Background

In 2004, the Department held a CTC competition with FY 2004 funds, in which it used the requirements, priorities, and selection criteria that it had established through a notice of final requirements, priorities, and selection criteria for novice and non-novice applicants for the CTC program, published in the **Federal Register** on April 16, 2004 (69 FR 20766). Under the requirements established and used in the FY 2004 competition, the Department ranked and funded separately two sets of applicants that met the established absolute priorities—novice applicants and non-novice applicants. The Department set aside approximately 75 percent of the funds for non-novice applicants and approximately 25 percent of the funds for novice applicants.

Because of the separate ranking of novice and non-novice applicants and the set-aside requirements, a number of high-quality applications received through the FY 2004 CTC competition were not funded. Accordingly, the Department proposes to make awards for FY 2005 based on the list of unfunded applicants from the FY 2004 CTC competition without regard to the set-aside provisions, thereby continuing to support and create local technology programs that are among the strongest in the nation.

Discussion of Proposed Changes

We will announce the final changes to these requirements in a notice in the **Federal Register**. We will determine the final requirements after considering responses to this notice and other information available to the Department.

Targeted Applicants

We propose to change two of the requirements of the CTC competition held in 2004 so that the Department is no longer required to: (1) Rank and fund novice and non-novice applicants separately, and (2) set aside at least 75 percent of the funds for non-novice applicants and up to 25 percent of the funds for novice applicants that met the absolute priorities.

For FY 2005, we are proposing to make awards from the list of unfunded applicants from the FY 2004 competition in the highest-ranking order, using the same priorities and selection criteria and irrespective of the novice or non-novice status of applicants.

Rationale

The Department received nearly 500 applications in response to the FY 2004 Notice Inviting Applications for the CTC program. With the \$9.5 million available, the Department awarded 25 grants. A number of high-quality applications remained unfunded. The Assistant Secretary has determined the best way to expend the \$4.9 million appropriated for FY 2005 is to make awards from the list of unfunded applicants from the FY 2004 CTC competition, without taking into account the novice or non-novice status of the applicants. By making awards from the list of unfunded applicants from the FY 2004 competition in this manner, the Department will ensure that the highest-quality applications are funded.

Executive Order 12866

This notice of proposed changes to requirements has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed changes to requirements are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed changes to requirements, we have determined that the benefits of the

proposed change to the requirements governing the FY 2004 CTC competition justify the costs.

We have also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Intergovernmental Review

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

SUPPLEMENTARY INFORMATION: The

information collected under the requirements of FERC-545 "Gas Pipeline Rates: Rate Change (Non-formal)" (OMB No. 1902-0154) is used by the Commission to implement the statutory provisions of sections 4, 5, 8, 10 and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717c-717o, PL 75-688, 52 Stat. 822 and 830) and Title III of the Natural Gas Policy Act (15 U.S.C. 3301-3432, Pl. 95-621). A natural gas company must obtain Commission authorization for all rates and charges made, demanded or received in connection with the transportation of natural gas in interstate commerce. The Commission is authorized to investigate the rates charged by natural gas pipeline companies subject to its jurisdiction. If, after the investigation, the Commission is of the opinion that the rates are "unjust or unreasonable or unjustly discriminatory or unduly preferential," it is authorized to determine and prescribe just and reasonable rates. The NGA also provides the Commission with a means for considering the reasonableness of rates through settlement conferences or hearings.

The data filed in rate change applications for all rates and charges made, demanded, or received in connection with the transportation of natural gas are used by the Commission to establish a basis for determining just and reasonable rates that should be charged, and the rate of return which can be earned by the regulated natural gas company. However rate regulation, combined with the obligations of major natural gas companies to serve all customers fairly and equitably, also prevents rate discrimination. Major natural gas companies and others engaged in the transportation of natural gas must file this information for ratemaking purposes and certain NGPA
