

CHAPTER IX

FARM RESOURCES, INCOME, AND EXPENSES

The statistics in this chapter deal with farms, farm resources, farm income, and expenses. Many of the series are estimates developed in connection with economic research activities of the Department.

For convenience the tables have been arranged in general groups. These groups, with the beginning table indicated, are as follows:

Economic trends, table 9-1.

Farm property, table 9-2.

Population and employment, table 9-15.

Farm production and distribution, table 9-23.

Price and income, table 9-29.

Costs and expenses, table 9-41.

Table 9-1.—Economic trends: Data relating to agriculture, United States, 1989–98

Year	Prices paid by farmers ¹		Prices received by farmers ¹	Farm income ²		
	Total including interest, taxes, and wage rates	Production items		Gross farm income ⁶	Production expenses	Net farm income
	<i>Index numbers 1990–92=100</i>	<i>Index numbers 1990–92=100</i>	<i>Index numbers 1990–92=100</i>	<i>Billion dollars</i>	<i>Billion dollars</i>	<i>Billion dollars</i>
1989	96	95	104	191.9	146.7	45.3
1990	99	99	104	198.0	153.3	44.7
1991	100	100	100	191.9	153.3	38.7
1992	101	101	98	200.5	152.6	47.9
1993	104	104	101	204.8	160.2	44.5
1994	106	106	100	216.1	166.8	49.2
1995	109	108	102	210.7	173.5	37.2
1996	115	115	112	235.7	180.8	54.9
1997	118	119	107	238.7	190.0	48.6
1998	117	115	101	233.1	189.0	44.1

Year	National income ³	Disposable personal income ³	Industrial production ⁴	Consumer prices all items ⁵	Producer prices consumer foods ⁵
	<i>Billion dollars</i>	<i>Billion dollars</i>	<i>Index numbers 1992=100</i>	<i>Index numbers 1982–84=100</i>	<i>Index numbers 1982=100</i>
1989	4,390.6	4,016.3	99.1	124.0	118.7
1990	4,640.9	4,293.6	98.9	130.7	124.4
1991	4,755.5	4,474.8	97.0	136.2	124.1
1992	4,993.7	4,754.6	100.0	140.3	123.3
1993	5,251.1	4,935.3	103.5	144.5	125.7
1994	5,556.1	5,165.4	109.1	148.2	126.8
1995	5,876.2	5,422.6	114.4	152.4	129.0
1996	6,210.2	5,677.7	119.5	156.9	133.6
1997	6,634.9	5,982.8	126.8	160.5	134.5
1998	7,036.4	6,286.2	131.3	163.0	134.3

¹U.S. Department of Agriculture - NASS. ²U.S. Department of Agriculture - ERS. ³U.S. Department of Commerce. ⁴Federal Reserve Board. ⁵U.S. Department of Labor. ⁶Preliminary. ⁷Includes cash receipts from marketings, government payments, nonmoney income (gross rental value and home consumption), other income (machine hire custom work and recreational income), and value of change in farm inventories.

ERS, Farm Structure and Performance Branch, (202) 694-5592; NASS, Environmental, Economics, and Demographics Branch, (202) 720-3570.

IX-2 FARM RESOURCES, INCOME, AND EXPENSES

Table 9-2.—Farms: Number, land in farms, and average size of farm, U.S., 1990–99¹

Year	Farms ²	Land in farms	Average size farm
	Number	1,000 acres	Acres
1990	2,145,820	986,850	460
1991	2,116,760	981,736	464
1992	2,107,840	978,503	464
1993	2,201,590	968,845	440
1994	2,197,690	965,935	440
1995	2,196,400	962,515	438
1996	2,190,500	958,675	438
1997	2,190,510	956,010	436
1998	2,191,360	953,500	435
1999 ³	2,194,070	947,340	432

¹The farm definition was changed in 1993 to include maple syrup, short rotation woody crops, and places with 5 or more horses. ²A farm is any establishment from which \$1,000 or more of agricultural products were sold or would normally be sold during the year. ³Preliminary.

NASS, Environmental, Economics, and Demographics Branch, (202) 720–6146.

Table 9-3.—Farms: Percent of farms, land in farms, and average size, by economic sales class, United States, June 1, 1998–99

¹ Cropland harvested, crop failure, and cultivated summer fallow. ² Grassland and other nonforest pasture and range. ³ Excludes reserved and other forest land duplicated in parks and other special uses of land. Includes forested grazing land. ⁴ Includes rural transportation areas, Federal and State areas used primarily for recreation and wildlife purposes, military areas, farmsteads, and farm roads and lanes. ⁵ Miscellaneous areas such as marshes, open swamps, bare rock areas, and deserts, including urban and other special uses not inventoried. ⁶ Approximate land area as established by the Bureau of the Census in conjunction with the 1990 Census of Population.

ERS, Resource Economics Division, (202) 694-5528. Estimates based on reports and records of the U.S. Departments of Agriculture and Commerce, and public land administering and conservation agencies. Estimates developed for years coinciding with a Census of Agriculture.

¹ Beginning in July 1984, three surveys a year were conducted in the 48 contiguous States and Hawaii. In 1989, January was added to the survey program. Data are obtained from establishments for the week that includes the 12th. ² Includes farm operators and partners doing 1 or more hours of farm work and other unpaid workers working 15 hours or more during the survey week without cash wages. ³ Includes all persons doing farm work for pay during the survey week. ⁴ Excludes agricultural service workers. ⁵ Annual average not computed. ⁶ Discontinued.

NASS, Livestock and Economics Branch, (202) 720-3570.

¹ Includes wool, mohair, horses, mules, honey, beeswax, bees, goats, rabbits, aquaculture, and fur animals. These items are not included in the separate groups of livestock and products shown. ²Cattle and calves, sheep and lambs, and hogs. ³Butter, butterfat, wholesale milk, retail milk, and milk consumed on farms. ⁴Chicken eggs, commercial broilers, chickens, and turkeys. ⁵Feed grains and forage crops. ⁶All wheat, rye, and rice. ⁷Soybeans, peanuts harvested for nuts, sunflower seed, and flaxseed. ⁸Potatoes, sweetpotatoes, dry edible beans, dry field peas, truck crops for processing, and truck crops for fresh market having value. ⁹Fruits, berries, and tree nuts having value. Citrus production is based on year of harvest for 1960 to date; earlier years are based on year of bloom. ¹⁰Includes sugar crops, floriculture and ornamentals, forest products, legums and grass seeds, hops, mint, broomcorn, popcorn, hemp fiber and seed, and flax fiber.

ERS, Environmental Indicators and Resource Accounting Branch (202) 694-5601.

Table 9-21.—Hired farmworkers: Number of Workers and Median Weekly Earnings, 1997–99^{1,2}

Part-time (less than 35 hours per week)	164	162	172	100	100	105

¹ Represents average number of persons 15 years old and over in the civilian noninstitutional population who were employed per week as hired farmworkers. Based on the Current Population Survey microdata earnings file. ² Data for 1994 and 1995 are not directly comparable with data for 1993 and earlier years because of survey redesign. ³ "Median weekly earnings" is the value that divides the earnings into two equal parts, one part having earnings above the median and the other part having earnings below the median. "Earnings" refers to the weekly earnings the farmworker usually earns at a farmwork job, before deductions, and includes any overtime pay or commissions. ⁴ Revised. ⁵ Preliminary. ⁶ Excludes persons of Hispanic origin. ⁷ Educational attainment levels, prior to January 1992, reflected years of schooling completed rather than degrees or diplomas received.

ERS, Food Assistance, and Rural Economy Branch, (202) 694–5438.

¹ Corn for grain, oats, barley, and sorghum for grain. ² Wheat, rye, and rice. ³ Crops included in area planted and area harvested are corn, sorghum, oats, barley, winter wheat, rye, durum wheat, other spring wheat, rice, soybeans, peanuts, sunflower, cotton, dry edible beans, potatoes, and sugarbeets. Harvested acreage for all hay, tobacco, and sugarcane are used in computing total area planted. ⁴ Area for fresh market is area for harvest, including any partially harvested or not harvested because of low prices or other economic factors. Area for processing is area harvested. ⁵ Includes the following fruits and nuts: Citrus fruits—oranges, tangerines, Temptles, grapefruit, lemons, limes, tangelos, and K-Early Citrus (area is for the year of harvest); deciduous fruits—commercial apples, peaches, pears, grapes, cherries, plums, prunes, apricots, bananas, nectarines, figs, kiwifruit, olives, avocados, papayas, dates, berries, guavas, cranberries, pineapples and strawberries; nuts—walnuts, almonds, filberts, macadamias, and pistachios.

NASS, Crops Branch, (202) 720–2127.

Mohair ⁴	6,814	5,054	2,896	15,341	12,562	10,016
Catfish ⁵	425,383	426,827	475,309
Trout ⁶	199,511	196,536	220,316	71,998	79,765	78,911
Honey	177,166	147,795	147,254
Eggs	Millions 76,377	Millions 77,532	Millions 79,690	4,776,252	4,539,929	4,349,521

¹ For cattle, sheep, and hogs, the quantity of net production is the live weight actually produced during the year, adjustments having been made for animals shipped in and changes in inventory. ² Preliminary. ³ Young chickens of meat-type strains raised for meat production. ⁴ AZ, NM, and TX. ⁵ Includes eggs, fingerlings and stockers. ⁶ Includes eggs, fingerlings and stockers, Sep 1 - Aug 31.

NASS, Livestock Branch, (202) 720-3570.

Table 9-26.—Agricultural productivity: Index numbers (1992=100) of farm output per unit of input, United States, 1987–96

Year	Productivity ¹	Year	Productivity ¹
1987	87	1992	100
1988	83	1993	94
1989	90	1994	105
1990	93	1995	100
1991	92	1996	106

¹ Productivity is the output-input ratio. The ratio is obtained by dividing the index of farm output in table 9-25 by the index of total input in table 9-26.

ERS, Environmental Indicators and Resource Accounting Branch (202) 694-5601.

Table 9-27.—U.S. farm foods: Marketing bill, farm value, and consumer expenditures, 1989–98¹

Year	Total marketing bill	Farm value	Expenditures for farm foods	Year	Total marketing bill	Farm value	Expenditures for farm foods
	Billion dollars	Billion dollars	Billion dollars		Billion dollars	Billion dollars	Billion dollars
1989	315.6	103.8	419.4	1994	402.6	109.6	512.2
1990	343.6	106.2	449.8	1995	415.7	113.8	529.5
1991	363.5	101.6	465.1	1996	424.5	122.2	546.7

1998 ⁴	227.9	50.4	24.4	20.7	22.2	120.2	465.8

¹Includes employee wages or salaries, and their health and welfare benefits. Also includes imputed earnings of proprietors, partners, and family workers not receiving stated remuneration. ²Includes depreciation, rent, advertising and promotion, interest, taxes, licenses, insurance, professional services, local for-hire transportation, food service in schools, colleges, hospitals, and other institutions, and miscellaneous items. ³The marketing bill is the difference between the farm value or payments to farmers for foodstuffs and consumer expenditures for these foods both at foodstores and away from home eating places. Thus, it covers processing, wholesaling, transportation, and retailing costs and profits. ⁴Preliminary.

ERS, Food Markets Branch, (202) 694-5375.

¹ The market basket consists of foods that mainly originate on U.S. farms bought in foodstores in a base period, currently 1982–84. ² Indexes of retail cost are components of the Consumer Price Index published by the Bureau of Labor Statistics. ³ Gross return or payment to farmers for the farm products equivalent to foods in the market basket. ⁴ The spread between the retail cost and farm value is an estimate of the gross margin received by marketing firms for assembling, processing, transporting, and distributing the products. ⁵ Preliminary.

ERS, Food Markets Branch (202) 694-5375.

¹ Marketing year average prices for crops; weighted calendar year average for livestock and livestock products, except chickens, eggs, and hogs, which are on a Nov.-Dec. marketing year basis. Unless otherwise noted, these are averages for marketing season or calendar year computed by weighing State prices by quantities sold, or by production for those commodities for which virtually all the production is sold. ²Preliminary. ³Parity prices are for January of the year shown as published in the January issue of Agricultural Prices. ⁴Previous year. ⁵Average local market price for wool sold excluding incentive payment. ⁶Average local market price for mohair sold excluding incentive payment. Texas only prior to 1988. ⁷Crop year begins with bloom in one year and ends with completion of harvest the following year. Prices refer to the year harvest begins. Thus the prices shown for 1996 relate to the citrus crop designated as 1996-97 in the production reports. ⁸Equivalent packinghouse-door returns for California, Oregon (pears only), Washington, and New York (apples only), and prices as sold for other States. ⁹Equivalent returns at processing plant-door. ¹⁰Equivalent returns at packinghouse-door. ¹¹Weighted average of co-op and independent sales. Co-op prices represent pool proceeds excluding returns from non-cranberry products and before deductions for capital stock and other retains. ¹²Equivalent per unit returns for bulk fruit at first delivery point. ¹³Average price as sold. ¹⁴FOB shipping point when available. Weighted average of prices at points of first sale when FOB shipping point price not available. ¹⁵Prices are in-shell basis except almonds which are shelled basis. ¹⁶Includes some processing. ¹⁷Simple average of States weighted by estimated Jan. 1 head for U.S. average. ¹⁸Sold by farmers directly to consumers. ¹⁹Prices for fresh and processing breakdown no longer published to avoid disclosure of individual operations.

NASS, Livestock and Economic Branch, (202) 720-3570.

¹ These indexes are computed using the price estimates of averages for all classes and grades for individual commodities being sold in local farm markets. In computing the group indexes, prices of individual commodities have been compared with 1990–92 weighted average prices. The resulting ratios are seasonally weighted by average quantities sold for the most recent previous 5-year period. For example, 1994 indexes use quantities sold for the period 1988–92. Then, the 1990–92 indexes are adjusted to a 1910–14 reference. ² Fresh market for noncitrus, and fresh market and processing for citrus. ³ Ratio of Index of Prices Received to the Index of Prices Paid by Farmers for Commodities and Services, Interest, Taxes, and Farm Wage Rates. ⁴ Preliminary.

NASS, Environmental, Economics, and Demographics Branch, (202) 720-3570.

¹ Prices paid by farmers are collected, for the most part, from retail establishments located in smaller cities and towns in rural areas. Prior to 1995, recorded prices reflected a modified annual average based on frequency item was surveyed during the year. Recorded item values, 1995-99, are the U.S. April average price. ²Excludes Federal, State, and local per gallon taxes where applicable. ³Excludes Federal excise tax. ⁴Includes Federal, State, and local per gallon taxes. ⁵Excludes cost of application, except for limestone. ⁶Discontinued in 1998. ⁷Added in 1997. ⁸With hydraulic lift, transport wheels, and tires. ⁹Formulation abbreviations: EC—Emulsifiable Concentrate, DF—Dry Flowable, DG—Dry Granular, G—Granular, L—Liquid, S—Solution, SP—Soluble Powder, and WP—Wettable Powder. ¹⁰Insufficient data.

¹National averages during the marketing years for the individual crops, beginning in the years shown. ²The target price is known in the statute as the "established price". ³1 1/16 strict low middling, micronaire 3.5 through 4.9. ⁴For quota portion of crop. ⁵No support program. ⁶Grade No. 2 or better except for oats which is Grade No. 3. ⁷Includes flaxseed, sunflower seed (oil and other), safflower, rapeseed (industrial), canola and mustard seed. ⁸Loan rate was reduced from 63 to 61 cents per pound on December 23, 1987, because of the Omnibus Budget Reconciliation Act of 1987. ⁹The Federal Agriculture Improvement and Reform Act of 1996 replaced the deficiency payment/production adjustment programs for the program crops with a Production Flexibility Contract program, making target prices no longer applicable beginning with the 1996/97 marketing year. ¹⁰The rye price support program was terminated by the Federal Agriculture Improvement and Reform Act of 1996. ¹¹As of January 1, 1996. ¹²The honey price support program was terminated by the Federal Agriculture Improvement and Reform Act of 1996. ¹³The wool and mohair support programs terminated as of December 31, 1995, as required by Public Law 103-130. ¹⁴As of January 1, 1997. ¹⁵As of January 1, 1998.

¹ USDA estimates and publishes individual cash receipt values only for major commodities and major producing States. The U.S. receipts for individual commodities, computed as the sum of the reported States, may understate the value of sales for some commodities, with the balance included in the appropriate category labeled "other" or "miscellaneous." The degree of underestimation in some of the minor commodities can be substantial.

² Sale of all types of citrus fruit sold before the traditional marketing year, which begins in October.

Less depreciation ³	6,795	6,906	6,578	7,409
Less wages paid to operator ⁴	522	531	513	637
Less farmland rental income ⁵	769	672	568	543
Less adjusted farm business income due to other household(s) ⁶	649	1,094	*1,505	1,332
Dollars per farm operator household				
Equals adjusted farm business income	2,484	4,300	3,513	4,436
Plus wages paid to operator	522	531	513	637
Plus net income from farmland rental ⁷	1,053	1,178	945	868
Equals farm self-employment income	4,059	6,009	4,971	5,941
Plus other farm-related earnings ⁸	661	1,898	1,234	1,165
Equals earnings of the operator household from farming activities	4,720	7,906	6,205	7,106
Plus earnings of the operator household from off-farm sources ⁹	39,671	42,455	46,358	52,628
Equals average farm operator household income comparable to U.S. average household income, as measured by the CPS	44,392	50,361	52,562	59,734
Dollars per U.S. household				
U.S. average household income ¹⁰	44,938	47,123	49,692	51,855
Percent				
Average farm operator household income as percent of U.S. average household income	98.8	106.9	105.8	115.2
Average operator household earnings from farming activities as percent of average operator household income	10.6	15.7	11.8	11.9

¹The relative standard exceeds 25 percent, but is no more than 50 percent. ²Farm operator household income is defined to be consistent with definitions used in the Current Population Survey (CPS). The CPS, conducted by the Census Bureau, is the source of official U.S. household income statistics. The CPS defines income to include any income received as cash. In-kind receipts are excluded. The CPS definition departs from a strictly cash concept by including depreciation in the list of operating expenses that farm operators and other self-employed people subtract from gross receipts when they report net money income. ³A component of farm sector income. Excludes income of contractors and landlords as well as the income of farms organized as nonfamily corporations or cooperatives and farms run by a hired manager. Includes the income of farms organized as proprietorships, partnerships, and family corporations, which are all closely held by households. ⁴Consistent with the CPS definition of self-employment income, reported depreciation expenses are subtracted from net cash farm income. The Agricultural Resource Management Study collects farm business depreciation used for tax purposes. ⁵Wages paid to the operator are subtracted here because they are not shared among other households that have claims on farm business income. These wages are added to the operator household's adjusted farm business income to obtain farm self-employment income. ⁶Gross rental income is subtracted here because net rental income from the farm operation is added below to income received by the household. ⁷More than one household per farm may have a claim on the income of a farm business. The national average is 1.1 households per farm sharing the income of a farm business. ⁸Includes net rental income from the farm business. Also includes net rental income from farmland held by household members that is not part of the farm business. In 1994, net rental income was collected as a part of off-farm income. ⁹Includes wages paid to other operator household members by the farm business and earnings (net income) from a farm business other than the one being surveyed. ¹⁰Income from wages, salaries, nonfarm businesses, interest, dividends, transfer payments, net rental income from nonfarm properties, etc. In 1994, also includes net rental income from farmland.

¹The average rates are estimates (rates over \$10.00 are rounded to the nearest dime) based on survey indications of monthly lease rates for private, non-irrigated grazing land from the January Agricultural Survey. ²Includes animal unit plus cow-calf rates. Cow-calf rate converted to animal unit (AUM) using (1 aum=cow-calf *0.833). ³Seventeen Western States: All States listed. ⁴Sixteen Western States: All States, except Texas. ⁵Eleven Western States: AZ, CA, CO, ID, MT, NV, NM, OR, UT, WA, WY. ⁶Nine Great Plains States: CO, KS, NE, NM, ND, OK, SD, TX, WY.
