##### **Proposed Priority and Eligibility Requirements**

We will announce the final priority and eligibility requirements in a notice in the **Federal Register**. We will determine the final priority and eligibility requirements after considering responses to this notice and other information available to the Department. This notice does not preclude us from proposing or using additional priorities or eligibility requirements subject to meeting applicable rulemaking requirements.

##### **Background**

Recent research confirms that the United States continues to have major problems associated with alcohol and other drug use on college campuses. Based on 2004 data from the Monitoring the Future study, approximately 39 percent of the Nation's college students engaged in heavy drinking (defined as five or more drinks in a row) in the previous two weeks. The Core Institute 2003 Statistics on Alcohol and Other Drug Use on American Campuses report found that nearly 71 percent of underage students used alcohol and more than 21 percent of all students used an illicit drug within the 30 days prior to taking the survey.

Survey data also indicate that drinking alcohol has, frequently, very negative consequences for college students. On the 2003 Core Institute survey, more than 32 percent of students reported that, in the year prior to the survey, they had gotten into an argument or fight as a result of their drinking, almost 30 percent reported that they had driven a car under the influence, almost 34 percent reported that they had missed a class because of their drinking, and almost 40 percent reported that they had done "something I later regretted" because of their drinking.

The Department of Education seeks to support projects that address high-risk drinking and drug use and that can become practical models for replication

and adaptation in other college communities. The goals of this competition are to identify models of effective campus-based alcohol and other drug prevention programs and disseminate information about these programs to other colleges and universities where similar efforts may be adopted.

##### **Proposed Priority**

Under this priority the Department would provide funding to Institutions of Higher Education (IHEs) that have been implementing effective alcohol and other drug prevention programs on their campuses. An IHE that receives funding under this priority must identify, enhance, further evaluate, and disseminate information about an effective alcohol or other drug prevention program being implemented on its campus. To meet the priority, applicants must provide in their application—

- (1) A description of an alcohol or other drug prevention program that has been implemented for at least two full academic years on the applicant's campus;
- (2) Evidence of the effectiveness of the program on the applicant's campus;
- (3) A plan to enhance and further evaluate the program during the project period; and
- (4) A plan to disseminate information to assist other IHEs in implementing a similar program.

##### **Proposed Eligibility Requirements**

We propose that only institutions of higher education (IHEs) that offer an associate or baccalaureate degree will be eligible under this program. Additionally, to be eligible, an IHE must not have received an award under this grant competition (CFDA 84.184N) during the previous five fiscal years (fiscal years 2000 through 2004).

##### *Executive Order 12866*

This notice of proposed priority and eligibility requirements has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of proposed priority and eligibility requirements are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of proposed priority and eligibility requirements, we

have determined that the benefits of the proposed priority and eligibility requirements justify the costs.

#### *Intergovernmental Review*

This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

#### Grant Energy, Inc.; Notice of Issuance of Order

April 1, 2005.

Grant Energy, Inc. (Grant) filed an application for market-based rate authority, with an accompanying rate tariff. The proposed rate tariff provides for purchase and sale of electricity at market-based rates. Grant also requested waiver of various Commission regulations. In particular, Grant requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by Grant.

On March 30, 2005, pursuant to delegated authority, the Director, Division of Tariffs and Market Development—South, granted the request for blanket approval under Part 34. The Director's order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by Grant should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004).

Absent a request to be heard in opposition by the deadline above, Grant is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Grant, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Grant's issuances of securities or assumptions of liability.
