

safety investigation of the World Trade Center disaster. NIST is investigating the building construction, the materials used, and the technical conditions that combined to cause the World Trade Center disaster following the airplane impacts. The primary objectives of the NIST-led technical investigation of the WTC disaster are to:

- (1) Determine why and how WTC 1 and 2 collapsed following the initial impacts of the aircraft, and why and how WTC 7 collapsed;
- (2) Determine why the injuries and fatalities were so high or low depending on location, including all technical aspects of fire protection, occupant behavior, evacuation, and emergency response;
- (3) Determine what procedures and practices were used in the design, construction, operation, and maintenance of WTC 1, 2, and 7; and
- (4) Identify, as specifically as possible, areas in building and fire codes, standards, and practices that are still in use and warrant revision.

The investigation is part of a broader NIST response plan to the WTC disaster, which includes research and development and information dissemination and technical assistance.

To request an opportunity to speak, NIST must receive the following information via e-mail (wtc@nist.gov) or fax ((301)-975-6122) no later than 5 p.m. on February 5, 2004:

- Name and contact information (including fax, phone, and/or e-mail) of individual who would be speaking.
- Name and complete address of organization(s) that speaker represents.
- A 150- to 200-word summary of key points to be made by the speaker relating to:
 - (1) Specific technical aspects of the individual projects as reported in our December 2003 progress update and presentations to the National Construction Safety Team Advisory Committee (available on the NIST WTC Investigation Web site <http://wtc.nist.gov>);
 - (2) Information that NIST might consider in the time remaining that is within the scope of the eight projects described in the investigation plan (the plan is available at the same Web site); and
 - (3) Areas that NIST should consider, within the scope of its investigation, in order to make recommendations for specific improvements to building and fire practice, standards, and codes, and their timely adoption.

Those who are selected to speak will be contacted by 12 noon on February 9, 2004, using the fax, phone, or e-mail address provided, and informed of the decision and the maximum amount of time allotted to each speaker.

Speakers will be selected based on the following criteria:

- (1) Relevance of the 150- to 200-word summary on any or all of the above three topics,
- (2) Order in which requests are received,
- (3) Balancing interests and perspectives, and
- (4) Avoidance of duplication in comments and suggestions.

Speakers who wish to expand upon their oral statements, those who wish to speak but cannot be accommodated on the agenda, and those who are unable to attend in person are invited to submit written statements and supporting material to the WTC Technical Information Repository, Building and Fire Research Laboratory, National Institute of Standards and Technology, MS 8610, Gaithersburg, MD 20899-8610; electronically by e-mail to wtc@nist.gov; or by fax to (301) 975-6122. All comments received will be forwarded to the appropriate investigator for consideration.

Statements made at the meeting and/or submitted to NIST may be recorded and transcribed and made available to the public at a later date. The meeting will be Web cast and linked to the NIST home page, <http://www.nist.gov/>. Details will be available on that Web site before the meeting.

Title: Part C of the Individuals with Disabilities Education Act Annual Performance Report

Abstract: States are required to submit a performance report to the Secretary under section 80.40 of the Education Department General Administrative Regulations. The State Interagency Coordinating Committee is required under section 641 of Part C of the IDEA to submit an annual report to the Secretary and the State's Governor on the status of the early intervention program for infants and toddlers with disabilities and their families. This collection serves both of these functions. OSEP is implementing an integrated, four-part accountability strategy: (1) Verifying the effectiveness and accuracy of States' monitoring, assessment, and data collection systems; (2) attending to States at high risk for compliance, financial, and/or management failure; (3) supporting States in assessing their performance and compliance, and in planning, implementing, and evaluating improvement strategies; and (4) focusing OSEPs' intervention on States with low ranking performance on critical performance indicators. Component 3 of OSEPs' accountability strategy is implemented through this Annual Performance Report. Reporting requirements for States' Self-Assessments, Improvement Plans, and Annual Performance Reports are being combined in this Part C Annual Performance Report.

Additional Information: We are also proposing that the Part C Performance Report shall be submitted annually for the purpose of updating the State's self-assessing and improvement planning, including reporting on the impact of the State's improvement activities on performance and compliance. The Secretary is proposing that the Annual Performance Report, covering grant year July 1, 2002 through June 30, 2003, will be submitted no later than March 31, 2004.
