DEPARTMENT OF ENERGY

Proposed Agency Information Collection

AGENCY: Department of Energy.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed information collection that DOE is developing for submission to the Office of Management and Budget (OMB), pursuant to the Paperwork Reduction Act of 1995, (44 U.S.C. 3501 *et seq.*). This information collection would collect information from individual homeowners, solar energy system installers and other solar energy industry representatives concerning the details of newly installed solar energy systems (e.g., system size and technology).

DATES: Consideration will be given to comments submitted by December 22, 1998.

ADDRESSES: Written comments may be submitted to: Department of Energy, Attn: Kimberley Kendall, Office of Renewable Energy and Energy Efficiency (EE-1), 6C-016/Forrestal Building, 1000 Independence Ave., SW, Washington, DC 20585. (202) 586-0927, E-mail: kim.kendall@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Collection Title: U.S. Department of Energy/Million Solar Roofs Initiative Registry.

Type of Review: New collection.

OMB Number: None.

Type of Respondents: Individuals, solar energy system installers, and other solar energy industry representatives.

Estimated Number of Respondents: 1,000.

Estimated Total Burden Hours: 500.

Frequency of Response: One time only.

Abstract: DOE plans to publicize widely the existence of the registry through its Regional Support Offices, the Million Solar Roofs website, DOE's bi-weekly electronic Million Solar Roofs newsletter, meetings, conferences and the like, and through its relationship with renewable energy organizations. Due to the high level of interest in MSR in the solar energy community, DOE expects that many solar energy system installers, individuals, utilities, governments, and solar energy manufacturers will wish to "register" their solar energy systems. Registration would take place electronically (a paper form would also be available upon request) by responding to a series of very brief questions. If a system met the established criteria, a Million Solar Roofs certificate would automatically be generated and mailed to the respondent. Registration would take place one time only. DOE plans to aggregate the data and generate reports detailing the
