Title: Small Business Innovation Research (SBIR) Program—Phase I—Grant Application Package.

Abstract: This application package invites small business concerns to submit a Phase I research application for the Small Business Innovation Research (SBIR) program. This is in response to Pub. L. 106-554, the "Small Business Reauthorization Act of 2000, H.R. 5667"

(the "Act") enacted on December 21, 2000. The Act requires certain agencies, including the Department of Education (ED), to establish a Small Business Innovation Research (SBIR) program by reserving a statutory percentage of their extramural research and development budgets to be awarded to small business concerns for research or R&D through a uniform, highly competitive, three-phase process each fiscal year.

Additional Information: The Act further requires the Small Business Administration (SBA) to issue policy directives for the general conduct of the SBIR programs within the Federal Government. In order to avoid public harm and comply with the law and SBA Policy Directives, the Department is requesting an emergency clearance by April 10, 2002. This is the only way to assure that applicants have an adequate response time, that their applications receive an expert peer review, and that their awards are made before the end of the fiscal year.

Frequency: Annually.

Affected Public: Businesses or other for-profit.

Reporting and Recordkeeping Hour Burden:

Responses: 250.

Burden Hours: 10,000.

EPA Science Advisory Board Metals Assessment Panel; Request for Nominations; EPA Science Advisory Board MARLAP Review Panel; Correction to Meeting Location; EPA Science Advisory Board Clean Air Scientific Advisory Committee; Advance Meeting Notification

1. Metals Assessment Panel; Request for Nominations

ACTION: Notice; request for nominations to serve on the Metals Assessment Panel of the U. S. Environmental Protection Agency's Science Advisory Board.

SUMMARY: The U.S. Environmental Protection Agency's (Agency, EPA) Science Advisory Board (SAB) is announcing the formation of a Metals Assessment Panel and is soliciting nominations of qualified individuals to serve on this Panel. The SAB was established to provide independent scientific and technical advice to the EPA Administrator on Agency positions; in this case advice on development of cross-Agency guidance for assessing certain hazards and risks for metals and metal compounds.

Any interested person or organization may nominate qualified individuals for membership on the Panel. Nominations (preferably in electronic format) should include the individual's name, occupation, position, qualifications to address the issue, and contact information (i.e., telephone number, fax number, mailing address, email, and/or Website). To be considered, all nominations must include a current resume (preferably electronic) providing information on the nominee's background, experience, and qualifications for this Panel.

Background

There has been considerable interest in the scientific assessments that the Agency conducts on metals and metal compounds. Discussions between the Agency and external stakeholders, as well as concerns expressed formally as part of the recent Toxics Release Inventory (TRI) lead rulemaking, have demonstrated the need for a more comprehensive, cross-Agency approach to metals assessments that can be applied to human health and ecological assessments. Therefore, the Agency is developing a Framework that will offer guidance for EPA programs to use when considering the various environmental properties of metals, such as
