

# Bayer/PPG, Signatures Of Sustainability Event

## August 28-29, 2008; Pittsburgh Workshop

PPG Monroeville Chemical Center and Bayer Corporation Pittsburgh Site, both located in the Pittsburgh area, are being honored by the Wildlife Habitat Council (WHC) in 2008 as Signatures of Sustainability: a recognition of excellence in programs that both enhance habitat and reach out to the community through education. To celebrate that honor, PPG, Bayer and WHC, with support from the Heinz Endowments, have organized a two-day educational event **which is open to WHC Members and Conservation Partners**, as well as to the dedicated employees of both exemplary sites. Join us in Pittsburgh to visit two of WHC's most dynamic programs and learn how they do what they do so well.

### Schedule of Events

**Thursday, August 28:** held at PPG Monroeville Chemicals Center

440 College Park Drive, Monroeville PA 15146

*Certified Wildlife at Work Habitat, 2000; Certified Corporate Land for Learning, 2003*

- 11:30 AM Lunch and Signatures of Sustainability Recognition (Buffet will be provided)
- 12:30-4:00 PM Overview of PPG program includes the history of their long-lived nest-box monitoring program and the establishment of the PPG Monarch Meadow; Sessions also include an introduction to the Corporate Lands for Learning Program (CLL) for the Monarch Meadow that links to the curricula in local schools; tour of the habitat and a chance to sample hands-on learning techniques from the CLL program will be included, weather permitting.
- 6:30- 8:30PM Reception & Dinner at the Pittsburgh Zoo & PPG Aquarium. Come celebrate the success of these dedicated companies and the many other Pittsburgh area companies who have established successful programs to enhance habitat and conservation education.

A trail through the Habitat at Bayer, Pittsburgh Site
