

<b>TRANSPORTED GROUPS - COMPATIBILITY</b>	Live animals transported in the same primary enclosure must be compatible. [3.14, 3.36, 3.61, 3.87, 3.113, 3.137]
<b>Criteria</b>	Animals transported in the same enclosure must be: <ul style="list-style-type: none"> <li>• of the same species</li> <li>• of comparable size</li> <li>• non-aggressive toward each other</li> </ul>
<b>Exception</b>	Dogs and cats that are private pets, compatible, and of comparable size may be transported in the same primary enclosure
<b>Species Specific</b>	<p><b>Dogs &amp; Cats</b>                  Acceptable groups for transportation include, but are not limited to, puppies and kittens 4 months of age or less: [3.14(d)(2)]</p> <ul style="list-style-type: none"> <li>• as a litter, or</li> <li>• with their dam</li> </ul> <p>Unacceptable groupings for transportation include, but are not limited to:</p> <ul style="list-style-type: none"> <li>• overly aggressive or vicious dogs or cats with other animals [3.14(d)(3)]</li> <li>• female dogs or cats in heat with any male animal [3.14(d)(4)]</li> </ul> <p><b>Nonhuman Primates</b>                  Only one nonhuman primate must be placed in a transport enclosure except for: [3.87(d)(1)]</p> <ul style="list-style-type: none"> <li>• a mother and her nursing infant</li> <li>• an established male-female pair</li> <li>• an established family group</li> <li>• a compatible pair of juveniles that have not reached puberty</li> </ul> <p>Nonhuman primates must be of the same species if transported in adjacent or connected primary enclosures. [3.87(d)(2)]</p>

A female nonhuman primate in estrus may **not** be transported with a male. [3.87(d)(1)(ii)]

**Marine Mammals [3.113(d)]**

Sexually immature marine mammals must only be transported with:

- their dams, or
- other juvenile marine mammals

Socially dependant animals, e.g., sibling, dam, or other member of a family group, must be allowed visual and olfactory contact whenever reasonable.

A female marine mammal must **not** be transported with any mature male marine mammal.

**Other Animals [3.137(b)]**

Sexually immature animals must only be transported with:

- their dams, or
- other juvenile animals

Socially dependant animals must be allowed visual and olfactory contact whenever reasonable.

A female animal in season must **not** be transported with any mature male animal.
