Abstract: This is a request to extend by six months the expiration date for the data collection instruments for the Impact Evaluation of a School-Based Violence Prevention Program so that data collection can be completed. Both a curriculum-based program and a whole-school program are being implemented together so that the impact of a hybrid model of school-based violence prevention can be tested, as was recommended by experts in the field of school-based violence prevention. The beginning of data collection was delayed due to difficulty in site recruitment. The extension will allow the contractor to complete the third and final year of data collection.
