DATES: Interested persons are invited to submit comments on or before May 26, 1998.

ADDRESSES: Written comments and requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, S.W., Room 5624, Regional Office Building 3, Washington, DC 20202-4651.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U. S. C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Deputy Chief Information Officer, Office of the Chief Information Officer, publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this

collection on the respondents, including through the use of information technology.

Office of Elementary and Secondary Education

Type of Review: New.

Title: Consolidated State Performance Report.

Frequency: Annually.

Affected Public: State, local or Tribal Gov't; SEAs or LEAs.

Annual Reporting and Recordkeeping Hour Burden:

Responses: 52.

Burden Hours: 52.

Abstract: The reauthorized Elementary and Secondary Education Act (ESEA), in general, and its provision for submission of consolidated plans, in particular (see section 14301 of the ESEA), emphasize the importance of cross-program coordination and integration of federal programs into educational activities carried out with State and local funds. Yet while nearly all States receive ESEA formula grant program funding on the basis of consolidated plans, until now the Department has still required states to report on program performance and beneficiaries on a program-by-program basis. Continuing to do so sends an inconsistent message about the value of consolidated planning and program integration as tools for increasing student achievement. This consolidated state reporting instrument would replace individual program reporting under ESEA programs and Goals 2000 for all entities that submit ESEA consolidated plans (and be an optional reporting vehicle for the other states). It will allow state and local officials and educators to see, at one time, the full scope of their reporting (and corresponding data collection) responsibilities, and promote the Department's interest in (1) receiving essential information on how states have implemented their approved consolidated state plans and (2) promoting the Department's ability to provide assistance to states on how they may be able to use federal funds most effectively. In addition, the state consolidated performance report is intended as an initial step toward an optimal design to track indicators of program performance, including those the Department is required to develop under the Government Performance and Results Act. It is expected that reporting in future consolidated instruments will

change as the U.S. Department of Education and the states develop their capacities to elicit and use accurate and reliable information for monitoring, reporting, and improvement.
