

Office of Scientific and Technical Information U.S. Department of Energy

<http://www.osti.gov/preprint>

- Released January 31, 2000
- A searchable gateway to over 1,000 preprint sources and over 300,000 preprints
- A query pulses 24 large databases via a single interface

PrePRINT Network

About The Department of Energy's **PrePRINT Network** is a searchable gateway to preprint servers that deal with scientific and technical disciplines of concern to DOE. Such disciplines include the great bulk of physics, materials, and chemistry, as well as portions of biology, environmental sciences and nuclear medicine.

What's New

Search Selected Sites With a single query, users can search one or a collection of existing preprint servers. The Network pulses the search engines of such servers, compiles the results, and returns them to the users.

Subject Pathways The **PrePRINT Network** complements **PubSCIENCE**, DOE's tool for searching across journal literature, and the **Information Bridge**, DOE's vast production of full-text R&D gray literature issued since July 1995.

Browse

Scientific Societies Note: Special viewers may be required to view some of the preprints. For more information, see the [System Requirements](#).
