Bill: when we were at the Chalet CAS hit her head on the roof. She feels that bed is too big- wants Me to get a queen sized bed without a footboard. I think we had one like that in the second floor bedroom before the beds were switched

Could you arrange to get this done? I believe Judy Bittner will help you. We may need to get some new sheets for the smaller bed. The space upstairs on the third floor is small. I am there alone often and don't realize the difficulty of getting into bed on that far side.

[REDACTED]

Best. Teds
