One hundred and sixty-three watershed rehabilitation projects have been funded in 25 states. See the back page for list of projects by state.

Watershed Rehabilitation Projects Funded in FY 2008

The FY 2008 appropriations bill included \$19,860,000 for watershed rehabilitation. This allowed for continued or new construction of 37 dam rehabilitation projects in 12 states. Appropriations were not available to fund requests to begin construction to rehabilitate five dams, to complete 36 previously funded designs or project plans, or to begin planning for 45 dam rehabilitation projects.

NRCS state conservationists requested \$42 million for 95 projects in 28 states for fiscal year 2009. The requests included initiating 37 new projects not previously funded. The requests included assessments of 102 dams.

For additional information about watershed rehabilitation go to the Natural Resources Conservation Service website, www.nrcs.usda.gov and click on "Programs" and then on "Watershed Rehabilitation".
