

**Table 23. Renewable electricity capacity and generation in two cases, 2005, 2015, and 2025**

| Projection  | 2005           |                    | 2015           |                    | 2025           |                    |
|---|----------------|--------------------|----------------|--------------------|----------------|--------------------|
|   | Reference case | PTC extension case | Reference case | PTC extension case | Reference case | PTC extension case |
| <i>Electric power sector net summer capacity (gigawatts)</i>    |                |                    |                |                    |                |                    |
| Conventional hydropower   | 78.1           | 78.1               | 78.2           | 78.2               | 78.2           | 78.2               |
| Geothermal  | 2.2            | 2.2                | 2.7            | 3.2                | 4.6            | 5.3                |
| Municipal solid waste   | 3.4            | 3.4                | 3.6            | 3.7                | 3.7            | 3.7                |
| Wood and other biomass  | 1.8            | 1.8                | 2.1            | 3.4                | 4.5            | 5.6                |
| Solar thermal   | 0.4            | 0.4                | 0.5            | 0.5                | 0.5            | 0.5                |
| Solar photovoltaic  | 0.1            | 0.1                | 0.2            | 0.2                | 0.4            | 0.4                |
| Wind  | 8.2            | 8.2                | 9.3            | 63.0               | 11.3           | 63.0               |
| Total renewable   | 94.1           | 94.1               | 96.5           | 152.1              | 103.1          | 156.6              |
| Total electric power industry                                   | 945            | 945                | 967            | 1,014              | 1,145          | 1,186              |
| <i>Electric power sector generation (billion kilowatthours)</i> |                |                    |                |                    |                |                    |
| Conventional hydropower   | 288.4          | 288.4              | 300.5          | 300.6              | 301.1          | 301.1              |
| Geothermal  | 12.1           | 12.1               | 16.1           | 21.0               | 32.8           | 38.3               |
| Municipal solid waste   | 24.3           | 24.3               | 26.1           | 26.5               | 26.5           | 26.9               |
| Wood and other biomass  | 20.6           | 20.7               | 30.0           | 33.1               | 37.4           | 44.5               |
| Dedicated plants  | 10.1           | 10.1               | 11.7           | 19.8               | 27.3           | 35.4               |
| Co-firing   | 10.6           | 10.6               | 18.3           | 13.3               | 10.1           | 9.1                |
| Solar thermal   | 0.7            | 0.7                | 0.9            | 0.9                | 1.0            | 1.0                |
| Solar photovoltaic  | 0.1            | 0.1                | 0.5            | 0.5                | 1.0            | 1.0                |
| Wind  | 23.6           | 23.6               | 27.3           | 205.7              | 34.5           | 205.7              |
| Total renewable   | 369.8          | 369.8              | 401.4          | 588.3              | 434.2          | 618.5              |
| Coal  | 2,054          | 2,054              | 2,305          | 2,275              | 2,890          | 2,802              |
| Natural gas   | 699            | 699                | 1,172          | 1,054              | 1,403          | 1,331              |
| Total net generation to the grid                                | 3,890          | 3,890              | 4,676          | 4,708              | 5,522          | 5,545              |
