- (1) A page is 8.5" × 11", on one side only with 1" margins at the top, bottom, and both sides.
- (2) You must double space (no more than three lines per vertical inch) all

text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables figures and graphs.

If you use a proportional computer font, you may not use a font smaller than a 12-point font. If you use a non-proportional font or a typewriter, you may not use more than 12 characters per inch.

The page limit does not apply to: the Application for Federal Assistance Form (ED 424); the Budget Information Form (ED 524) and attached itemization of costs; the other application forms and attachments to those forms; the assurances and certifications; or the one-page abstract and table of contents. The narrative should address fully all aspects of the selection criteria in the order listed and should give detailed information regarding each criterion. Do not simply paraphrase the criteria. Provide position descriptions for key personnel. Prepare a one-page single-spaced abstract which summarizes the purpose, design and expected outcomes of the proposed project.

Budget

Budget line items must support the goals and objectives of the proposed project and be directly applicable to the program design and all other project components. Prepare an itemized budget for each year of requested funding. Indirect costs for institutions of higher education which are the fiscal agents for Training for All Teachers Programs are limited to the lower of either 8% of a modified total direct cost base or the institution for higher education's actual indirect cost agreement. A modified direct cost base is defined as total direct costs less stipends, tuition and related fees and capital expenditures of \$5,000 or more. (Authority: 34 CFR 75.562)

Final Application Preparation

Use the above checklist to verify that all items are addressed. Prepare one original with an original signature, and include three additional copies. Do not use elaborate bindings or covers. The application package must be mailed to

the Application Control Center (ACC) and postmarked by the deadline date.

Submission of Application to State Educational Agency

Section 7146(a)(4) of the Elementary and Secondary Education Act of 1965, as amended, requires all applicants except schools funded by the Bureau of Indian Affairs to submit a copy of their application to their State educational agency (SEA) for review and comment (20 U.S.C. 7476(a)(4)). Section 75.156 of EDGAR requires these applicants to submit their application to the SEA on or before the deadline date for submitting their application to the Department of Education. This section of EDGAR also requires applicants to attach to their application a copy of their letter that requests the SEA to comment on the application (34 CFR 75.156). A copy of this letter should be attached to the Project Documentation Form contained in this application package. Applicants are reminded that the requirement for submission to the SEA and the requirements for Executive Order 12372 are two separate requirements.

Applicants that do not submit a copy of their application to their SEA will not be considered for funding.

Questions and Answers

May Training for All Teachers Include Providing Training Services for Teachers or Other Educational Personnel?

The primary purpose of the Training for All Teachers Program is to incorporate coursework and curricula related to the needs of LEP students into preservice and inservice professional development programs. However, in addition to improving coursework and curricula, grantees may, but are not required, provide training to participants during the course of the grant.

What are the Certification Requirements for the Training for all Teachers Program?

The Title VII Statute requires grantees to assist educational personnel in meeting State and local certification requirements. However, because certification requirements vary among states, applicants are given flexibility in designing activities that lead to meeting State and local certification requirements for bilingual education.

Coursework developed, revised, or offered must be part of a program which would lead to State and local certification. However, it is not a requirement that participants trained

under the program complete certification requirements during the course of the grant.

What Information may be Helpful in Preparing the Application Narrative for a Training for All Teachers Program?

- In responding to the Selection criteria applicants may wish to consider the following questions as a guide for preparing the application narrative:

- What are the specific responsibilities of schools, districts, institutions of higher education and other partnership organizations in planning, implementing and evaluating the proposed program?

- How will the training curricula incorporate high standards for teaching and learning?

- How is the proposed program linked to the institution's overall plan to improve teacher preparation programs for all teachers related to the needs of Limited English Proficient students?

- How will the products of the proposed program be integrated into teacher preparation program activities for all teachers?

- How will the program assist in systemically reforming policies and practices in the LEA, SEA or IHE related to the training of teachers to improve instructional services for LEP students.

- What performance indicators will the proposed program use to support the effectiveness of the program?

- What professional development activities are planned for school staff development specialists, or for higher education faculty to ensure that they are effectively prepared to provide training to prepare all teachers related to the needs of LEP students.

In addition, applicants may wish to consider the Department of Education Professional Development Principles in planning a Training for All Teachers Program. The following are the Professional Development Principles:

Professional Development

- Focuses on teachers as central to student learning, yet includes all other members of the school community.

- Focuses on individual, collegial and organizational improvement.

- Respects and nurtures the intellectual and leadership capacity of teachers, principals, and others in the school community

- Reflects best available research and practice in teaching, learning, and leadership.

- Enables teachers to develop further expertise in subject content, teaching strategies, uses of technologies, and other essential elements in teaching to high standards.

- Promotes continuous inquiry and improvement embedded in the daily life of schools.

- Is planned collaboratively by those who will participate in and facilitate that development.

- Requires substantial time and other resources.

- Is driven by a coherent long-term plan.

- Is evaluated ultimately on the basis of its impact on teacher effectiveness and student learning; and this assessment guides subsequent professional development efforts.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 11 on the application "Yes" and designated exemptions in 11a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. "Exemptions,"** below. The Narrative must be succinct. **Provide this information in an "Item 11/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 11 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 11/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.
- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

- (3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

- (4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

- (5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

- (6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

OMB Control No. 1801-0004 (Exp. 8/31/2001)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers

that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Education, Washington, DC 20202-4651.
