good evening senator, the walls are going on and as soon as hannah gets the raising beams out we will finish closing the house up. the t-111 is on 3/4 of the walls and rocky wants to know if catherine would like the house painted a different color. we still have the green roof but we could do a grey or light blue with navy trim and either would look nice. those colors would cover the green well and look good with the roof. i found several with the green roof and those colors and they do go well together. rocky's pal did not send the pictures so ignore my questions. bill is determined that you will have a grand chalet and i think it will be. it really looks good with the siding on.

write again monday. by the way deanna's mother [a good republican] is outraged with the treatment of bush by the press. my best, bob
