction: Need for a New Model of Incentives for Integrating Environmental Protection Programs.	425
II. Why We Need a New Tool in Our Environmental Management Toolbox	429
III. Multi-Credit Trading Systems Increase Cost-Effectiveness and Create Incentives for Action.	432
IV. Next Steps	439

Chapter 26

Moving Away From Command and Control: The Evolution of Incentives to Conserve Endangered Species on Private Lands	441
I. Introduction	441
II. Legal Framework for Protecting Endangered Species on Private Lands.	442
III. Background: HCPs.	444
IV. No Surprises	446
V. Safe-Harbor Policy	449

Table of Contents

VI. Conservation Banking	452
VII. Conclusion	456
Chapter 27	
Unlikely Partners: Corporate Properties and Biodiversity	457
I. Introduction	457
II. Background on Corporate Biodiversity Programs	457
III. Case Studies	461
IV. Conclusion	468
Chapter 28	
The Role of Forest Certification in Preserving Biodiversity in Pennsylvania—Public and Private Case Studies	469
I. Introduction	469
II. Forestry Management Standards	470
III. The State Experience	471
IV. The Glatfelter Experience	475
V. Conclusion	479
Part VII	
Development of a State Biodiversity Conservation Strategy Under Divided Authority: The Challenge in Pennsylvania	481
Chapter 29	
Biodiversity Conservation in Pennsylvania: View From the Department of Environmental Protection	489
I. Introduction	489
II. Protection of Threatened and Endangered Species	490
III. The Pennsylvania Natural Diversity Inventory	501
IV. Other Regulatory Requirements	502
V. Nonregulatory Efforts	502
Chapter 30	
Biodiversity Conservation in Pennsylvania: View From the Department of Conservation and Natural Resources	505
I. Introduction	505
II. Creation of the Office of Biodiversity Conservation	506
III. Upgrade of the PNDI	507
IV. Development of a Biodiversity Conservation Plan for the PDCNR	509
V. Leadership in Management of State Lands	511
VI. Development of a New Strategic Plan	512
VII. Future Options for the PDCNR	514

Biodiversity Conservation Handbook

Chapter 31

Biodiversity Conservation in Pennsylvania: A View From the Pennsylvania Game Commission	519
I. Introduction	519
II. Wildlife Diversity Research, Monitoring, and Management	520
III. Biodiversity Conservation	521
IV. Land Acquisition and Management	522
V. Conclusion	522

Chapter 32

Biodiversity Conservation and the Pennsylvania Fish and Boat Commission: More Than Just Fish!	525
I. Overview.	525
II. Factors That Threaten Biodiversity.	527
III. Conservation Approaches	534
IV. Conclusion	538

Chapter 33

Biodiversity Conservation in Pennsylvania: View From the Pennsylvania Department of Agriculture	539
I. Introduction	539
II. Overview of Pennsylvania Exotic Plant Controls	540
III. Noxious Weeds	541
IV. Weeds and Other Exotics That Affect Biodiversity	541
V. Conclusion	543

Chapter 34

Pennsylvania's Environmental Education Initiative: Tools for Building Awareness and Understanding Through Educator Support.	545
I. Introduction	545
II. Formal Educational Requirements	546
III. Pennsylvania Grant Programs and Administrative Agency Actions Supporting Environmental and Natural History Education	550
IV. Conclusion	556

Chapter 35

An Interagency-Led Effort: Biodiversity Conservation in Pennsylvania: A Summary of the Status of Wildlife Habitat and Habitat Threats Statewide.	559
I. Background	559
II. Habitat Summary	561
III. Wildlife Habitat Status and Threats	561
IV. Habitat Conservation	566

Table of Contents

V. Changing the Course of Habitat Loss	567
Chapter 36	
Biodiversity Conservation in Pennsylvania: The Pennsylvania Biodiversity Conservation Plan	569
I. Introduction: The Pennsylvania Biodiversity Partnership (PBP)	569
II. Report Summary	571
III. Conclusions and Next Steps	575
Part VIII—Conclusion	
Chapter 37	
Effective Strategy for Addressing Global Biodiversity Issues Locally: A Synthesis	583
I. Introduction	583
II. Challenges in the Design of an Effective Biodiversity Conservation Program	584
III. Elements of an Effective State Biodiversity Program	586
IV. Conclusion	603
Index	605
