Tropical Storm Erin made landfall as a minimal tropical storm near Rockport and Lamar, Texas during the morning hours of August 16th. The highest sustained wind speed over land was 21 knots, recorded at the Rockport ASOS. The highest peak wind gust recorded over land was 40 knots recorded by the Aransas RAWS site on the Aransas National Wildlife Refuge. The lowest sea level pressure was 1005.8 mb recorded by the Copano Bay-MANER2 TCOON site. Maximum storm tides of 2.0 to 2.5 feet were recorded from Seadrift up to Port Lavaca, resulting in only minor beach errosion. Storm total rainfall ranged from under half an inch southwest of Interstate 37 to between 2 and 4 inches across Calhoun, northern Refugio, northern Aransas, Victoria, Goliad, northern Bee and far northern Live Oak counties.
