

# “What light through yonder window breaks?”

Well, actually, it's a 750-watt spotlight equipped with an ellipsoidal reflector.

Although we prefer working behind the scenes, Dominion is proud to support the performing arts and all the talented and dedicated people who bring them to life on stage. From powering the tools that help build the sets, to ensuring the lights go up on cue, to keeping the theater cool in the summer and warm in winter, we're happy to play a supporting role. Dominion and the Dominion Foundation invest more than \$20 million each year in programs that help make life brighter for the communities we serve. To learn more about how Dominion is putting our energy to work for the arts, visit [www.dom.com](http://www.dom.com).
