City: Carmichael

State: California

zipcode: 95608

Question1: U.S. parity prices that are lower for say, rice, than parity prices of rice of another country, the goods should be traded for goods that country can produce to support both trade sectors, eg. rice for chips at parity prices.

Question2: Offering non interest bearing loans to farmers with parity price support of production on farms less than 2000 acres.

Question3: Farms with acreage greater than 2000 acres should not require Federal assistance.

Question4: By utilizing the farm journals online and hard copies to educate the farmers to the principles of conservation and environmental responsibility. Monitor the sale of known pollutants with a ceiling on the use of chemicals.

Question5: Major investment in agricultural education to the extent we have an education driven agricultural production.

Incentives given for use of rural technology including IT. Provide family health care insurance.

Question6: Connect farmers with agricultural colleges and support research. Enhance work-study program scholarships.
