TEXAS, Mid - South

TXZ229>234-239>247 **La Salle - McMullen - Live Oak - Bee - Goliad - Victoria - Webb - Duval - Jim Wells - Kleberg - Nueces - San Patricio - Aransas - Refugio - Calhoun**

01	0000CST								
30	2359CST			0	0				Drought

Despite beneficial rainfall that fell in the last half of the month, the rainfall was not widespread enough or heavy enough to alleviate drought conditions across South Texas. Exceptional drought conditions (per the U.S. Drought Monitor) persisted across the Rio Grande Plains and most of the Coastal Bend, with the exception of Victoria and Calhoun counties where severe drought conditions continued.

The Corpus Christi International Airport recorded only 0.25 inches of rainfall during April of 2006, which was only 12% of normal. Victoria recorded only 0.75 inches of rainfall, which was 25% of normal. From January 2006 through April 2006 the Corpus Christi International Airport recorded only 0.89 inches of rainfall, which was 12% of the normal rainfall received from January through April.

Reservoir levels continued to slowly fall at Choke Canyon and Lake Corpus Christi, and the wildfire danger remained high across South Texas.

Duval County

Freer	25	1630CST			0	0			Hail(1.00)
-------	----	---------	--	--	---	---	--	--	------------

Duval County

7 W San Diego	25	1645CST			0	0			Hail(0.88)
---------------	----	---------	--	--	---	---	--	--	------------

Golfball size hail reported between Ramirez and Concepcion on C.R. 268.

Duval County

6 SE Realitos to 7 SE Realitos	25	1820CST 1825CST	1	100	0	0	10K		Tornado (F0)
-----------------------------------	----	--------------------	---	-----	---	---	-----	--	--------------

Tornado observed by law enforcement 15 miles east-northeast of Hebronville, or roughly 6 miles southeast of Realitos. The tornado formed near FM 260, and destroyed a 40 ft by 80 ft hay barn. Debris from the barn struck the northwest corner of nearby home, with a board piercing through a wall, ceiling and roof of the home. No injuries occurred.
