Multiple body part

<PRE>Dear Ted, Bill had his crew clean up the garage and everything is gone except the huge box. You will not be able to park a vehicle inside until you do something with the sculpture. The stain the guys put on the deck has not dried yet and that must be why the tenting is still in place. everything else is just right and just in time for winter is moving down the mountain. The little grove of four sequoias is doing fine and we need to transplant three of them but i am afraid of killing them. Barb sent a great picture of Justin and Lily in barrow. Your daughter has sure grown into a pretty girl. Have a good trip and i'll see you soon. bob
