DEPARTMENT OF ENERGY

Amended Record of Decision; Savannah River Site Waste Management, Savannah River Operations Office, Aiken, South Carolina

AGENCY: Department of Energy.

ACTION: Amended Record of Decision.

SUMMARY: This Record of Decision (ROD) modifies earlier Department of Energy (DOE) decisions concerning the treatment and disposal of low-level radioactive waste (LLW) and mixed hazardous and low-level radioactive waste (MLLW) at the Savannah River Site (SRS) to be consistent with DOE's subsequent programmatic decision. DOE Orders and policy require DOE to use its own facilities for treatment and disposal; however, an exemption may be granted, if this is not practical. Because of (1) SRS inability to meet state requirements for a MLLW disposal

facility, (2) funding reductions for waste treatment facilities, and (3) the apparent adequacy of existing and planned capacity at either DOE regional or commercial treatment and disposal facilities, DOE has decided to: continue to treat some SRS LLW onsite or, if an exemption is granted, at commercial treatment facilities, as previously decided; continue to dispose of SRS LLW and treatment residuals onsite, as previously decided, and, in addition, dispose of some SRS LLW and treatment residuals at DOE regional or, if an exemption is granted, at commercial disposal facilities; continue to treat some SRS MLLW onsite or, if an exemption is granted, at commercial treatment facilities, as previously decided, and, in addition, treat some SRS MLLW at other DOE regional treatment facilities; and dispose of treated SRS MLLW and treatment residuals at DOE regional or, if an exemption is granted, at commercial disposal facilities, not onsite, as previously decided. This decision is consistent with agreements between DOE and the State of South Carolina concerning MLLW management under the Federal Facility Compliance Act (FFCA) of 1992.
