good morning senator, when speaking with the brookstone representative he advised me that he needed a local contact in case he had trouble delivering my chair. i hope it was ok for me to give him delynn's name and number. you are so right, you cannot call that a chalet now, it is a remarkable house. rocky is building this like a fine cabinet, everything is just right. jim kaiser would like to speak to cas about the stained glass, may i have a number where he might contact her? all i have is her cell number. hope you are well now,bob
